Celebrated Artificial Leg. This world renowned limb has been in use in Europe and America for upwards of twelve years, and This world renowned limb has been in use in Europe and America for upwards of twelve years, and every succeeding year serves only to increase its popularity. The "Great Prize Medal" was awarded to Dr. Palmer in London over thirty-five competitors from all parts of Europe, and in this country wherever exhibited, it has invariably received the highest award. Upwards of 'Four Thousand' of the Palmer Artificial Legs are now in use, and are represented by all degrees and professions,—Farmers Mechanics, Lawyers, Sailors, Ladies and Children, all use this "unequalled limb" with wonderful ease and naturalness. The Palmer Leg is adapted 'to every form of amputation, from the shortest to the longe-t. The patient is enabled to walk immediately upon the application of the leg. The limb is an exact copy of its fellow, and the most critical fail to distinguish it from nature. The limbs are very durable, yet so light as to be worn with great comfert. Palmer & Co. have supplied upwards of lifty individuals with two legs each, all of whom walk with surprising naturalness. The recently invented 'artificial arm' is regarded as a complete triumph in the art. The public are cautioned against the circulars and advertisements of charletans and pretenders, who have recently entered the field, and are endeavoring to deceive by copying the invention and the indirect use of the Palmer reputation.

It should be the aim of a newspaper to become acquainted with the improvements and discoveries of the day, and to call the attention of its readers to all such as will be interesting and useful to them. In all such cases its conductors should feel as strictly bound in honor to speak in a candid and truthful manner, as if conversing with an intimate friend. We have hetetofore recommended Mrs. Winslow's Soothing Syrup for children teething, and we now take occasion to repeat that we believe it of more importance to mothers and their children than any other discovery made by the profession in the last hundred years. A very large per centage of children annually die during the process or teething, and a very much larger number of those who survive are greatly debilitated or diseased, so that they grow up weak, both physically and mentally, and incapacitated both for study and labor. Now, we appeal with perfect confidence to thousands of mothers who will read this article, to corroborate our statement, when we say that no such fatal consequences as those we have alluded to, ever occur from teething, when Mrs. Winslow's Soothing Syrup is used in time.

We are pleased to know that thousands of ladies have ADVICE GRATIS.

Syrup is used in time.

We are pleased to know that thousands of ladies have cted upon our suggestion, and have thanked us tor it. Still there are many thousands of mothers who read our paper, who, from prejudice against the flood of worthless nostrums that deluge the country, or from neglect, have not availed themselves of the benefits of this most invaluable remedy. themselves of the benefits of this most invaluable remedy. To such, we wish to say—this syrup is the result of thirty years' experience of one of the best female physicians the world ever produced; and is just the remedy needed by every mother who has a child teething. It softens the gums, reduces inflammation, allays all pain and spasmodic action, corrects acidity of the stomach, and regulates the bowels. Moreover, we assure every mother, it is perfectly safe—no possible harm can come of its use, according to the directions which accompany each bottle. We speak thus confidently, from the fact that very many of our most valued friends have made use of it for years, and we have witnessed the most happy results from its use, in kundreds of cases. If you never before had faith in a female physician, our word for it, you will have, after using the Soothing Syrup. Try it. Twenty-five cents will purchase a bottle. It is, therefere, within reach of the poor as well as the rich.—[New York Ladies' Visitor.]
