he gives his brother the Regency, which the Prince of Prussia accepts. King can assume full powers if he regain physical and mental heath. Regency meanwhile to be intermitted. France is strengthening the defences of Havre, Dunkirk, Calais, and Boulogne. She is simply following the example of England. A port of refuge is to be cons ructed between Brest and Cherbourg. Further intelligence, of an encouraging character had been received from Ind a. The Gwalior rebels had been again encountered by our troops, and defeated with great loss. Seven hundred rebels are said to have been killed, while our loss was "trifling." A brilliant victory was also obtained on the 24th August by "550 police over 4000 rebels." This is certainly cheering news, as the police force is composed of natives. It shows that confidence is being restored, and leads us to hope that the English troops will now be somewhat relieved. A further indication of this is also afforded in the fact, that " three Bengal regiments have been re-

The Times has been indulging in one of those vagraies which are so common during the recess of Parliament and the scarcity of news. It has a "slashing" article on Scotch "Sabbatarianism" and thinks the sacred day had better be spent in pleasure-seeking by revier and rail and all this as a cure for scottish whiskey drinking! An English paper of the 24th remarks in reply .-

We shall not volunteer a defence of Scotland with regard to her mode of observing the Sabbath simply because Scotland is quite able to defend herself. Scotland has many a ploughman and shephered in whose presence the thunderer of Printing House Square would " sing sma," were the nature and the design of the Christian Sabbath, and the best way of observing it, the subjects of conversa. tion. But if Scotland, forgetful of her glorious history, and of the lofty name ber sons have won for her in every part of the globe, chooses, in an ill-omened hour, to adopt the advice of the unprincipled news. paper, and take to her lakes, rivers, and rails on that holy day, the time will come when her ploughmen and shepherds will be as ignorant of the teaching of Evangelists and Apostles as the clever scribe who gave her that advice the other day in the columns of

THE Submarine Telegraph has now been exended to the Foreign office. The connection was completed on Friday evening, and message will now be received direct by the Secretary of State for Foreign Affairs from the various British embassies throughout Europe, and vice versa. The Secretary for India will also receive his despatches from the Governor-General at the India House being about to be established.

THE SOCIEY ISLANDS have petitioned for admission to the American Union. In August, 1857, his Royal Highness Tamitton, son of Pormaie, the Queen of Tahiti, was du y chosen an i installed in the office of King over the territories of Rainten and Tahaa." But he soon fell into disgrace. Elated with his kingly power he exercised as a part of his royal prerogative the liberty of doing as he pleased with the property of his subjects. This abuse of power of course led to his depo-i ion and his services were dispensed with. The revolution was a quiet one; there was no bloodshed His Royal Highness was told to leave and he left. The government being thus vacated, the Selectmen employed all their wisdom to re construct it on a firm and liberal basis. The result of their deliberations is the application above referred to. Many of the people have been converted to Christianity.

PROTESTANTISM IM GIBRALTAR, -An im-Portant religious movement is going on among the Spaniards at Gibraltar. A numerous congregation has been formed, under the leadership of Mr. Ruet, a converted Spaniard, who, two years ago, was imprisoned at Barcelona for leaving the Church, and afterward banished from Spain. The Assembly of the Free Church of Scotland has been petitioned by the congregation to appoint Mr. Ruet as Pistor, and this request has been readily complied with. Gibra tar has now a population sixteen thousand inhabitants, and as the

CORRUPTION OF THE PORTUGUESE CLERGY. All writers on Portugal agree, that in no conntry in the world, except perhaps in South America, is the Roman clergy so corrupt and vicious as in Portuga'. A recent discovery furnishes an example. A large manufactory of counterfeits was discovered at Oporto, having ramifications in all the important towns of Portugal. Several members of the clergy, and some of very high standing, were found to be involved in it. One of the accomplices was arrested in Oporto at the moment when he was going to say mass-an incident, which of course created a very deep sensation.

The amount contributed to all the missionary and benevolent societies in Great Bitain last year was about one million pounds, or five millions of dollars. The amount expended in the same time in intoxicating drinks was seventy millions pounds or three hundred and fifty millions of dollars!

It is stated that Protestantism is making rapid inroads upon the Catholic church in Ireland. Many priests have left the church and others are in an inquring condition. There encounter so much opposition and actual punishment, that a society has been formed for their relief, called the Priests' Protection Society.

P-OVINCIAL COUNCILS IN AUSTRIA.—The Archbishop of Vienna has convoked the bishops, the superiors of monastic orders, and the deputies of the chapters of his ecelesiastical province to a provincial council, to meet in the middle of October. For about three hundred years Austria has not had ecclesiastical assemblies of this kind, and great importance is therefore attached to it. mission of holding a genera' synod.

Romanism and Education.

Truth seeks the light, while error and niquity shun and hate it. Genuine Protestantism cannot flourish where ignorance prevails, it therefore aims at and tends to promote the education of the human mind and the general diffusion of knowledge. Protestantism tells the people to think, and that to think they must be educated : while Popery denies the people the right to think for themselves, and is therefore opposed to popular education. In countries where Ro- son, 7s 6d, 300. --- Wm, Cliff, 7s. 6d., 302. --manism has every thing its own way, we find Robert Hallet, 7s 6d, 302 .- Charles Bartlett, no great movement made for the education 1:3d. 269. additional notoriety to the following works, of the people. The opposition of Romanism to popular education is most evident. Those familiar and present, cannot but see this, though the aid of the Mission to Turkey. opposition in this respect has not been so diret, a connection with that department manifest as in some other regions, for the reason that there has not been so much to terms of subsciptions expires, we shall put colored call it forth. Facts and statements in con- wrappers on the last number paid for. nection with Popery might be given in a most any quantity, to prove all we assert on this point. The Freeman's Journal of New York, Books, Maps &c, which we will seil at cost for a the chief organ of Archbishop Hughes, said a short time previous to selling at public auction, mediate payment to few years since, " This subject (of the pub- our friends in want of Books would do well to lic schools) contains in it the whole question avail themselves of the opportunity to get books of the progress, and triumph of the Catholic at so low a rate. church in the next generation in this country. Catholics! let us all act together. Let us Aug 12. all read and listen to the same sentiments, that we may know and act together !" The same paper says further, " there can be no sound political progress-no permanence in the State, where for any length of time, children shall be trained in schools without (the Roman Catholic) religion." This system of religion aims at the sole control, and if it succeeded in securing its object, public schools would not be sustained, and we know how much it would do for the education of its own

votaries. How evident it is that those who countenance and apologize for Romanism, are giving their support to a system aiming at the ignorance and degredation of them and their posterity. We should think that any one would blush with shame, to be found guilty of speaking a word or performing an act favor of that infamous system, which to-day benumbing and crushing the intellects of millions, and aims at bringing, if possible, the lions, and aims at bringing, if possible, the inhabitants of this Province on a level with those of Spain or Mexico. ADVERTISING. We are obliged to occupy several columns of our paper with advertisements, which we would not if our patronage warranted us in abandoning it. We have endeavoured to guard our columns from improper advertisements, that is, those not in keeping with the religious character of our paper. Some have sometimes appeared, however, which we had rather not .--During the last two weeks one has been inserted which escaped our notice, until our attention was called to it. We shall, if possible, be more guarded in future.

We regret that our paper is this week late in going to press, owing to circum-tances over which we had no control, which will ac count for some getting their paper late.

From the Clergy. Rev. J. G. Stearns wites :- I consider it the best

remedy I ever knew for Dyspepsia. The late Rev. Dr. Granger repeatedly expressed his belief that he owed his life to the timely use of Perry Davis's Pain' Killer. During his recent visit to the Missions in Burmah, he had a severe attack of the cholera, and was immediately relieved by its use. Rev. A. Webster, Editor of the Christian Era, writes. " I have used your Pain Killer for many years in my family, with much satisfaction.

Rev J. Phillips, formerly of the Orissa Mission, India. writes, "My wife is using your telebrated Pain Killer for a rheumatic affection, from which she has suffered for years, and with bette: effect than any other of the various remedies she has tried: I am using it for dyspepsia and kidney complaints, with Wholesale Agent, S. "Buy Me and I'll Do You Good." Now is the time to use the Great Spring and

Summer Medicine. Dr. Langley's Root and Herb Bitters, Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake Dande lion, &c.—all of which are so compounded as to act in concert and assist Nature in eradicating disease.

The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life and vigour, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body. They cure and eradicate from the system Liver Complaint—that Main—wheel of so many diseases—Jaundice in its worst forms, all Billious Diseases and Foul Stomach, Dyspepsia Costiveness, Humors of the Blood and Skin, indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Patn in the side and Bowels, Flatulency, Loss of Appetite, and all kindred complaints caused by a torpid or diseased Liver, a disordered Stomach, or bad Blood, o which all are more or I so subject in Spring and Summer.

If taken in large doses, Fever and Ague may be broken up and cured at once. This has become a standard Medicine, and is decidedly the best the world ever saw.

MORE TO BE ADMIRED THAN THE

RICHEST DIADEM Ever worn by Kings or Emperors! What? Why a beautiful Head of Hair. Because it it is the ornament God Himself provided for all our race. Reader, although the rose may bloom ever so

all our race. Reader, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarked and shriveled, harsh and dry, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Planist, Thalberg;

Dr. Wood:

Or Whair to its original color; shout the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "liair Kestoralive" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficatious as well as agreeable.

I am, dear sir, yours truly,

"Drych a'r Gwyliedydet."

Welsh Newspaper office, 13 Naesnu st.,, April 12, 1856.

Prof. O. J. Wood:

Dr. Bran Sir,—Fome months or six weeks ago I received a bottle of your flair Restorative and gave it my wife, who concluded to ty it on her hai, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW,

CHARLES CARDEW.

PROF. O. J. Woop: With confidence do I recommend your trair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers were almost white have gradually grown dark and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

Pace Woop—About two years ago my hair commenced falling off and truning gray: I was fast becoming hald and tried many Remedies to no effect. I commenced using your Hair Restorative in January last. A few opplications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheeriuily recommend its use to all.

1. D. HOES.

Chicago, 111., May 1 1857. The Restorative is put up in bottles of a sizes, viz: large, medium, and small; the small holds 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent, more in proportion, and retails for §3.
