I do not come here l He had to declaim; I come to state facts. I know I am occupation ddressing prac oil men, men who will value porter ran acts, and not the ries. I have, therefore, prening, " Me ared a short comparative statement of growth of the population of both countries. In 1800 the population of the United States was 5,305,925. In 1850 the population of the States was 20,250,000, showing an increase of SSCOCE 6 On thes found that rer had in 1100 per cent. in fifty years, or an increase of nearly four times. While in Upper Canada, f the drug cid, and in from 1811 to 1851, a period of ten years less, the of the us population increased ten times, closely approach-held in the ing three times the increase of the whole United states. In Lower Canada, where there is much Jury wa ess immigration, the population in 25 years has Bram ton acreased ninety per cent. The comparison of ated young towns is equally striking. Boston, between 1840 and 1850 increased 45 per cent. In the same ly in Glov Colonist. time, Toronto, 95 per cont. New York, the greatest city in the States, increased, in the same n extensive period, 66 per cent., or 30 per cent. less. (in-cinnati, in the 30 years preceding 1850, increas ed 12 times; Toronto, 18 times. In 18 years, the population of Hamilton increased 20,000. Brentford, in 10 years, has increased 300 per fire in the d, besides ng the can d out for the cent. Not many years ago, the site of the city of Ottawa, which now contains above 10,000, ix had been a few days was sold for £80-the increase of the countiestis is occurred also as marvellous. Megantic, in seven years, increased 116 per cent.; bu I have said enough. out of work ted as a 100 Let us now look at the comparative production of their sheep's clothing. l loss is est grain in the two countries. In 1851, Upper Canada raised at the rate of thirteen and a half .- Toronto ushels of wheat to each individual in it, while the United States, in the same period, gave but four and a half bushels. In the ten years pre-ceding 1855, the wheat crop of the United States is reports sh Ministe ed to visi acreased 48 per cent. In Canada, in the same period, it increased 480 per cent. So in Indian corn, the crop for ten years preceding 1851, in-creased 56 per cent.; in Canada, 163 per cent. Her cereal exports have doubled every four years, and now equal half of those of all the United States. The total imports, divided among the whole population on the 1st. of Jan., 1854, amounted to £3 14s 10d, to each individual; in oung Men period, it increased 480 per cent. So in Indianrpose of de Anniversar evening r of promit e iovitatio ship will at mounted to £3 14s 10d to each individual; in victim around in a manner not to be accountthe United States, only to £2 7s to each indivi-de for, and cut off a portion of her foot—she May 21.—Ship Eleanor, Wells, London, timber and h said of th The total exports give to each indivi-dual £2 15 0 I think I have now said enough to redeem this  $\frac{1}{2} \frac{15}{10} \frac{1}{10} \frac$ Vistar's Be that we fe for gene

part of my assertion, as to its superior relative Letters received at the Religious Intelligencer Office climate and production ; and I may add this observation, as to the quality of the grain-that American millers import it to mix with, and im-prove the sweetness of their own. The vegetable productions, in 1851, amounted in value to £5,-200,000. The total value of imports and ex. rem.; James C. Knollin, Thompson Watt, rem., ports, in 1851, was £13,945,684. I will now they are both living in the vicinity of the city, if state a fact I wish every poor man in this you address them, prepaid, care of John E. country could hear and ponder over. PROFESSOR WOOD'S HAIR RESTO-RATIVE. IT HAS WORKED MIRACLES!

THAT ALL THE BALD AND GRAY CAN BE RESTOR-ED FERFEUTLY to original growth, and color so far as their locks are concerned does not admit of doubt; besides it will cure every possible disease of the scalp, whether de-veloped as dandruff itching or in the shape of cutaneous erup-tions-even scald-head—and in no possible case will it fail in curing as if by magic, nervous or periodical head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and judge.

age. Read and judge. Millford. Worchester Co., Mass., Nov. 1386. PROF. O. J. WOOD-Dear Sir; I take pleasure in bearing voluntary testimony to the magic effects of yoar wonderfu Hair Restorative. As far back as 1886, my hair commenced failing off, unt'the top of my scalp became baid and smooth reglass, and it has continued to fall for a great many years, motwithstanding I have used many celebrated, preparations for restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my baid head was covered aver with a young and vigorous growth of kair, which is now itom one to two inches in length, and growing fast. Yours, truly, HENRY GOODRICH

CHARLENTOWN, Mass., Aug. 9, 1898. Gents :--Nothing but a duty and sympathy that 1 feel to communicate to others that are afficient as I have been, would induce me to give this public ack nowledgement of the bease is 1 have received from Prof. Wood's Hair Restorative When I first commenced using it, my hair was quite gray, and in spots entirely baid. I have now used the Restorative moont five months, and my hair is entirely changed to its cri ginal color, brown, and the new hair is over three inches in length on the spots where it was hald. I have also bees much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as for merly. Respectfully yours, &c., Mrs. R. A. STODDARD.

From Mrs. Ingails, a weil known nurse in Boston Boston Oct. 19th, 1866

Boston Oct. 19th, 1866 GRNTS:-At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair hidd become quite thin, and entirely whire. I have for the inst five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light browr. Yours respectfully, MES. INGALLS.

The following is from the Paston of the Ortho lox Church, Brook field,

The following is from the Paston of the Ortho Lox Church, Brook field. BROOKFIELD, Mass, Jan. 12, 1855. Prof. Woon-Dear Sir.-Having made trial as your Hair Restorative, it gives me pleasure to say, that its affects have been excellent in removing inflammation, dandruf, and a constant tendency to liching, with which I have been trou-bled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article, with anything like the same pleasure and proft. Yours, truly, J. K. BLAGG. (From the Jersey City Telegraph.) Whit is it for -This W 0002's Hist R Karstry 2.-Is a mestion asked daily by hundreds. We answer without hesi-intion or fear of contradiction, that it is the only article known which will do all it promises for the human hair. It will renew its growth—it will stop its falling—it will restore its natural color? It is not a Hair Dye, but a speedy and effencious Restorative. O. J. WOOD & CO., Proprietors, 312 Broadway, N. Chairman of Railway Board Gutta Percha Machine Belting Railway Commissioners Office, St. John, 27th May. 1857.

GOVE INMENT CONTRACT. NOTICE TO BUILDERS.

THE Subscribers have received an Invoice of the above articles, and respectfully solicit the attention SEALED Tenders will be received at the Office of May till 2 o'clock, P. M., for erecting a Building for Car House, near the Engine House, Gilbert's Lane. Plans and specification can be seen at the Engi Gutta Percha, used for isolating the wires of sub-marine Telegraph lines, has of late attracted much-at-tention as an article of great durability, and its employ-ment in other uses has rapidly increased, but in noth-ing has its decided superiority been more manifest than in the articles above named. Its advantages for Belting and Packing arise from superior durability, and from its being wholly unaf-fected by the action of oils, acids, or any degree of dampness. The Belting may be run under water, or amidst oily or acid substances, without damage or de-composition.
