

ARRIVAL OF THE "EUROPA."

HALIFAX, June 16, 1887.

"Europa," from Liverpool, arrived at Halifax yesterday morning, 16th.

BRITAIN.—Parliament resumed its sittings on the 4th, but proceeding generally were only of a local interest. In the Commons Palmerston intimated he intended to submit a Bill this Session for abolition of church rates. Mr. Berkley gave notice of his intention to bring up the question of the ballot on the 23d June.

Chancellor of Exchequer stated—there was no intention at present of reducing duty on paper for Educational purposes.

Ineffective efforts were made for the appointment of committees to revise the duties of Board of Trade to consider and report measures for improved condition of laboring classes.

The Princess Royal's Anniversary Bill was finally passed.

The United States Frigate Niagara was to leave the Thames on Friday for Portsmouth Dockyard, where some of her staunchness were to be taken out and her wardroom altered to accommodate the cable. This done she would at once proceed to Birkenhead and commence taking in the cable.

The Greenich works about nine hundred miles of cable was completed, and the whole length would have been done but for the fact that the daily consumption of fine wire has been more than all the wire drawers of England could furnish. The Agamemnon was to commence taking in the cable at Greenich on the 9th or 10th of June. Her tender is to be the steam frigate Leopard. All the vessels will rendezvous at Cork harbour, where the final arrangements will be made. The war steamer Cyclops is now taking soundings along the proposed deep sea route. The period for paying out the cable is the month of August.

The suspension of William Macintosh & Company, Manchester, is announced. Liabilities supposed about £100,000 sterling.

An appeal is put forth for funds to carry out Lady Franklin's Arctic expedition which is expected to start by the beginning of July.

FRANCE.—The statement that during the late visit of the Emperor to the museum of artillery, an attempt was made upon his life, is reiterated, and the fact that the English journals containing any reference to this matter, as well as to the Government election plan, were intercepted at the Post-offices gives color to the story.

The recent Government circular in regard to the approaching election, formed the main political theme, and Paris correspondence generally agrees in saying that the document has created a sensation highly detrimental to Government interests. The list of democratic candidates for Paris had not been arranged. The correspondence of the "Times" says, that in the event of the election of these candidates the difference of opinion as to taking the oath to existing Government will probably be satisfactorily arranged. He also states that it is doubtful if Carnegie will appear as a candidate. It was expected that the monthly returns of the Bank of France to be published in a few days would show an increase in the stock of bullion equal to more than a million sterling.

Rumors of an approaching interview between the Emperor Alexander and the Emperor of the French, are again circulating in Paris.

Belgium.—The recent excitement appears to have completely died out. Duke Constantine had paid a visit to the King at Antwerp.

Spain.—Some cheap bread riots had occurred at Granada. A large number of people paraded through the principal streets, and having assumed a menacing attitude were ordered to disperse, and failing to do so they were fired upon by troops which had been called out, and four persons were wounded. They then retired to their homes and quiet was restored, but the city was nevertheless declared in a state of siege. On the 25th all was tranquil.

The Madrid correspondent of the "London Times," says negotiations on the Mexican Question were suspended until the arrival of the Mexican Mail due early in June, and adds—"If it brings authentic intelligence of chastisement inflicted on the delinquents, this will give a favorable impulse to the ulterior march of the question; but if the expected news be within the mark, and less than the requirements of the Spanish Cabinet, it is not improbable that Senor Lafregua, unless Lord Howden and the Marquis De Turget are able to detain him, will leave Madrid on account of the refusal of this Government to recognize him officially. In this case hostilities may be expected. It is to be feared that the Mexican Question presents very serious difficulties, and is by no means so near to its settlement as some have recently supposed."

ITALY.—The Naples correspondent of the "Daily News" records a large number of consensual marriages on the part of the aristocracy, and says that a placard addressed to the citizens calling on them to rise had been put in circulation. Tri-colored bills of an inflammatory nature had also been freely distributed.

TURKEY.—The Vienna correspondent of "London Times" says the Porte has forwarded a memorandum to the diplomatic agents in Europe, demonstrating the necessity for some change in the Treaties between Turkey and the Christian powers. In the document it is set forth that the public peace and security cannot be maintained in Turkey so long as each separate legation and Consulate has a right of jurisdiction.

By TELEGRAPH FROM LONDON.—House of Lords, Friday.—Lord Stanley intimated in response to several petitions for relief in the Merchant's Shipping Act—that the Government saw no reason for any alteration in the existing Law. In the House of Commons Sir J. Pakington said he found that in the ordinary course of things there would be little change of his bringing forward his motion on National Education until too late a period of the Session to permit of its being properly discussed, unless he received some advantage from Government. He therefore appealed to Palmerston to discuss so important a subject. Palmerston admitted the importance of the subject, but could not at present offer a Government Bill for the discussion.

This is presumed shew the measure for the Session.

The sound dues question was taken up in the House voted £1,125,000 in liquidation of England's share in the redemption. Mr. Liddell called attention to the subject of the Danish Transit dues, which, although of comparatively small amount, were vexatious in their operations and ought to be abolished by Treaty as well as the sound dues. The Chancellor of the Exchequer said in response that the Government had endeavored to get the abolition of the transit dues included in the Treaty, but had been unable to obtain the assent of the Danish Government to the proposition.

BRUSSELS.—Official despatches from Brussels of 3d, declare tranquillity re-established, but many petitions against Church abuses had reached the Government.

A very strong feeling against the Jesuites continued to manifest itself throughout the country.

A Brussels letter in the Paris Presse says that at a Cabinet Council it was resolved to withdraw the obnoxious Bill on Churches, and that two or three Ministers tendered their resignations, which the King refused to accept. The Chambers will be convoked again in a couple of weeks, but only to vote urgent measures, and after that the Session will be closed.

Spain.—Madrid dates are to the 30th ult. The disturbance at Granada had entirely ceased, but the authorities continued to take military precautions, and were causing bread to be sold to the poor at a reduced price.

FRANCE.—The improved position of the Bank of France having led to rumours of contemplated reduction in the rate of discount the writer of Times city article says, it seems incredible that such a step will be resorted to before artificial purchases of gold are entirely stopped and in present uncertain state of silk crop.

Politically it is doubtless regarded as very desirable in order to create more hopeful feeling pending the commencement of elections.

LICENSING TAVENS AND REPRESSING INTERTEMPERANCE.—A curious Act was passed by our (Canada) Legislature in 1851, to make better provision for granting licenses to keepers of Taverns, and for the more effectual repression of intemperance. Our legislators saw that drunkenness was a direct fruit of taverns and liquor stores, and that to repress intemperance, it was necessary to enact a stringent law—in fact, knowing the vicious effects of the traffic, to place a muzzle upon it. A Bill to amend this Act is now before Parliament, which makes provision for more effectually prosecuting offenders against the law. After a century of legislation, to regulate the traffic, it is found that its evil effects are as great as ever—that it would be as easy to regulate the Tiger's appetite for blood as to control a traffic which exists upon the property and character and lives of its victims. A Committee of the House of Commons has declared that the only remedy is prohibition, and that the Legislature has the right to state that which is found to prey upon the community. Experience shows that the prohibition of the traffic is attended with the happiest results, and a wise and good Legislature would be willing to enact such a measure, and a law-abiding, patriotic people would cheerfully submit to it, in view of the mischiefs wrought by the traffic, and the blessed effects of prohibition, where it has been fairly tried.—*Monroe Witness.*

M. Lane's Liver Pills, Prepared by Fleming Bros., Pittsburgh, Pa.

From the associated territory of the United States, it is impossible to resist a conviction of the great excellence of these Pills in all diseases of the Liver and Stomach. The following letter from Toronto, Canada, is one of the many the proprietors have received:

Toronto, April 27, 1884.

MEAS. FLEMING BROS.—Sirs, I take the opportunity of informing you of the benefit I have derived from Dr. M. Lane's valuable Pills. I have for two years past been afflicted with a severe pain over the eye, accompanied with a nervousness, and some of the symptoms of a violent fever. I have consulted my physicians to relieve and cure, caused as far as I myself could judge, by a diseased state of the liver and stomach. Some of the doctors tried blood purifiers, and others tried cathartics, but all in vain, for the deep-seated disease still stuck fast. At last I procured a box of your valuable Liver Pills from a Druggist here, and after taking a portion of them, I found the disease and painful sensation over the eye has almost entirely left me. I will close by advising all those afflicted as I have been, to procure the valuable medicine at once, and give much time and little expense. With sincere gratitude and respect, I remain yours, respectfully,

GEO. W. RUSSELL, Toronto.

LET PURCHASERS BE REMINDED TO ASK OF DR. M. LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS. OF PITTSBURGH, PA. These are the only Pills purporting to be Liver Pills, and the only Pills that will cure the Liver and Stomach. His celebrated Vermifuge, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

Letter from a well known Physician.

S. W. Fowler & Co., Gentlemen: While suffering from Dyspepsia some years since, I was cured by your Pills, and have since used them with the most successful results. I have no doubt that your Pills are the best of their kind, and I have no hesitation in recommending them to all who are afflicted with Dyspepsia, or any of the ailments of the Liver and Stomach. I have used your Pills in many cases, and with the most successful results. I have no doubt that your Pills are the best of their kind, and I have no hesitation in recommending them to all who are afflicted with Dyspepsia, or any of the ailments of the Liver and Stomach. I have used your Pills in many cases, and with the most successful results. I have no doubt that your Pills are the best of their kind, and I have no hesitation in recommending them to all who are afflicted with Dyspepsia, or any of the ailments of the Liver and Stomach. I have used your Pills in many cases, and with the most successful results. I have no doubt that your Pills are the best of their kind, and I have no hesitation in recommending them to all who are afflicted with Dyspepsia, or any of the ailments of the Liver and Stomach.
