

different parts of the world followed the financial statement. On the motion of Sir Andrew Agnew, seconded by the Hon. Joseph Napier, M. P., the report was then adopted and ordered to be printed. Resolutions tendering the thanks of the society to the general committee, treasurers, secretaries, and other officials, as well as to the ministers who had advocated the cause of the society throughout the year, &c., were spoken to by numerous speakers, after which a vote of thanks to the Earl of Shaftesbury, for presiding terminated the proceedings.

The Watchman, commenting upon the meeting, says: "It was everything that the friends of the mission could wish; it left no reasonable expectation unsatisfied, and will not suffer by a comparison with any previous similar demonstration which has been our privilege to witness. In the Earl of Shaftesbury the committee obtained the services of a chairman whose exalted rank was his least dignity, and whose admirable aptitude for the transaction of public business secured him the respect of the audience in the position he occupied; as the eminent Christian virtues which adorn and dignify his private character, and his ceaseless efforts in the cause of religion and philanthropy, had long previously won the admiration and the blessings of his countrymen at large. Nor the audience less worthy of the occasion than the Chairman. A mighty mass of human beings, animated by one object, hanging on the utterances of one voice, now hushed into the silence of deep and earnest attention to the masterly exposition of some great principle, now melted into pathos by some narrative whose simple and touching beauty goes at once to every heart, and now roused to an outburst of passionate enthusiasm by the thrilling and resistless energy of some eloquent appeal—this is at any time a sublime spectacle, and it was presented in perhaps its highest perfection on Monday.

Never did even Exeter Hall witness a more numerous assemblage under the auspices of the Wesleyan Missionary Society than it witnessed there, and never in that or any other structure was there exhibited a more perfect realization of the conception of one mighty heart throbbing in the bosoms of the whole. Meagre, indeed, must be the imagination, and cold must be the heart, of him who could gaze unmoved on such an assemblage so united for any object; but when, as on Monday, came the additional reflection, that the object then immediately in view, which touched with the sacred fire the lips of every speaker, and which held captive every intellect, and fired every bosom, and glowed on every cheek, and kindled in every eye, throughout the vast multitude that thronged to its utmost capacity the spacious Hall, was the highest and noblest which can ever engage the energies of man, and which lies nearest to the heart of God; when this reflection came, the beholder needed nothing more to assure him that a spectacle like this was the grandest on which he could ever gaze until the glory of the upper world should break upon his vision.

The merits of the speeches are such as almost to demand an apology for our detention of the reader from their perusal, even for a few minutes, by any remarks upon them, and we shall assuredly not attempt a detailed analysis of them. As prominent among them, however, we may name the impressive statement of facts, the broad and philosophic generalizations, and the earnest and touching appeals on behalf of India, the scene of his evangelistic labours, of the Rev. E. E. Jenkins; the whole warmed and brightened by a more vivid play of the imaginative faculty than is often formed in combination with such closely practical habits of thought. The address of Mr. McOwan will not fail to tell with equal power on its readers as on those who heard it—a fact which cannot always be affirmed of effective speeches. The universal and enthusiastic response of the meeting to Mr. McOwan's assurance to the noble Chairman, that while the Established Church need fear no injurious antagonism from Methodism, yet Methodists were, and Methodists we intend to remain, was significant on a subject as to which we have recently had occasion to offer some remarks.

Mr. Panshons' eloquence rolled forward with an energy too resistless to permit any other thoughts than those suggested by the speaker to intrude during the course of his address; or, otherwise the reflection would probably have presented itself to many minds, which was afterwards expressed by the Rev. Thos. Jackson and Dr. Buttig, that, as the Head of the Church removes our Newtons from the scene of labour to that of reward, He supplies their place with youthful champions of the Cross, whom He endows with their gifts and baptizes with their spirit."

**BRUTAL ATTACK ON A SENATOR AT WASHINGTON.**—After the Senate adjourned on the 22nd inst., a desperate assault was committed on Senator Sumner by Preston S. Brooks, a member of Congress. The assault was committed with a gutta serena stick, and was so furious that the weapon was broken in pieces. The greatest excitement prevailed. Sumner, who had no time to defend himself, sank perfectly unconscious to the floor, where he lay bloodily and dreadfully bruised, till he was raised by his friends. Brooks is held to bail in \$500. Mr. Sumner's wounds principally on the head though most severe, are not considered dangerous. The assault is said to have been made in consequence of some remarks made by Mr. Sumner relative to Mr. Butler, an uncle of Mr. Brooks.

On the afternoon of the 24th Mr. Brooks appeared before Justice Holsingshead, but declined examination, as he acknowledged committing the assault and battery on Sumner having found two surities to the amount of \$1000 for his appearance in Court he was allowed to retire. Mr. Sumner's condition at this date was scarcely so favourable as on the day previous. A committee of each house of Legislature has taken preliminary steps to investigate the circumstances attending the assault. At Boston a densely crowded meeting was held on Saturday last in Faneuil Hall to consider further the outrage on Senator Sumner, at which resolutions were unanimously passed expressing in strong terms its indignation at the cowardly assault on a defenceless man and protesting against it as an attack upon the rights of free speech and the dignity of a free state.

WASHINGTON, Thursday, May 22, 1856.

Mr. Marcy is engaged in the preparation of a reply to Lord Clarendon's last paper. It will hardly be completed this week. There is every disposition to receive the disavowal of the British Government in a becoming spirit, while vindicating the position of our Administration, and not abandoning the personal issue involving Mr. Crampton. It is supposed that the mode of final arrangement will be so couched as to remove all cause for exception, and relieve any well founded anxiety concerning the relations of the two countries. An amicable solution is contemplated if the feeling on the other side be correspondingly sincere. An effort is making to induce Mr. Clayton to qualify his recent declarations regarding Mr. Crampton, so as to admit his extradition on the ground of mistake or misapprehensions. He is inclined to hear these appeals, but is not decided.—N. Y. Tribune.

**IMPORTANT RUMOURS FROM HAVANA.**—New York, May 22.—The steamer, Quaker City arrived at midnight from Mobile and Havana. She brings dates from the latter port to the 18th. There were rumours in Havana that the Spanish government are to fit out immediately at that port an expedition to proceed to Costa Rica, to operate against Walker in Nicaragua, and that a distinguished Spanish officer had already been sent to the scene of future action.

It was further rumoured that Vera Cruz was to be blockaded and bombarded by Spanish forces, in order to enforce the payment of certain claims due from Mexico to the Spanish government. The movement, it is said, is to proceed immediately, and the unusual activity prevailing among the Spanish men of war in Havana, in getting ready for sea, would seem to give credence to the rumour.

## Provincial News.

There was a meeting of the Executive Council, at Fredericton, on the 18th inst., at which it was expected, that among other important matters to be disposed of, Commissioners would be appointed to carry forward the works contemplated by the Railway Bill, passed at the recent session of the Legislature.

The Governor, it seems, thinking that "a little more rum" was much better for the people than such nonsense as railways and prohibitory laws—and having received petitions from some "very respectable people"—wished to dissolve the present House of Assembly, as he alleged, for the purpose of allowing the people to express themselves with regard to the Prohibitory Law.

The people—whom we look upon in this part of the world as the highest authority under heaven—having through their representatives at the recent session, expressed their almost unanimous opinions upon this very matter of dissolution, on a resolution introduced by Mr. McPhelim, the Council unanimously refused to sanction such a proceeding. The Governor expressed his determination to do so on his own responsibility, and commended a proclamation to be prepared; it was accordingly done, but with the proclamation all the members of the Government tendered their resignations. These resignations were accepted. It now remains to be seen who are the men to assume this fearful responsibility with the Governor.

It is understood that E. B. Chandler, Esq., has been called upon to form a Government. E. L. Hazen, Esq., and J. H. Gray, Esq., have gone to Fredericton. R. D. Wilmot, Esq., has been in St. John for a few days. It is said that he has been offered the office of Provincial Secretary in the new administration, and refused to accept it. We are doubtful about the refusal; this gentleman is not being notorious for refusing such offers.

Our readers may expect us to express ourselves more fully on this matter next week.—Com.

**THE CIRCUIT COURT.—A True Bill found against Timothy O'Neill.**—Yesterday forenoon the Court was occupied with the civil docket. The case before it was a suit brought by Thomas Main against the Estate of Robert Ellison for the recovery of two hundred and eighty odd pounds for goods which it was contended were delivered by Ellison's order during his lifetime. Bayard for the plaintiff; Thomson for defendant.

During the forenoon, the Grand Jury came into Court with a true bill against Timothy O'Neill, charged with the murder of Patrick Cotter, on Wednesday night last. The prisoner was immediately arraigned, and pleaded "not guilty" to the charge. In answer to the question of the Judge, as to who were his counsel and at what time he would be ready for trial, he answered that he was without counsel, but would be ready to take his trial on Thursday, (to-morrow). The prisoner is a very youthful-looking person, and appeared very ill at ease, keeping his eyes constantly fixed on the floor; but there is an entire absence of any hint like vindictiveness in the expression of his countenance. Judging from appearances, we should say he would be the last person in the world to stain his hands with the blood of a fellow-creature.—Courier.

It seems that John B. Gough has come as far East as Portland, Maine, a large course of whose citizens he electrified last week in Deering Hall. Can he be induced to advance once more, beyond the jumping-off place and stir up his Provincials for our good?—Telegraph.

The Town Council of Woodstock met on Monday evening last for the purpose of organizing, and also for the transaction of business. We were much pleased at the harmony that prevailed, as well as with the expedition with which the various matters brought before the Board were disposed of. D. L. Dibble Esq., was elected Clerk; Mr. C. H. English, Marshal; Messrs. J. H. Jacques and F. Connell, Constables. Some twenty one Bye Laws were adopted, containing highly necessary provisions for the government of the Town.—Carleton Sentinel May 24.

**RICHMOND.**—We understand a large quantity of Spirituous Liquors was seized at this port on Wednesday last, and placed in the warehouse for safe keeping. On the following night four casks were conveyed away, and Thursday night the balance. Nothing, as far as we can learn, has transpired to lead to the detection of the guilty party.—Miramichi Gleaner.

**CHICAGO AND NEW-BRUNSWICK.—THE PIONEER.**—The John Ray, a schooner, sailed from Hamilton, Upper Canada, for this port, on the first instant. This vessel is chartered by W. J. Gilbert, 16 La Salle street and will sail with a cargo direct from Chicago to St. John, New Brunswick, and will bring a return cargo direct from that Province to this city.

This will be the first direct commercial communication between the upper lakes and the Maritime Provinces of Great Britain. Nor need we hesitate in congratulating our business friends on the result. It will show, not only the benefit of the reciprocity act, but how easily and beneficially whatever produce may be shipped direct to the sea board, and the West receive in return from it, whatever they may need, and may thus have a home market established. Honor to the enterprise which has started this pioneer undertaking, and success be with it.

The John Ray will carry 12,000 bushels of corn through all the canals, and is chartered at 25 cents for outward and homeward cargo.

The above is taken from the Chicago Tribune of the 7th inst., and with our cotemporary we say "honor to the enterprise" and may the voyage be eminently successful to all concerned. The distance to be performed will be over 3,000 miles, through Lake Michigan, Huron, St. Clair, Erie, through the Welland Canal to Ontario, thence down the river and Gulf St. Lawrence, round Cape Breton and Nova Scotia into the Bay of Fundy, where we trust the vessel will safely arrive. She will be a curiosity when she arrives, and some public demonstration should proclaim the advent of this new enterprise.—Chron.

**NEW LAW OF EVIDENCE.**—The following Law, admitting parties to a suit to give evidence therein, passed at the late session of the Legislature, and will come into operation throughout the Province on the first day of January next:—

2. Nothing herein contained shall render any person who, in any criminal proceeding, is charged with the commission of any indictable offence, or any offence punishable on summary conviction, competent or compellable to give evidence for or against himself, or shall render any person competent or compellable to give evidence for or against his wife, or any wife competent or compellable to give evidence for or against her husband, in any criminal proceeding, or in any proceeding in consequence of adultery.

3. No husband shall be compellable to disclose any communication made to him by his wife during the marriage, and no wife shall be compellable to disclose any communication made to her by her husband during the marriage.

4. Nothing herein contained shall apply to any action, suit, proceeding, or bill, in any Court of Common Law or Court of Marriage and Divorce instituted in consequence of adultery.—Church Witness.

## WISTAR'S BALM OF WILD CHERRY.

From the Editor of the Baltimore Patriot.

Dr. Seth W. Fowler, Boston, Mass.—Dear Sir,—I feel it to be due to you to say that a young lady, a member of my family, had been suffering for several years under a bronchial affection, and the disease had become so chronic, that notwithstanding the best medical aid, had been consulted, that great fears were entertained that the disease would terminate in death. I was induced, through the persuasion of a friend, to try your WISTAR'S BALM OF WILD CHERRY, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours,

J. F. M'JILTON.
