

News of the Week.

On Tuesday next the election of Mayor for the city will take place. A number of candidates...

ATTACHED last week from the ship-yard of Messrs. Thompson & McCleod, Carleton, a fine vessel called the Colonial Empire, built for Ken-

The noted KENNETH BIEGER died of consumption a few days since in the Provincial Penitentiary. He has been a daring burglar, and died a notoriously wicked life.

A new regulation has been made between Canada and England requiring repayment on all papers passing between them. Seven pence half-penny on each half ounce will be entered in case of non-compliance.

The circular address by Imperial authority to the colonies requesting such arrangements has only been succeeded by Canada, and hence does not affect this Province.

ROBERTS—Michael Cummings and W. Craig have been committed for trial on a charge of highway robbery, perpetrated on George Godfrey in Lower Cove.

Dr. Gray's reply to Mr. Martin's pamphlet has been received by us from Messrs. J. & A. McMillan, and will be noticed next week. Also, the supplement to the report of the Railway Commissioners.

It is stated in the papers of this week, upon what we suppose to be good authority, that the Railway will certainly be opened to Hampton by the 1st of June. We really hope so, but if it is, there must be a good deal of work performed in May.

SICKLES ACQUITTED.—The Sickles trial that has been attracting so much attention lately, has after occupying twenty days been ended. Mr. Sickles was acquitted by the jury on Tuesday last. The Presbytery says:—"The verdict of the jury 'not guilty' when announced was received by the spectators with unbounded applause."

NOVA SCOTIA.—The absorbing subject is the approaching election. The contest, especially in Cumberland County between Mr. Young and the Provincial Secretary will be very sharp.

Serious riots have occurred in Galway, on the occasion of Signor Gavazzi delivering a course of lectures. The lecturer had to flee from a mob of excited Roman Catholics. A number of Protestant clergymen and others received severe treatment at their hands; among whom was the Rev. Mr. McManis, a Presbyterian minister, who was very badly injured.

ANOTHER STEAMER.—The "Princess Royal" formerly running between Quebec and Montreal now owned by a company in this Province, and to be one of our Bay St. Lawrence steamers. She is now on her way from Quebec and will make her first trip between Montreal and this city early in May.

Our weather is cold and the season is very backward. In March there was every appearance of an early Spring, but April has been as cold as March is in ordinary seasons. Unless we have heavy rains the freshets will not be high enough to bring out the lumber now lying in many of the streams in the St. John river, and as a consequence the supply in the North American markets will be small and command a good price. In England and Scotland the spring is remarkably late. Vegetation has made unusual progress.

A course of Temperance Sermons is being preached in Salisbury. Rev. W. Temple gave the first in the Methodist Chapel and the Rev. George Seely will deliver the second in the old Baptist meeting house.

P. E. L.—A new and entirely Protestant Government has been formed in Prince Edward Island of the following gentlemen: Hon. E. James; Colwell Grey; A. Laird; J. Longworth; T. H. Haveland; J. Yee; and J. C. Cope. The office holders who receive salaries have no seats in Parliament. Their names are as follows:—

Colonial Secretary—Henry Hazard, Esq. Attorney General—Frederick Brecken, Esq. Collector of Excise and Controller of Navigation—Hon. Francis Longworth. Commissioner of Public Lands—D. McLennan, Esq.

Postmaster General—Thomas Owen, Esq. Assessor do—Peter DesBrisay, Esq. Registrar of Deeds—Mr. Robert Crawford. Road Superintendent—Mr. John W. Morrison. Queen's Printer—Mr. John Gns.

The Boston bank loans have increased \$6,000, 000 if one within the last twelve months, while the specie has diminished \$2,508,000.

MELANCOLY.—On Tuesday last a young man named William Pike of Calais, Maine, died aboard the Steamboat which plies between Newport and Calais, under very touching circumstances. He had been living in the Sandwich Islands for the benefit of his health, and was just returning to his native land, when within sight of his mother's residence he breathed his last. He had been for some time in consumption, but his death was comparatively sudden.—Colonial Register.

The Common Council has ordered the sum of \$9,800 to be assessed upon this city for the support of the police, lamp, scavenger, street, and fire department services, and meeting the interest, etc. on Road's Point and Water Loans the present year. The amount is \$650 less than last year. The sum of \$200 was assessed upon Carlton for the street and fire department services, that is \$100 more than in 1858. Francis Jordan, Chas. A. Everett and Seth Wheaton were appointed assessors of taxes, and Wm. F. Bunting, clerk to the Board of Assessors. The new members, Robert Collins and George P. Harding, were sworn in, and took their seats. A grant of \$25 was made to each of the five Councilors on the east side, for their services the past year, out of the fishery fund.—Church Witness.

ACCIDENT ON THE EASTERN RAILROAD.—On Saturday morning, the freight train on the Eastern Railroad, from Portland to Boston, went through the draw-bridge on Parker river, between Newburyport and Rowley, with six lumber cars and one milk car. The fireman escaped alive, but the engineer, Mr. G. Perkins, was killed. The bridge was discovered to be on fire by the engineer, who used every effort to stop the train, but without success.—Boston Post.

The ordinance by which Christian servants are prohibited to serve in Jewish families is likely to be rescinded, but it will be carried out for the very letter in Leuberg, where the so-called "Ghetto" (separate quarter for the Jews) has been re-established by Count Goluchowsky.—Lobe.

SAINT MARTIN, April 25th, 1859. DEAR EDITOR.—This community feels it due to them to contradict fully a statement that has gone the rounds of the City papers, respecting that unfortunate man Daniel Dwyer, who was found dead on the beach near Messrs. Carson's Ship-Yard, on the 1st instant. The statement is taken from the Globe. I think the Globe as well as other papers should be a little careful in making statements without proper authority on such important subjects.

An extract from the above statement from the Globe reads thus, "An inquest was held and the man was buried. Suspicions of foul play having arisen a post mortem examination was held and two men were discovered in his hand."

"An inquest was held and the man was buried," now we just let me say that this statement is true, and that is the only sentence of truth in the whole statement, and he has remained quietly in his grave without a resurrection since he was first deposited there, in his lonely dwelling.

And it is rather strange that twelve men composing a solemnly sworn jury could discover no cuts in his head or any marks of violence on his person further than a very slight scratch on his hand. The verdict of the jury pronounced him as the Murderer, and they could pronounce no other verdict.

At the special request of some of the most respectable members of this Community, I drop you this note to vindicate the truth, and to exonerate our community from the charge of murder with the exception of the run traffic.

I remain, Dear Sir, Yours very respectfully, WILLIAM RUDDICK, M. D., CORNER.

MASSACHUSETTS.—THREE HUNDRED AND THIRTY MEN IN THE PACIFIC.—The "Courier des Etats Unis," the French organ in New York states that at the moment of the departure of the last mail from Europe, the people of Havre were much afflicted by the news of the loss of the ship St. Paul, and the massacre of three hundred and thirty men who were on board, including sailors and Chinese emigrants, by the savages of the Louisiade—a large group of islands in the South Pacific Ocean, southeast of the New Guinea. The St. Paul was a ship of 620 tons, owned by W. Marzou & Co., of Havre, and was on a voyage from China to Australia, with Chinese emigrants. It appears by the letters from Capt. Pinard to the owners of the ship that he escaped with only two men arrived at Sydney, and that the rest, and all more or less suffering. He states that the steamer Styx was despatched to Louisiade to save the unfortunate men, but it was found that the whole of the three hundred and thirty who were left there (except a single Chinese man) had been massacred "with a refinement of barbarity that could only be thought of with terror."

CUBAN RUMORS.—The Sun last week startled its readers and the public, by the most positive declaration that another attempt was about to be made, or was probably already made, to secure the independence of Cuba. It was said that a band of Cuban patriots, residents of New York, left their port during the latter part of March in a sailing vessel with arms and ammunition, bound for Cuba, and that their landing on the island would be the signal of a general rising—if it had not taken place on the day fixed for that purpose, the 1st of April. The local disaffection is said to be widely spread, and the plan of revolt so skillfully and carefully matured that—unless frustrated by treachery—it will not fall of success. The New York expeditionists are mostly young men, many of them sons of wealthy Cubans, but the leaders were men of age and experience, who have long been identified with the cause of Cuban freedom. Of the latter, General Goicoevira is reported to be one and his sailing in the Calahua for Havana on Friday, is supposed to have some connection with the hazardous enterprise.

TROUBLE ANTICIPATED AT QUARANTINE.—Information having been communicated to the Quarantine Commissioners that in the case of the steamer before the Legislature, in favor of the removal of the present quarantine, the citizens of Staten Island would immediately proceed to destroy the buildings which have been erected during the past winter, a special meeting of the Commissioners was held on Saturday, and a resolution was adopted to detail a force of 120 men to protect the buildings and property at Quarantine.

DIED. At Greenwich, King's County, on the 14th inst., after only eight days severe illness, Wesley Belyea, aged 18 years and 7 months, youngest son of Mr. and Mrs. James Belyea. With him the battle is fought, the Wesleyan Church, of which he was a consistent and active member for more than four years, feels deeply this dispensation of Providence; but realize that it is the will of our Heavenly Father, a new life to the spirit world.

Even now by faith we join our hands With him that's gone before; And, by the Spirit's guidance one On the eternal shore.

ADVERTISEMENT.—A report having been put in circulation, tending to the injury of the Proprietors of the "Union Line," to the effect, that the Mails were withdrawn from the River route in consequence of an endeavor on the part of the owners of those steamers to extort a much larger sum than formerly, and an exorbitant rate for their conveyance, I think it but just that the public should be put in possession of the facts. The "Union Line" is a company of gentlemen who have been introduced into the service of the River Mail since the present season, at the same price for which they had conveyed the Mails for the last three seasons, and to perform all the service they had ever before contracted for with the Department; and also offered to serve three other additional Way Offices without extra charge.

PAIN KILLER. We have but little confidence in the trumpet-tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, sprains, rheumatism, neuralgia, cholera, fever and ague, and a host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained such unbounded popularity and extensive use, as this simple and safe remedy. Its curative powers have been experienced by many thousands, in every section of the United States and Canada. It has penetrated to every part, even the most remote and inaccessible, and its beneficial influence has been more potent than those of the "Araby the blessed." We are informed by our principal druggists, that they sell more of this medicine than any other in the market, and that the demand is constantly increasing.—Salem O's.
