Besides the four theatres, the Victoria, Britannia, Pavilion, and Sadler's Wells, in which sermons ad been for some time past delivered on Sunday evenings, the Soho Thentre has recently been opened for the same purpose. At the first service, Mr. Regionald Radcliffe and Mr. Hill gave short, simple addresses, dealing with the consciences of the people, and many remained after the service for conversation, many of them in tears. One boy especially, we are told, wept violently for a long time. What affected him so deeply was that one who was God as well as man had died for him. "I have been fifteen years in this but now I know that Jesus died for my sais." And then he wept again, glory had suffered on his account.

Although there have been no public announcenents in the newspapers, and while the place is of included in those operations undertaken by the ommittee for special services, yet it is a highly ratifying fact that at the Marylebone Theatre for tenths past, there has been a crowded and contani attendance on the Sabbath evening services. aymen as well as ministers address the people, nd a naval officer has informed us that there has of the divine presence and blessing.

Our Prohibitory Liquor Bill has been thrown out, as was to be expected. The True Witness contradicts itself strangely by the following:

" An absurd, and in a moral point of view, a mogt dangerous Bill for the total probibition of the sale of intoxicating liquors in Upper Canada. Before these sentences are transferred to the introduced by Mr. Cameron, has, we are happy columns of the Intelligencer, the festivities con- to say, been effectually disposed of for this Session. Is it possible, we feel inclined to ask-is it possible that outside of Bedlam, there is any one simple enough to believe that Acts of Parliament can put a stop to the sale and use of ardent spirits, or other intoxicating arinks ?"

TO HIS EXCELLENCY THE HONORABLE JOHN HENRY THOMAS MANNERS SUTTON, LIEUTEN-ANT GOVERNOR, &c., &c., &c.

SIR,-In the Royal Gazette of the 23rd inst., appears a memoranda without date, signed by Your Excellency's advisers, and addressed to Your Excellency, in which is reviewed a corresondence which I had the honor to submit to Your Excellency on the 19th inst. The subject matter of that correspondence must be discussed at the proper time in another place; but as there are several points urged in the memoranda of your advisers, calculated to create a false impression with reference to my reasons for resigning my place at the Council Board, I am induced to

I. In the memoranda under notice, it is intimated that the real reason for my resignation was the refusal of my colleagues in the Government to advise Your Excellency to issue the five cent postage stamp. This statement I must unhesiworthy reception. For once the House of Par- tatingly declare to be incorrect; and if evidence is wanting to prove the contrary, I can refer to the Attorney General, Provincial Secretary, Chief Commissioner of the Board of Works, and the Council on Tuesday, 10th day of April, on which occasion, on account of circumstances which then and there took place I stated, that " I could not sit with men who acted as they did.'

I am well aware that the Law reads-"The Governor in Council may cause stamps with their value printed thereon, to be sold and issued as stage." The Minute of Council made in December last, if not perfected by the Attorney Gendid what I supposed I was fully authorised to do. At all events I have violated no law and in the memoranda now under consideration it is admitsins, but no light or consolation could be obtain; and again occupied have given much encourage- Scriptures, and during the year 89,000 copies had something of what is being done for another ted that I had the consent of my Colleagues to obtain the decimal stamps.

II. My remarks respecting the Board of Works applied not to any particular expenditure, but to the general system of management; and Your advisers do not attempt to deny, (but admit,) that the only knowledge they have of the detailed expenses of that department is obtained at the Audit Office, where the accounts are filed. This department is conducted by a Board, composed of and through His grace to give myself to Him and moneys flowing lavishly into the exchequer; but in the Chief Commissioner of Public Works, the From the admission made, it appears that the Members of the Board, excepting the Chief Commissioner, have no knowledge of their duties in connection therewith, and exercise no supervipersons now being received into the churches. | portion of Roman Catholics to the population is | the Scriptures, and from June to December 2,977 | agent he is, that a New York merchant, a vener- | sion over the expenditures of the department. III. Your Excellency's advisers agree with me that the Government should control all Provincial Minute of Council advising the assent of Her Majesty to the University Bill was a departure from that principle. The publication of that document, and the memorandum submitted by

lie that my position in this matter is correct. IV. Your Excellency's advisers must be aware that I urged that a request made by the Managers of the St. Andrews and Quebec Railroad for the survey of the whole of the lands that the Company would be ultimately entitled to, by the Government should be complied with. Instead of this, only a survey of the side lines beyond the of non-compliance with his request have followed. The works have been suspended.

V. The opinion already expressed by me in my communication of the 19th inst., to your Excellency, with reference to the St. John and Shediac Railway, and its injurious effects upon the country I still adhere to. From the memoranda of Your Excellency's advisers it appears that it is still the intention of the Government to proceed with the extension from the termins to deep wa-
