## SABBATH SCHOOLS.

During the winter nearly all of our Sabba Schools in the country are discontinued, and those that are kept up are only attended by the larger children. In some places this is unavoidable. Small children cannot well go the distance through the cold and snow that country children often do go in the summer time. We notice that Rev. T. H. Hawks, of West Spri..gfield preached a sermon last Sabhath on he " risk of concealing sin," illustrating the subject by the case of E. W. Reed, the notorious adulterer, who was a member of that church. At the close of the sermon he was publicly excommunicated. We are aware that recently it has been customary to exclude offensive members of some of our churches in a more quiet and perhaps less offending manner than by public' excommunication, but we see no good reasons for such leniency. It is a radical and we believe unwise departure from what was once the universal practice among our churches, and savors somewhat, as it seems to us, of a want of proper boldness in rebuking a violation of the most solemn obligations. These vows were voluntarily and publicly assumed, and why should not he who penly violates and repudiates them be as publicly cut off from his church connexion ?- Congregationalist.

The missionaries sent out by the Presbyterian and Dutch Reformed churches of this country have found no obstacles to establishing themselves in Japan, so long closed against Christian eachers. Two temples were cleared of their idols and rented to them. The Mayor of Nagasaki visited these missionaries, and asked them many questions about their religion, and accepted a copy of the New Testament in Chinese.

RELIGION IN A NOTTINGHAM FACTORY .- The gifts in the worship of God. We judge from the may disappear. The municipality of the County new Occasional Paper of the Pastoral-Aid Sociecontains a statement by a correspondent with agard to an interesing and important movement no licences for the year ensuing ; and it is thought in Nottingham :-- " A noble effort to mingle religion with the affairs of common life has (he says) lately has been made by the heads of one of the argest lace warehouses in Nottingham. Feeling he resoonsibility of their position as employers. the head of the firm resolved to engage the services of a clergyman, who should act as chaplain in performing the daily worship, in a room speially appropriated to that object, and also exercise pastoral supervision over the persons engaged in the ware house. This effort has been attended to with much success. Many persons have been brought from a worldly to a goodly life while over the entire concern, a moral tone has been diffused. The plan embraces evening-schools and devotional meetings, a savings bank and sick club, a singing class and missionary efforts; while a portion of secular and religious literature is being perpetually circulated. PERSECUTION IN MADAGASCAR .- The latest ntelligence received from the Island of Madaascar states that the laws of Madagascar-that is, the decrees of the Queen, directed against all their severity; and multitudes, both of men and women, who have been convicted of believing the truths and practising the duties of the Gospel, are now suffering poverty, imprisonment and slavery. But, while the condition of these sufferers should awaken our tenderest sympathy, it is gratifying to learn that for some months past these oppresing and sanguiuary laws have not been to force as regards new victims. A kind and powerful influence has been, through the merciful providence of God exerted on behalf of His suffering saints; and the effort has happily been successful to the extent now indicated. For the present, however, access to the island an the part of any Christian Missionary, or, indeed, of any foreigner, is prohibited, and communication with the suffering Christian is all but impracticable ; but, noth withstanding the long continued and accumulated afflictions they have endured, and constant danger tinue to increase, and the churches of Madagascar are multiplied; and this applies not only to the capital but to different parts of the island. EXTENSION OF THE ENGLISH EPISCOPATE .--- A memorial, signed by upwards of 4000 ministers of the Established Church, has been presented to Lord Palmerston, urging an immediate increase of the number of Bishops in England and Wales. To begin with, they propose that the See of Exeter be divided, and Cornwall be erected into a separate bishopric. It appears that in the diocese of Exeter, there are 693 henefices and 252 curates. A committee of clergymen had been appointed by the memorialists to take the necessary steps for the accomplishment of the object desired.

THE CHRISTIAN .- Nothing seems worthy of notice to the dying Christian but heaven and eternal realities, and on them he fixes his mind intently, and instead of finding his hope of hea ven flickering and expring, he finds it growing brighter and brighter ; and as he detaches his thoughts from the world, and fixes them on the bright prospect before him, scene after scene is forced upon his view, till he is absorbed and lost in the vision. Such, it is believed, will be the case of every Christian, when he gets a clear and distinct prospect of his HOME.

In the process of dissolution, what appears so terrific to the spectator, is often nothing more than the wrecking of the vessel on the shore of time, while its happy inmate, with his eye fixed not teach children the fear of the Lord unless they on the bright scenes before him, is disembarking in the world of spirits.
