GREAT BRITAIN.

On the 17th, in the House of Lords the Bishop of Oxford presented a petition from Jamaica, touching the Spanish slave trade, and called the attention of the House generally to the question. He contended that the present threatening aspect of affairs in the West was occasioned by having so long permitted Spain to break treaty engagements, and to continue Cuba as a provocative of dangerous extremities. Lord Brougham supported the perition

and strongly condemned the policy of Spain. The Earl of Malmesbury deeply regretted the efforts of the English to suppress the slave trade. With regard to the unhappy differences, he had admitted to the American Government, as a question of international law, that England was not entitled to insist upon the right of search, but he had also put it strongly to the American government whether they would continue to permit their flag to be prostituted to the worst purposes. He had urged the necessity of an ocean police and that some understanding should be come to between the different maratime nations, which would make the nationality of a vessel to be clearly verified without any danger o. a breach of international law.

Ever worn by Kings or Emperors! What? Why a beautiful Wead of Hair. Because it it is the ornament God Himself provided for all our race. Reader, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, harsh and dry, or wayse still, if sprankled with gray nature will are or worse still, if sprinkled with gray, nature will use more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Planist, Thalberg;

Planist, Thinberg,

Dr. Wood:

Dr

"Drych a'r Gwyliedydet," Welsh Newspaper office, 13 Nassau st., April 12, 1838.

Prof. O. J. Wood:—Dear Sir,—Some months or six weeks ago I received a bottle of your Hair Restorative and gave it my wife, who concluded to try it on her hai, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW. New York, July 25, 1857.

Prof. O. J. Wood: With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely. persons who perspire freely. Prof Wood—About two years ago my hair commenced falling off and truning gray: I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Hair Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.
