A sad, sudden and sweeping bereavement truly ! | Cease fond parents, cease from weeping; Though you've lost your children five; They're not dead, but only sleeping;

Rather, all with Christ alive. Oh! 'twere selfish, human blindness, Which would keep them back from God; Deem the stroke was loving kindness-Humbly bow and kiss the rod.

Let this blessed consolation Cheer you in your childless home; They are safe from all temptation, Taken from the ill to come-Bend in Christian, meek submission, To the Saviour's kind behest:

Your bereavement prov'd admission,

Of your lav'd ones to his breast. Though death's scythe cut down (wide sweep. Every darling girl and boy;

While you grieve, they're (doubtless) keeping Festival of purest joy; Here, while you in tears are sighing, In this vale of death and night; There, your children are enjoying, Perfect bliss, and life, and light.

Tears are proofs of our affection, He's a brute who never wept; Christ, (the life and resurrection) Wept beside where Lazarus slept; Still indulge not too much sorrow, Like the world which has no hope; While you see a bright to-morrow,

Though most cutting and bereaving, Let your sever'd, earthly ties, Urge you, hoping and achieving, Swifter to your home, the skies; There you'll find a welcome greeting. On the bright, celestial shore; Where you'll have a happy meeting,

Dawn through faith's true telescope.

"Where you meet to part no more." Hail! ye youthful, happy spirits, Born into the world above; Through a precious Saviour's merits, Children of redeeming love; No regret for early dying, Gives your happy bosoms pain;

Parents for their loss are sighing-Death to you is only gain. J. REDFERN.

P. K. We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' Pain Killer that it is a very valuable article, and one that it would be well for every householder to have at hand, in cases of hruises, scalds, hurns diarrhea, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. Invented only sixteen years since, its curative powers have been experienced by many, many thousands in every section of the United States and Canada. It has penetrated to every park, even the most remote of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blessed." We are informed by our principal druggists, that they sell more of this article for importation than of any or all others, and hat the demand is constantly increasing may be satisfactory to the Government, engaging to
