MELANCHOLY ACCIDENT. -On Friday last, vhile Patrick McGlinchy, a young man about 19 years of age, was at ending the Grist Mill of Lake George, he accidently got entangled with the machinery. His body passed between two cog-wheels about the heart, and was mangled in a most dreadful manner, which must have caused instant death. It is supposed that the unforssayed by the turate young man had been endeavouring to put es the Jesu; on a belt on one of the wheels when the accident occurred. On the following morning about dawn some of the neighbours were not a little alarmed to hear the Mill going at a rapid rate at such an unusual hour. After obtaining a light, they has-Gospel-the tened to the Mill to ascertain the cause; to their grief they found the body of the young man suspended by a bolt which had caught hold of his coat after he had passed between the wheels. When in this position his leg was lying on one of the wheels, the friction of which during the night had rubbed off all the flesh from the bones. His shattered remains were removed by his sorrowing father to Fredericton, the place of his residence, to be interred there. Many sympathize with his bereaved mother, who had a deep attachment for her son. The deceased was much respected by all who knew him as an amiable and modest young man .- Preebyterian.
