The censorship of the press is removed in Tuscany, and the demand for Bibles and tracts is the pressure of the priests will allow.

The Tuscans are a better educated people than the Piedmontese, and an educated ministry is greatly needed in the Province. Since the return of Mazarella to Genoa, a carpenter named Barsali has been holding forth to the attentive and delighted audiences. He appears to be a man of considerable energy and intelligence though uneducated, with a plain, stern and deepbrowed face-the countenance of a hard thinking and a hard-working man.

LATER FROM EUROPE.

The steamship " Europa," which sailed from Liverpool on the 5th inst., arrived at Halifax at 11 o'clock on the night of Tuesday last.

Lord John Russell stated in the House of Commons that England had made a proposition to America relative to the settlement of the San Juan question, which was rejected. Another dispatch had been sent out to which General Cass's reply was looked for shortly, and further steps would depend on the nature of this reply. The Reform Bill passed a second reading in

the House of Commons without a division. Lord John Russell denied that the China ex-

pedition would be delayed till Lord Elgin's arrival out. On the contrary operations will be pressed forward.

The continued advance of Breadstuffs in France will put in operation the sliding scale, which will land.

The bill modifying the tariff on wools, cotton, and other raw materials, has been approved of by the legislative body, 249 against 4. M. Thouvenal issued a despatch showing that the annexation of the neutralized districts of Savoy will not change the situation of Switzerland. It is report d that the new French Tariff will probably go into operation on May the 7th.

The Bourse was animated and higher, at 71f. 35c.

The King of Sardinia was at Belogna. He received an enthusiastic reception. The Lyndicas presents five million of francs as

LONDON DRUNKARDS.—A writer on the Out-casts and Poor in London states that several cal-culations have been made in order to test the amount of drinking that goes on in the metropolis. Thus, it has been pointed out that in 1848 there were 11,000 public-houses in London, while there were 4,000 butchers and bakers. Again, humbie sarvant. JOHN P. BROWN.
