

time, but hope to greet them on the blissful shores of the next 27th I arrived at Habitant, Cornwall, and the people very low and much scattered. I rather Walter Weston—since ordained here, we stayed through the week, and had meetings every day and evening. The Lord I trust was with us, and many of the people were revived and encouraged. From hence we went to Mount Denon (Falmouth) to attend the protracted meeting; there had been a long winter season; but few had been sighing and crying. "O Lord revive thy work." At the first meeting the Lord was graciously pleased to manifest his presence and ere the week closed a number of dear youths professed faith in Christ, and have since been baptized.

It was in this place fourteen years ago, I stood and proclaimed salvation through Jesus Christ; and God gave the word and great was the company of them that published it. Loves redeeming story, he is a charm that melts the stubborn heart; subdues the will; and leads us to acknowledge our guilt, and with a broken heart and contrite spirit to cry,

"Nothing in my hand I bring  
Simply to thy cross I cling."

Then I found brethren, (though not identified with us in church capacity) true-yoke fellows in the gospel, and while many are satisfied with a name to live, and yet are dead, or else with merely the form, but destitute of the power, there are a few who are inquiring for the old paths, that they may walk therein and find rest to their souls. As is generally the case they are counted ignorant and conceited, or disturbers of the peace, but in the eyes of Him who sees not as man sees; they are the salt of the earth. I remained over the week with Father Norton, then returned to Cornwall, where I spent another week, and then went to Hall's Harb—where I spent a third week. In all these places spiritual labor is much needed, truly the fields are white ready to harvest; but how little praying there is in the Churches, for the Lord of the harvest is to send laborers in the vineyard.

Saturday, Nov. 9th. Brother Walter Weston was publicly set apart to the work of the ministry by the imposition of hands.

Some time before the hour arrived the large meeting house at the head of Chobouque was filled to overflowing by an attentive congregation. The elders present were, C. Knowles; T. Brady; S. W. Bennis; D. Oram; C. J. Oram, and C. Cann. The services were opened by singing the hymn commencing, "Where shall we go to seek and find?"

After which, Brother Bennis engaged in prayer. He then delivered a discourse from 1st Peter, V Chap. first part 2nd verse.

"Feed the flock of God which is among you."

The divisions of the subject were:

1. Who are the flock of God.
2. Why they are called a flock?
3. The food they must have.
4. How to give them a portion, &c.

The discourse occupied about an hour, after which Elder Knowles made some remarks on the reasons of our existence, which was well suited to the occasion, and gave general satisfaction. Brother Weston spoke a little on the exercise of his mind for a number of years past, and the resolve he had made to spend the remainder of his life in the service of God.

All the brethren present made some remarks suitable to the occasion upon which we had met, and of the union and harmony that existed among us.

The candidate kneeling, the hands of all the elders were laid on his head, and Elders D. Oram, and C. J. Oram united in prayer, Elder Knowles asked some questions and gave the charge, all the rest united and gave the right hand of fellowship.

The ministers struck up the hymn, "Stand up my soul," &c., in which all the congregation joined. Before it was finished, some broke out aloud praising the Lord, it was an interesting and solemn time, occupying about three hours. Next week I shall give you an account of the Quarterly meeting which takes place next Saturday and Sunday.

**THE LATE DISSOLUTION.**—We have heard it currently reported, that His Excellency has received Despatches from the Imperial Government very condemnatory of his arbitrary and unconstitutional dissolution of the Assembly some months ago.—*Tem Tel.*

**GRAMMAR SCHOOL.**—The examination of the Public Grammar School of this city took place on Friday, the 19th instant, and elicited from the Board of Directors, most of whom were present, an expression of great satisfaction. We are pleased to know that this seminary, one of the oldest and most efficient in the Province, receives that encouragement which is justly due to the unwearied exertions of its Principal, Dr. Paterson, on its behalf. Many who have passed through College, and many who have gone directly from the School to offices of trust and to places of business, can bear testimony to the zeal, readiness, and success with which their Master always performed the duties of his situation.—*Obs.*

The Annual Meeting of the New Brunswick Auxiliary of the British and Foreign Bible Society, will be held at the Mechanics' Institute, next Wednesday evening. The Meeting promises to be an unusually interesting one. We would suggest that a small fee be charged for the tickets of admission, instead of taking up a collection during the proceedings.—*Church Witness.*

The Rev. Mr. Alves will deliver the fourth Lecture of the course, before the Young Men's Christian Association, at the Mechanics' Institute this evening. Subject "God in Scripture."

Mr. Duval will deliver a Lecture before the members of the Mechanics' Institute, on Monday evening, on "Marine Zoology."

**LECTURES IN ST. STEPHEN'S HALL.**—Two of this course have been delivered. The opening one on "God in Nature" by the Rev. Mr. Alves, we were unable to attend, but hear that it was all that might be expected from the Lecturer's high standing and recognized ability. The lecture delivered last Tuesday evening on "Ireland and the Irish," by Mr. J. Tufts, was instructive and amusing. The Irishmen present could not but be highly gratified with the performance, and the Scotch we suppose will find equal exhilaration in "the History of Scotland in the times of William Wallace," which is to be treated of by the Rev. W. Ferris, on next lecture evening. The attendance on Mr. Tufts's lecture was good. He is evidently a young man of rising popularity, as evinced by the attention paid and hearty reception given to the lecture.—*Colonial Presbyterian.*

**Nicaragua.**—The great filibuster expedition under the command of General Walker is meeting with sad reverses. The following condition of the army, given by an eyewitness:

In appearance, they were the most wretched, emaciated, sickly-looking body of men I have ever seen assembled; they resembled the groups that are sometimes seen in almshouse yards, with the exception that they were not so well clothed as our paupers. From the time we first met them at San Juan, till we embarked at Virgin Bay, we were continually assailed by hundreds of them, begging in most piteous manner for bread, or for small amounts with which to purchase bread. Their clothing was most wretched and filthy. I noticed one poor fellow who had but one leg to his pantaloons; some were shirtless, some shoeless, and others hatless. The military dress of some of the subordinate officers consisted of but a flannel shirt and pantaloons. When assembled for drill, they consisted of a motley crew, wretched-looking beyond description. Their rations consist of fresh beef and coffee; no bread of any kind. Sickness is prevailing to an alarming extent in the whole army. At Virgin Bay, the least sickly place, I should judge from location, in the country, there are said to be from five to seven deaths daily.

Latest from Europe.

The "Europa" arrived at New York on Tuesday. The news is not of much importance; war had been proclaimed at Calcutta against Persia.

**THE KINGDOM OF SERBIA.**—GENOA, Nov. 8.—Piedmont presents a curious spectacle to the world, in more than one respect. Though she has been free less than eight years, she is already to Southern Europe, what America has so long been to the world, the asylum of all proscribed parties and persons. In the moment of receiving crowned heads deprived of thrones, she opened her doors to the most famous of their enemies. The widowed Empress of all the Russias is now entertained with her suite of 200 at Nice, while the Duchess of Orleans, with her aspiring sons, finds winter quarters in an inviting villa on the sunny side of Genoa.

Lodgings have been taken for Espartero, the exiled Spanish minister, in this city, which is at the same moment entertaining several old officers of Don Carlos; and Signor Guerrazzi, the Dictator of Tuscany in the interregnum of 1848, who escaped narrowly with his life through a trial for treason, arrived a few days ago, en route for Turin, to join his friends in exile.

The exiles of all Italian nationalities who now find shelter and freedom under the protection of Sardinia are estimated at over 30,000—a formidable army of intelligent, brave and patriotic men, who only wait a favourable opportunity for action. But the time is not yet, and so they think. All eyes in Italy are turned to this country in which all its present hopes are entertained.

Count Cavour, the Chief Cabinet Minister, is constantly receiving the most touching testimonials, among which is a massive gold medal from the very seat of the Papacy, an inch and a half in diameter, bearing on one side his bust, with the inscription, To Count Benzon Calvour, and on the other, "For the defence of oppressed Italy in the Congress of Paris, 1856. Grateful Rome." Subscriptions also continue to be received from the various parts of the country for the armament of the great fortress of Alexandria, the best protection of the frontier in case of an Austrian invasion—which, by the way, is not at all probable at present.—*Cor. American paper.*

**THE ATLANTIC TELEGRAPH UNDER THE ENGLISH CONTROL.**—The N. Y. Times, in speaking of the Atlantic Telegraph, calls attention to an important element in the organization of the great enterprise which is worth nothing as it tends to destroy much of its prospective value to the United States. The objectionable feature is thus set forth:—

The company, though it was originated by our own citizens, will be exclusively under English control. Two hundred and sixty two shares, representing \$262,000 of its capital, are owned in England, while only eighty-eight shares, representing \$88,000 are owned in the United States. The landings of the cable will be in English territory. The eastern end will land at Valentia, a harbour in the Southwestern extremity of Ireland about forty miles directly west of Cork, and the western end will land at St. Johns in Newfoundland. This fact may be of little consequence in the piping times of peace, but in times of war it becomes a matter of great moment. In the hands of Great Britain the electric cable would then be a powerful antagonist, which it would be impossible for us to cope. It is, doubtless, on account of this advantage that the English government has been induced to grant to the Company an annuity of \$14,000, and to place at its disposal such naval service as may be needed in sounding and laying down the cable. And it is for this very reason that our own government should hesitate about granting to the Company a similar charter which will be asked for by and by.

The Atlantic Telegraph, when completed, will be the wonder of the age. But it can never be extensively available to the United States unless the western end of the cable shall be landed on our own shores.

**THE WORLD'S BREADFACTOR.**—In all time the true physician has been known as the friend of humanity, and in our days many assume, but few deserve the title. Mrs. M. N. Gurnett, however is one of the few, for she has richly merited it in the production of the BALSAM OF LIVERWORT AND HOREHOUND, which has wrought most miraculous cures, and finally won for itself a place among the standard Family Medicines of the day, as the cure for all affections of the Liver. It may be found at Weeks & Potter's, General Agents, 154 Washington Street, Boston, and of Druggists generally.

**BROWN'S BRONCHIAL TROCHES.**—FOR COUGHS, ASTHMA, BRONCHITIS, &c.—We cheerfully bear testimony from personal knowledge, to their efficacy.—*Dr. FLEMING'S.*

**MRS. VANDERBILT, No. 185 SUFFOLK, SAYS OF DR. McLANE'S Celebrated Liver Pills:**

"I have been unwell, and not knowing whether it proceeded from indigestion of the liver or merely hysteria, I was persuaded to purchase a box of Dr. McLANE'S CELEBRATED LIVER PILLS, prepared by Fleming Bros., Pittsburgh, and before I had used them all, was entirely relieved. I am now enjoying perfect health, and cheerfully recommend Dr. McLANE'S Celebrated Liver Pills to all similarly afflicted."
