Two brothers left their cottage home On a bright April morn; The lark was singing in the sky, The linnet on the thorn; Their mother watched them as they sped So gaily up the hill, No thought of fear was on her heart, No shade of coming ill.

But evening came, and they came not-Then a long stormy night Of agonizing fears wore on; And with the morning light An eager, sympathizing band
Took in a boat their way,
Round the dark rocks which circled in A small sequestered bay.

The dark red precipices rose Sheer from the deep below, With caverns hollowed by the waves Of ages long ago; 'Twas a wild spot—a giddy height To look at from beneath; And from above one thoughtless step Were sure a fearful death.

A narrow space of stones and sand The low tides had left bare; There was a brief and anxious search,-They found the lost ones there! Clasped in each others arms they lay, All lifeless, pale, and cold,— Oh, what a tale of agony Did the first glance unfold!

With one the mortal strife had pass'd-All aid for him was vain ; But one still breathed,—he lived to see His mother's face again. And ere his spirit pass'd away, They asked him, "Was it not An awful night of pain and fear You spent on that lone spot,

With the wild precipice above, And death so close beside?" But with a placid look and smile, The dying boy replied,-"Our Grandmother was with us there; She stayed the whole night long, And through the noise of winds and waves I always heard her song.

The old low song she used to sing So often, long ago, When we were young, before she died, And went to heaven, you know. And when I knew that she was near, I could not feel afraid." 'Twas a strange answer !- Who shall tell The meaning it conveyed?

Was it some idle phantasy Of the boys fevered brain, That cheered him through those dreary hours Of mortal fear and pain,-Some passing sounds by fancy borne On the cold midnight air? Or did the kindred spirit come, And keep love's vigils there?

Answer us, spirits of the blest, From your bright homes on high! Tell us, if still on this poor earth Ye look with pitying eye,-If the departed still may come, In hours of want and woe, As "ministering spirits" sent To those they loved below?

Vain questions of the weary soul! But we know who has said, "Let not your hearts, who trust in Me Be troubled or afraid. For I am with you evermore, According to my word." Let this suffice for faith and hope, So be it, graeious Lord! H. L. L.

THE PARTING KISS. We do not know when we have been more affected by any narrative, than by the one we have lately read, entitled 'The Parting,

"I was but five years old when my mother died; but her image is as distinct to my recollection, now that twelve years have elapsed, as it was at the time of her death. I remember her as a pole, beautiful, gentle being, with a sweet smile, and a voice that was soft and cheerful when she praised me; and when I cried-for I was a wild, and thoughtless childthere was a trembling mildness about it that always went to my little heart. And then she was so kind, so patient; methinks I can now see her large blue eyes moist with sorrow, because of my childish waywardness, and hear her repeat : "My child how can you grieve me so?" I recollect she had for a long time been pale and feeble, and that sometimes there would come a bright spot on her cheek which made her look so lovely, that I thought she must be well. But she sometimes spoke of dying, and pressed me to her bosom, and told me to be good when she was gone, and to love my father a great deal, and be kind to him, for he would have none else to love. I recollect she too sick to kiss me, as she a! ways used to before could not. I stole into the room, and laying my lips c'ose to her's, whispered "mother mother times preserve her dignity and self-respect." -won't you kiss me !" Her lips were very cold; and when she put her arms around me, laid my head upon her bosom, and one hand upon my cheek, I felt a cold shuddering creep over me, my father carried me from the room, but he could not speak. After they put me in bed, I lay a long time thinking—I feared my mother would die, for her cheek felt as cold as my little sister's did when she died, and they laid her in the ground. But the impressions of mortality are always indistinct in childhood, and soon fell asleen.

the following in our drawer: "Never write a complaint against your pastor or the editor of the whole and can tay, in this article for over ten years, and can tay, in the say of any other ten might have a limit what we have never been in the weak and can tay, in the say of any other ten might have a limit to your religious paper, until you think and pray over it a few days."

Very "judicious counsel," certainly, and it is hoped that it will be accepted by those for whose benefit it is designed. The writer might have added payor atterned complaint for the ground in almost every instance of where the infant is suffer-and HEALTH TO YOUR INFANTS.

Whatever there is that is estimable in my character, I owe to the have vomited himself to death." impressions of goodness, made upon my infant mind, by the exemplary conduct and faithful instructions of my excellent mother."

The following touching incident was related a

few days ago, and told you of my losing a little suffering, for misgiving, there is no remedy but boy eight years old. Since I was last here, we stirring and doing. -Robertson, have lost another still younger. The oldest was a child remarkable for his intelligence in the things of religion. He seemed to have a full com- Mr. Thomas Anderson gives the following reprehension of the way of salva ion, through re- cipe for cancer, which, he says has been of great pentance towards God and faith in the Lord service in several dangerous cases: Jesus Christ. He had long expressed the hope "Boil fine Turkey figs in new milk, which they that he might be a minister and a missionary of will thicken, when they are tender, split and apthe Lord Jesus. To this work a fathers and a ply them as warm as can be borne to the part afmother's heart had consecrated our bright little fected, whether broken or not; the part must be But it was not so to be. In a most unexpected some of the milk: use a fresh poultice night and moment that child took his leave of us, rejoicing morning and at least one during the day, and in the going, and soared away to be forever with drink a quarter of a pint of the milk the figs are Christ. For we could not doubt that the dear boiled in, twice in twenty four hours.

boy was a real christian, made so by the washing If the stomach will bear it, this must be pre-

marked him for his prey. We have always taught our children to pray, even before they could half way down his throat; yet it was so perfectly could teach them that they must never expect to ten pounds cured her. go to heaven by reason of their own innocence ; but they must be saved by the blood of Christ. They must be sanctified by the Holy Spirit. They "THE RELIGIOUS IN TELLIGENCER must be rendered meet for the inheritance of the saints in light. So we believed; so we prayed; so we taught our children to pray.

"When this little boy was in his death hour, he looked up, with a most wishful look, a pleading look, as if he feared he might be denied, and ' Mother! I want to say my prayers.' She knew

'My dear child, you shall say your prayers,' 'Not here,' said the little sufferer, 'but on my

knees.' "He was laying on her lap. She raised him up on his knees, when he clasped his arms around her neck, and laying his head upon her shoulder poured out his heart in prayer to God. He was so weak and feeble that he could only say a word at a time. At length his prayers were finished, and he unclasped his little arms and fell back upon her lap. A smile of heavenly sweetness stole over his face, he drew a few inspirationsslow-slower-and he was gone. Oh !-said the pious father—the blood of Jesus, that cleanseth from all sin, never appeared so precious to me asit did then. I look upon my dear little boy as one whom I might hope had been redeemed and

saved through the merits of that blood. "I want to urge all fathers and mothers here, to consecrate their young children to Jesus. Teach them, oh! teach them, to trust in Jesus Christ—to be saved by his blood. I love to firm basis, and its continuance—with judicious think that my dear boys are washed—that they are sanctified—that they now are glorified. And I stand here, a mourning father, yet happy in the midst of sorrow, that I have had the privilege of training these little boys for heaven."

GIRLS DON'T DO IT !- In " Advice to Young Women" occurs the following:-There is practice quite prevalent among young ladies of the present day, which we are old fashioned friends and patrons please aid us in increasing its enough to consider very improper. We allude already wide circulation, by recommending it to to giving daguerrectypes of themselvess to young their neighbours and others as far as they conmen who are merely acquaintances. We consider it indelicate in the highest degree. We are astonished that any young girl should sell and Six Pence, one year. E. McLEOD, herself so cheap as this. With an accepted lover it is of course all right. Even in this case the likeness should be returned if the engagement should, by any misunderstanding, case. If this little paragraph should meet the eye of any SPRING STOCK girl about to give her daguerreotype to any gentleman acquainteance let her know that the remarks made by lyoung men when together, concerning what is perhaps on her part but a was sick all day, and my little hobby horse and piece of ignorance, or imprudence, would, if she MILK PANS, whip lay, aside, and I tried to be very quiet. THE ONLY PREPARATION Having Proofs so strong and direct as to EXPER THE DOUBTS OF ALL!!! For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all case of eruptions, and diseases of the scalp and brain; but all who have used it, unite, in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24th, 1859.

Prof. O. J. Wood—Dear Sir—Your Hair Restorative is repidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrific blow; causing a great deal of inflation, which communitated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could possibly think or, being a professional man myself, and, as I thought, understanding the nature of the disea c, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to belive, preduced a very happy result: two menths after the first application, I had as beautiful a head of young hair as I ever saw, for I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours v ry respectfully,

M. J. WRIGHT, M. D.

Office of the Jeffersonian, Philippi, Va., Dec. 12th, 1858.

Dear Sir—I feel it my duty as well as my pleasure to

Vours v ry respectfully, M. J. WRIGHT, M. D.

Office of the Jeffersonian, Philippi, Va., Dec. 12th, 1858.

Dear Sir—I feel it my duty as well as my pleasure to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer) has been bald ever since his early youth; so much so that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsom head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You could sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c., Thomson Surginor.

Dr. Wood,-Dear Sir-Permit me to express the obligaor; Wood,—Dear S.r—Fermit me to express the onigations I am under for the entire restoration of my hair to its
original color; about the time of my arrival In the United
States it was rapidly becoming gray, but upon the appl cation of your "Hair Restorative" it soon recovered its oligial hue. I consider your Restorative as a very wonderful
invention, quite efficaciaus as well as agreeable.

S. THALBERG.

The Restorative is put up in bottles of 3 sizes, viz: large medium, and small; the small holds 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for \$3.

SCHOFULA, OR KING'S EVIL the blood, by which this finid becomes vitiated, weak, and poor. Being in the circle lation it pervades the whole body, and may burst out in disease on any part of it. may burstout in disease on any part of it.
No organ is free from its attacks, nor is there one which it may not destroy. The serotulous taint is variously caused by mercurnal disease, low living, disordered or unnealthy food, impure a r, fiith, and filthy kabits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is bered, tary in the constitution, descending "from parents to colldren unto the third and fourth generation;" i deed, it seems so be the rod of flim who says, "I will visit the inequities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and in ternal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scroful. ous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofolous in their nature, are still rendered fatal by this taint in the system. Mostof the consumption which decimates the human family has its origin directly in this sero ulous contamination; and many destructive diseases of the liver, kidneys brain, and indeed of all the organs, arise from or are aggravated by the One quarter of all our people are scrofulous; their persons are invaded by this furking infection, and their health is underminded by it. To clean e it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine

AYER'S CUMPOUND EXTRACT OF SAR-SAPARILLA,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blaues and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic a. d. Mercurial Diseases, Diopsy, Dyspepsia, Debility, and indeed, all Complaints arising from vitiated or impure Blood. The popular belief in "impurity of the blood?" is founded in truth, forscrofula is a degeneration of the blood. The Particular purpose and viriue of this Sarsaparilla is to purify and regenerate this vital fluid, with ont which sound health is impossible in contaminated constitutions. AYER'S CATHARTIC PILLS,

For all the Purposes of a Family Physic, are so composed that disease within the range of their action can rarely withstander evade them Their penetrating properties search, and cleanse, and invigorate every por tion of the human organism, correcting its diseased action and restoring its healthy vitalities. As a consequence of the properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or encror physical debility is a stonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do the cure they every-day complaints of every body, but also many formulable and dangerous diseases. The Agent bolow named is pleased to furlish gratts my American Almanac, containing certificates of their cures and directions for their use in the following complaints:—Costiveness, heartburn, headache arising from disordered Stomach, Nausea, Indigestion, Punn in and Morbid inaction of the bowels. Flatulency, Loss of Appetite, Jaundice, and of the bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the

AYERS' CHERRY PECTORAL. For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease. So wide is the field of its usefulness and so unmerous are the cases of its cures, that almost every section of country abounds in persons rublicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiorit, over every other medicine of its kind is too aparant to escape observition, and where its virtues are known, the public no longer hesitate what antidoteto employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many it ferror remedies thrust upon the community have failed and been discar-ded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. Prepared by Dr. J. C. Ayer & Co., Lowell Mass.
