### LITTLE THINGS.

Do something for each other— Though small the help may be; There's comfort oft in little things-Far more than others see ! It takes the sorrow from the eye, It leaves the world less bare. If but a friendly hand comes nigh

When friendly hands are rare! Then cheer the heart that toils each hour, Yet finds it hard to live ,-And though but little's in our power, That little let us give.

We know not what the humblest hand, If earnest, may achieve; How many a sad anxiety A trifie may relieve ;-

We reck not how the aged poor Drag on from day to day; When e'en the little that they need Costs more than they can pay. Then cheer the heart that toils each hour, Yet finds it hard to live; -- And though but little's in our power,

#### That little let us give. THE PRAYER-MEETING.

"Prayer is the soul's sincere desires, Unuttered or expressed; The motion of a hidden fire, That trembles in the breast.

Prayer is the burden of a sigh-The falling of a tear— The upward glancing of an eye, When none but God is near.

Prayer is the simplest form of speech That infant lips can try; Prayer, the sublimest strains that reach, The Majesty on high.

Prayer is the christian's vi-al breath-The Christian's native air; His watch-word at the gates of death, He enters heaven by prayer.

## RUM versus TOBACCO.

MR. EDITOR,-In looking over the Intelligencer of the 7th inst., No. 166, I was attracted by an article headed "The Christian a slave to Tobacco." Being myself, a particular friend of every christian, of every section of the Church of Christ; and being no particular advocate of that noxious Indian weed, read the article carefully over and over again.

I confess, Mr. Editor, that I was somewhat startled, at seeing the Religious Intelligencer polluted with an article so diametrically opposite to truth. It is now three years and and highly respected brethren, in the Division Hall, I became determined to advocate the cause of Temperance, to the utmost of my power, wherever Providence would distribute the cause of Temperance, to the utmost of my power, wherever Providence would distribute the cause of Temperance, to the utmost of my power, wherever Providence would distribute the cause of Temperance, to the utmost of many years from many years from epileptic fits, visited Mr. Sills and remained in the money will be refunded. Charlestown, Mass., Aug. 9, 1855.

Gents:—Nothing but a duty and sympathy that 1 feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgement of the bene fit I have received from Prof. Wood's Hair Restorative When I first commenced using it, my hair was quite gray, and in spots entirely hald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as for merly. Respectfully yours, &cc., Mrs. R. A. STODDARD.

THE GREATEST MEDICAL DISCOVERY
OF THE AGE.

D.R. KENNEDY, of Roxbury, Mass., has discovered in one of our common pasture weeds, a remedy
that cures EVERY KIND OF HUMOUR, from the worst
scrofula down to a common Pimple. He has tried it in over
eleven hundred cases and never failed except in two cases
(both thunder humour). He has now in his possession over
two hundred certificates of its virtue, all within twenty miles
at Boston.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the sat rheum. Fve to b bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of boston. I know the effect of it in every case. So sure as water will extinguish fire so sare will this cure hunter. I never sold a bottle of it but that sold another after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until i discovered it in 1840 --second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great equiarity of the discovery, I will state that in April, 1863, I peddled it, and sold about its bottles per day: in April, 1864 I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patient medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors lust since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never sus spected.

Several cases of epileptic fits—a disease which was always roassidered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful maindy—there are but few who have seen more of it than I have.

Alson I have.

I know of several cases of Dropsy, all of them aged people, suced by it. For the various diseases of the Liver, Sick liesdache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in diseases of the kidueys, &c., the discovery has done more good than any medicine ever known.
