

# The Religious Intelligencer.

The French Imperial Amnesty has been eagerly accepted by many, but some notable exceptions—Louis Blanc and Victor Hugo—decline to return to France. Liberty goes with them.

Spain appears on the eve of a rupture with Morocco, having sent in its ultimatum. Some peculiar activity in the Spanish ports has made our Government keep an eye on Gibraltar; tho' it seems inadvisable to suppose that the Spanish Government which has made a new Concordat with the Pope would really be so stupid, could have the audacity to attack a coup d'etat on that fortress. The alarmist would point to another quarter as the instigator; but here again the improbabilities pass before.

In setting up for the Emancipator of Italy the French Emperor most efficiently calculated the adroitness of the undertaking. Since the Villafranca conference nothing has been settled, and were it not for the admirable behaviour of the small Italian States we might fear least all that had been expected would disappear in the quicksands of diplomatic treachery. The alienation of the Italians from the Papal rule is one of the most cheering signs of the age, and increases our desire that they be left, under Divine Providence, the disposer of their own affairs.

## News of the Week.

**TRAINING SCHOOL.**—The next term of the Training School will begin on the 24th of October. Persons desirous of attending must make early application, and none can be admitted after the first week of the term.

Henry Fisher Esq., Chief Superintendent of schools will visit Charlotte County, next week, hold educational meetings, and give lectures.

A telegram was received here on Wednesday, from Quebec, stating that the son of Sir Edmund Head was recently drowned at Three Rivers.

**AT A POLITICAL PIC-NIC** recently held in Aylsford, N. S. the Hon. Mr. Young who was present is reported to have stated in his speech that the next Government at Nova Scotia would be formed exclusively of Protestants.

**REV. GEORGE BUSH,** formerly a Presbyterian Minister, Professor of Hebrew and Oriental Literature in the University of New York City, but during the latter period of his life the ablest and most prominent expositor of the Swedenborgian doctrine, died at Rochester a few days since.

**THE FREE BAPTIST MEETING HOUSE** at the head of Tenants Cove is to be opened for public worship on Sunday next.

**THE STEAMER EXPERIMENT** met with an accident to her boiler the other day which may have the effect of rendering her useless henceforth. We understand that the Nova Scotia Government have in contemplation the introduction, at the next meeting of the Legislature, of a Steamboat Inspection Law similar to that now in operation in New Brunswick.

**THE PROVINCIAL SECRETARY OF NOVA SCOTIA** has brought an action in the Supreme Court at Halifax against the Hon. Mr. Young, to recover a debt of one hundred pounds, made during the late election contest, and which he claims to have won!

**RAILWAY RETURNS.**—The following are the returns of the traffic on the St. John division of the Railway from the 31st of the previous month:

31st Sept.	10th Sept.
Passengers, 2904 8 6	2660 17 1
Freight, 44 6 2	31 2 11
Totals, 2948 15 0	2692 0 0
17th Sept.	24th Sept.
Passengers, 2538 14 8	2146 7 9
Freight, 65 2 7	65 13 4
Totals, 2603 17 3	2212 1 1

Making the total receipts for the above period, \$1456 13 11.

**SHOCKING SCIENCE BY A BOY.**—Newark, Conn., Aug. 13.—Last evening a thrill of horror electrified our quiet community as the tidings spread from mouth to mouth that a young man, 17 years of age, had shot himself in a fit of passion!

It is reported that he had been maddened by the late rebuke and expostulations of his father and family, because of improprieties in his conduct. Accordingly he borrowed a pistol, and going to the rear of the house, applied it to his person, and fired it, so close that his clothing was set on fire by the explosion. The family hearing the sound rushed to the spot, and found him lying in his blood. He said he had done it to spite his father, and that he expressed no regret for what he had done, but afterwards, when he came to realize his position, he bewailed his madness and folly. The very respectable family are of course, plunged into the deepest grief. The ball entered his abdomen, passed through his body and lodged under the skin in his back. We saw it in the hands of his physician, who said this morning that he was dying. What an affecting instance of the infatuation of passion; of the wickedness and misery of an unbridled temper! Ponder it, parents and teachers! Take warning, boys! Let the lesson be impressed in our Sunday Schools! "He that is slow to anger is better than the mighty and he that ruleth his spirit than he that taketh a city."

An aerial ship called the "City of New York," intended for a trans-Atlantic voyage, has been in the course of construction for some months in the vicinity of New, and is now so nearly completed that she will be ready to undertake the trip in Oct. The aeronaut who has charge of the enterprise is Mr. Lowe of New Hampshire, who has made several successful ascensions. The dimensions of the air ship are greater than those of any balloon previously built. The capacity of the gas receiver is 725,000 cubic feet, the aggregate height of the balloon from the valve to the bottom of the ball, is upwards of 120 feet. Mr. Lowe proposes to go directly from New York to London in forty-eight to sixty-four hours.

**NEWSPAPER POSTAGE.**—This tax continues to be most obnoxious to the press. Indeed, one would hardly suppose that the small charge of half-cent per page upon a newspaper would cause so much discontent. We propose the reason, is, that the charge is felt to be a direct tax, and people pay unwillingly because they have become accustomed to receive their papers without cost. No one, perhaps, would complain, had not the Government, a few years ago, taken the liberal view that newspapers should go through the mail free, to encourage a love of reading and to remove all restrictions tending to hinder the spread of useful and important knowledge among the people. Taking this view it was unwise and impolitic to re-impose postage upon newspapers. When thousands of dollars are annually granted to sustain an educational department and a national book-store, to promote the intelligence of the people, it seems unwise to

place a tax upon the circulation of the newspaper which forms a most important indicator of the people.

**Gen. Scott** has sailed for the Pacific, to arrange the difficulty between the British and American authorities respecting the island of Japan, on the coast of Washington Territory.

**JAPAN.** News from Japan, dated on the 5th of June, states that the Emperor had ordered that the city of Jeddo, Nagasaki, Simoda, and Hakodadi, should be visited by telegraph, and a line was being built from Jeddo to his summer residence. All the vessels in the Imperial fleet were to be turned into steam-propellers, and one of them, the Nippon, had already left on a voyage of discovery, manned by a native crew and native engineers. An American having discovered a copper mine, was permitted to work it, on promising to divide the proceeds with the government.

A correspondent of *The London Post* tells of a Japanese girl, who, in spite of the laws prohibiting emigration, left by stealth for Shanghai, under the pretensions of a Frenchman. The owner of the steamer sent her back to Japan. On arriving, the vessel was hoarded at once by a couple of officials, who affected to ignore her presence until all the formalities were completed, and then took her into custody. The poor thing struggled against her fate in vain. She was landed, and as it was informed, condemned to death, together with her relatives, and some officer of officers who ought to have prevented her escape!

## EUROPEAN NEWS.

The news from Europe by recent arrivals is interesting. The explosion of the feed pipe of the Great Eastern on evening of the 9th inst., off Hastings, was an unlooked for accident. Five firemen were killed, and others wounded by its occurrence. Some severe damage was done to the fittings, but the ship and machinery were uninjured. The numerous guests on board had just quitted the grand saloon, through which the funnel passed, and in which they had been dining a few minutes before the explosion took place. But for this, the consequences would have been most serious.

The explosion is stated to have probably been one of the most terrific which a vessel has ever survived and which none in the world could have withstood save a structure of such marvellous strength as the Great Eastern. She not only resisted it, her frame sustaining no injury whatever, but it made so little difference in the movement of the vessel, that the engines were never once stopped till she reached Portland.

Prior to the accident the performance of the vessel was most satisfactory, and she was almost off Hastings, when the large vessel in her vicinity was pitching and tossing in a stormy sea. A survey of the vessel had been held, and estimates sent in to forthwith repair the damage, at a cost of not more than £5000, the injury being far less considerable than was at first supposed. Little, if any, delay would take place in the departure of the ship on her first voyage, but a rumor prevailed that she would not proceed to Holyhead, but sail direct from Portland. The accident caused a slight decline in the shares of the company, but did not influence the general confidence in the ship.

**CHINA.**—The allied expedition to China has met with a sad reverse. The squadron reached Suo Peihoo June 17th. The fortifications had been re-built, but no guns or men were visible. The entrance of the river was effectually barred.

The Plenipotentiaries finding no Chinese officials to receive them, determined to force the river barrier, but found it too strong, and were attacked by a force apparently twenty thousand strong, who suddenly unmasked and opened a tremendous fire. A severe action ensued, resulting in a total defeat of the British forces, with the loss of five gun boats, and about one third of the whole force engaged (404) being killed and wounded, and the French lost 14 out of 60 men engaged.

The Plenipotentiaries returned to Shanghai. The rest of China was quite. No fears about Canton, but the Tartar troops have been dismissed to their homes.

The following interesting details of the action have been received:—

The mouth of the river was very effectually barred by iron stakes and booms. This bar was raked by the fire of newly constructed forts on the other side of the river, mounting ninety to one hundred guns.

Admiral Hope's appearance in the first instance was unambiguously pacific. A solitary man-of-war was carried in his first message, the Party being left outside the bar, while the rest of the squadron was lying thirty miles off. The Ambassadors, finding no proper officers to receive them, decided to remove the bar, and pass up the river. Six or seven hours, however, were spent in vain, endeavouring to effect this, and during that time not a gun was fired from the fort, although the gunboats were at a distance of 500 to 700 yards only, and some of them had got around. At 30 a signal was given to the mud walls, the Opposum and Pioneer rushed in close up to the first barrier, suddenly about 2 P. M., the guns in the forts opened fire, and the action became general. The fire of the Chinese, both in weight and precision, was such as was never before experienced at their hands. In about two hours the Chinese began to slacken, and soon afterwards became almost silenced, although every shot of theirs told, while the British guns did comparatively little damage to the mud walls.

The signal was made for the troops to land, and there were then no doubt of a speedy victory. Just as the first boat touched the shore, the forts opened a perfect hurricane of shell, gringal balls and rockets, which mowed down the men as they landed. The ships were in as heavy a covering fire as they possibly could. The enemy's fire continued so heavy, and the mud, on landing, being up to the knees and sometimes to the waist, that, out of 1000 men who landed, barely 1000 reached the first of three wide and deep ditches, who, after some 500 yards of wading mud, presented themselves. Of the gallant few who got through the mud difficulties, scarcely 20 had been able to keep their rifles or ammunition dry. Nevertheless they boldly faced the ditches, and some of them, including a crowd of officers, succeeded in getting as far as the third ditch. They would certainly have made a good attempt to scale the walls, but the ladder had not been broken by shot, or had stuck in the mud. With one who remained, however, ten devoted men sprang forward, three of whom were immediately shot dead, and wounded severely.

A vertical fire of arrows, as well as a constant fusillade, was kept up on the select band, who now crowded in the ditch awaiting but in vain, for reinforcements. Orders were sent given to retire. In effecting a retreat, probably more lives were lost than in advancing, as the Chinese, by the means of blue lights, discovered the position of the men, and shot them down like birds. Many boats had also been smashed by shots, and there were not enough to take off the survivors. Several boats full of the wounded, were universal throughout the squadron that Europeans manned the batteries as well as Chinese. Men in grey coats and closely cropped hair, with Russian features, were distinctly visible. The whole of the fortifications were evidently of European design. The total killed and wounded of British is 464; French, 4 killed and 10 wounded. Total of Marine brigade, only officers—1 killed, 15 wounded; non-commissioned officers and men—27 killed, 122 wounded.

Admiral Hope was severely wounded, as also were several prominent officers. Some wounds are said to have been inflicted by Minnie balls.

The Americans towed up several of their boats into the action, and after the action took out their respective ships a number of men.

The *Paris Moniteur* in an article detailing the treachery of the Chinese, says—The Government of France and England are about to take measures together to inflict chastisement, and obtain every satisfaction which so flagrant an act of treachery requires.

**LATEST INTELLIGENCE.**  
(By Telegraph to the St. John News Room.)  
Circassian arrived at St. John's N. F., at 2 p. m., 26th Sept.

Officially announced that the Great Eastern leaves Holyhead, for Portland, Oct. 28. Scott Russell undertakes to complete repairs in three weeks.

Further details from China unimportant.—Letters say Americans evinced warmest sympathy for Allies and performed many acts of kindness.

Reported that England about to send strong naval force, and France has ordered 12,000 troops to be ready to depart.

Nothing done at Zurich.

Reported that both the Empress Eugenie and Princess Clotilde are en route.

The King of Sardinia has received deputations from the National Assemblies of Modena and Parma regarding annexation. He acquiesces in the views, and promised to support them before the Great Powers, and expressed a wish that Europe, having recognized the right of Nations to form their own constitutions, will not deny it to Italy.

Military movements indicate determination of Italians to rely on themselves.

Austria could increase military in Italy, and asserted France had still nearly 100,000 troops there.

Spanish expedition against Moors fixed at 12,000, and transports all ready.

Red Sea Telegraph Company invite public business over complete portion of the line from 1st Oct.

Koorigin & Co., St. Petersburg, failed—liabilities heavy—engaged in tallow speculations.

Manchester advices favorable. Breadstuffs generally elated with advancing tendency.—Provisions steady.

Consol 95 1/2 5/8.

Money market slightly easier.

Beef quiet. Pork steady. Bacon dull.

Sugar steady. Coffee firm. Rice dull.

## DIED.

Suddenly, at his residence on Brussels street on Tuesday evening, 27th inst., at the advanced age of 73 years and six months, Mr. George Whiteley, leaving an aged widow, a numerous family of children and grand-children, and a large circle of acquaintances to lament the departure of an affectionate husband, parent and friend.

For a period of more than 40 years Mr. Whiteley had been a consistent member of the Wesleyan Church, which, by his death, loses one of its most energetic and efficient officers.

At Sussex Vale on the 16th inst., Mr. Stephen W. Carter, of Hampton, aged 61 years, leaving a widow and two children.

At Houlton, Me., on Sunday, the 18th inst., after a short illness, Clarissa Jane, aged 18 years, youngest daughter of Deacon Elijah Ebbett, formerly of Hampstead, Q. C.

Dear Jane, we lay thy body down,  
Beneath the cold, damp sod;  
But ah! thy spirit it has flown,  
We trust, to meet thy God.

But yet we sigh to leave thee there—  
A partner of the dead;  
We yield thee up with many a tear,  
With heartfelt anguish shed.

At Frederick on the 22nd, after a short illness, Andrew Ritchie, Esq., in the 49th year of his age.

At Sussex Vale, Kings County, on Friday 23rd inst., Caroline the beloved wife of Mr. James Josel take of Halifax N. S., after a long and painful suffering which she bore with Christian fortitude and resignation.

Halifax papers please copy, Sept. 23rd 1859.

## Weekly Receipts of the Religious Intelligencer.

PLEASE READ!—Persons paying money for the Religious Intelligencer will please send their money by the order of the paper to which each man's name pays immediately. It follows the amount received.

**NEW BRUNSWICK.**—Sept 29th, G. L. Good, 7s 6d; 35c; Rev. B. Merritt, 10s, 35c;—Seth Eddy, 2s, 6d, 31c;—A. L. Wells, 3s 9d, 32c;—James Prince, 5s, 33c;—Philip Davis, 7s 6d;—Charles Solomon, 5s, 33c;—John Porter 7s 6d, 34s;—W. N. Finley 3s 9d, 33c;—G. K. Black, 7s 6d, 34s;—Jenny 3s, 33c.

**NOVA SCOTIA.**—Sept 29th, Reed Hall 7s 6d, 35c.

**Removal.**  
The Office of the Religious Intelligencer is Removed to No. 28 German Street, one door nearer King Street than formerly.

The words "RELIGIOUS INTELLIGENCER OFFICE" may be seen in the window.

Letters, Memorandums, &c., for the Editors, may be put in the Letter Box in the door, when no person is within.

**Special Notice.**  
We have heretofore notified subscribers of the time when their subscriptions expired by enclosing their last paper in a *Blue Wrapper*. We have found this not to be the best method, the notice being too short, and other causes render it objectionable. Hereafter the number to which each subscriber is paid will be written in figures on the wrapper enclosing his paper, EVERY WEEK, so that persons will at all times know when their paper will run out.

Get no other—if you are suffering from cuts, wounds, chapped hands, erysipelas, corns, chilblains, &c., procure a lot of *Reid's Russian Salve*, the greatest healing remedy ever discovered. Sold by all druggists, 25 cents a box.

Highly important to Mothers—Mrs. Winslow's experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves and relief and health to your infants. Perfectly safe in all cases.

I have used Davis' Pain Killer in my family for several years and take great pleasure in recommending it as valuable medicine, that should be kept in every family.

Factor of the Huntington street Baptist Chapel New London.

**Cramp and Pain Killer**  
The world is acquainted with the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by J. C. B. & P. H. It is equal to any ever known for moving pain in all cases; for the cure of Spinal Complaints, Rheumatism, Neuralgia, Headache, Toothache, Stomachic, Biliousness, chills, and Fever Burns, Stomachic and Gravel, it is decidedly the best remedy in the world, only remedy I would use. I have thoroughly tested it and know it can be relied on.

**DAVIS' PAIN KILLER.**  
I have used this medicine known as Perry Davis' Pain Killer in my family for about twelve months, and have great pleasure in testifying in favor of its very valuable properties. I would not on any account be without it. During the existence of the Cholera last year, I used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely, and I am happy to say the Pain Killer was equal to every emergency—it was both a preventive and a cure.

I consider I should be in the doing my duty to the community did I not say this. If I were attacked by the cholera I say the Pain Killer should be the only remedy I would use. I have thoroughly tested it and know it can be relied on.

**Headwork!** Headwork!  
A splendid lot of Headwork, as follows—Mocags, Belts, Bracelets, Mats, Spex Cases, Work Bags, Money Purses, Gloves, Cases, Minstrel Snow Shoes, Collars, Sign Cases, &c., &c., &c.

Call and examine the Native Indian Bead Work, at 75 Prince Wm. Street.

**F. A. COSGROVE.**

## AYER'S CATHARTIC PILLS.

Letters from Eminent Personages.  
"On whose bows claim  
The crown of merit."

From the President of Mexico.  
Dr. J. C. Ayer, Lowell, Mass., U. S. I am instructed by the President to acknowledge the receipt of your Cathartic Pills, which he has ordered to be distributed through the Army. They have arrived safely here. The President directs me to assure you of his high regard for such invocations to tend to promote human suffering. Believing your essential compounds to be of this character, he has graciously furnished me with an order for a supply of your Pills, and has directed me to forward them to the Government, and by the eminent physicians in Mexico. When they have a longer trial, the President intends you will be further advised of our success in this matter. Permit me to avail myself of this opportunity to assure you of our high regard for you.

From the American Minister at the Court of the Sultan.  
Office of the American Legation, Constantinople, Turkey, Aug. 15th 1859.  
I have the honor to acknowledge the receipt of your Cathartic Pills, which I have ordered to be distributed through the Army. They have arrived safely here. The President directs me to assure you of his high regard for such invocations to tend to promote human suffering. Believing your essential compounds to be of this character, he has graciously furnished me with an order for a supply of your Pills, and has directed me to forward them to the Government, and by the eminent physicians in Mexico. When they have a longer trial, the President intends you will be further advised of our success in this matter. Permit me to avail myself of this opportunity to assure you of our high regard for you.

From the King of Siam.  
Kingdom of Siam, September 24th 1859.  
I have the honor to inform you that your present of Pectoral and Cathartic Pills, which I have ordered to be distributed through the Army. They have arrived safely here. The President directs me to assure you of his high regard for such invocations to tend to promote human suffering. Believing your essential compounds to be of this character, he has graciously furnished me with an order for a supply of your Pills, and has directed me to forward them to the Government, and by the eminent physicians in Mexico. From the King of Siam.  
Kingdom of Siam, September 24th 1859.  
I have the honor to inform you that your present of Pectoral and Cathartic Pills, which I have ordered to be distributed through the Army. They have arrived safely here. The President directs me to assure you of his high regard for such invocations to tend to promote human suffering. Believing your essential compounds to be of this character, he has graciously furnished me with an order for a supply of your Pills, and has directed me to forward them to the Government, and by the eminent physicians in Mexico. When they have a longer trial, the President intends you will be further advised of our success in this matter. Permit me to avail myself of this opportunity to assure you of our high regard for you.
