of the Throat, so common with speakers and singers"

Prof M STACY JOHNSTON, LaGrange Ga.

and Influenza, Irritation, Scieness,

The Bill to incorporate the Victoria Bridge was committed to-day, and the mover, Mr. Tilley said it was the same in its provisions as the Bill which passed the Honse last Session and was hrown out in the Council. The greatest precauion had been taken in preparing the Bill, and all the objections had been removed.

Mr. Ferris said he could not consent to let the Bill pass without entering his protest against it, and he believed if honorable members would honestly express their opinions they also would oppose the Bill. It was opposed by McPherson, Gilbert, and Tibbitts, and supported by Hannington, Lewis, Smith, Tapley and others; Mr. Gray and some others being absent. Progress was reported.

The Board of Agriculture has met daily since its organization, and I understand the result of its deliberations so far has been to appoint Committees for auditing the accounts of the respective agricultural Societies in the several counties; to report on the requisite remuneration to be paid to the several members attending the Board and a number of other subjects. The Board intend to recommend the Legislature to grant the sum of £2,500 to be appropriated in purchasing stock of improved breeds, which, when imported shall be sold by public auction to the highest bidders; conditioned to remain in the province, the proceeds to revert to the provincial revenues.

The Board has also decided that a Provincial Exhibition shall be held at Sussex Vale, in King's County, commencing the fi.st Wednesday in October, 1861.

The Hon. Surveyor General asked leave of absence from the House for a few days to visit hi family, who were seriously ill, which created a sensation in the House, when that gentleman declared that it was the first instance in his life that he had been compelled to ask a such a favor.

The Bill to Incorporate the Victoria Suspension Bridge Company was again committed, and details was referred to a select Committee, namely,

Swadman, Tilley and Chandler, to report upon. committed to-day, and elicited a warm discussion; and Kerr, and supported by Messrs. Williston, Chandler and Steadman. Members opposing this Bill declared it would virtually abolish imprisonment for debt, which was considered not

The Railway Committee met this afternoon, Messrs. Cudlip and McAdam absent. Mr. Lawrence declining to act as Chairman, Mr. Tapley

MARCH 1st. Railway Gommittee met this morning; only business done was to employ James S. Beek, Esq., to take down the evidence given before the Committee. A Bill to incorporate the Orange Lodge was introduced yesterday by Mr. Tapley, member for Sunbury, after which the Hon. Postmaster General introduced several petitions from his constituents praying that the Bill may pass into Law. This measure appears less popular with the house than on former occasions, and there is little chance of it ever finding a place among the provincial statues. Numerous notices have been placed upon the notice Book of motions for addresses to His Excellency, asking information of the Government of the total expense of the public printing, connected with each and all of the public departments. Directing the rether than by the vessel which succeeded them. Government to proceed with surveys of various Railways extension; and various other matters; some of which will create much discussion before

they pass the House.

Mr. McPhelim, has given notice of a motion which he intends to move to-morrow,-That be fore the House proceeded to grant supplies the Government do lay before the House a detailed statement of all sums paid by them from the firs. day of November till the first day of March, specifying the particular service for which such payment has been made, and also the name of each separate so paid.

A bill was introduced to day by the Provincia Secretary relating to accounting and currency this bill provides for the introduction of the decimal currency system to be used in all the public departments after the end of the present fiscal year, 31st of October next. The half peuny to be equal to one cent, and the penny equal to two cents, shall pass current and be a legal tender to the extent of one shilling or twenty cents, and the British shilling shall be valued at twenty-four cents and one third of a cent, other British silver consist in proportion, and shall be a legal tender for sums not exceeding ten dollars in any one payment. Being no business before the house it adjourned little after 3 o'clock. Yours,

THE HUNGARIAN.

A telegraphic dispatch from Halifax to th Boston papers states that the Hungarian had 360 passengers according to her clearance, the most of whom were likely in the steerage, which

The body of a small child was found, and a man supposed to be a fireman. A dispatch from New York to the Boston papers is as follows:-Trunk line say that the following passengers were booked for the Hungarian. The first three remained in Cork. Hugh McCaffrey, Richard Madden, Wm. Kerby, John Daley, Martin Donner, Ellen Sheehan, Wm. Vogle, George McDermott, Michael Lucey, John Delaney, S. Richardson, Patrick McCivern.

loss of the steamer says :-an accident to the machinery greatly enfeebled, if it did not render the vessel nearly powerless, so that in the tempestous weather of the passage—of which there was much—she was driven ashoreand met with the fate which all so much lament.,

The next presumption is that a blinding the year £584 188 6d. The amount paid to the proprieto strongly recommended me to t The next presumption is that a blinding snow storm which is known to have prevailed on the coast at or about the time of the wreck, put the commander out of all knowledge as to where he was, and that, if he discovered the factor of the proprietors of the United States fournal, of this city, the year £6,654 18s. 6d. The amount paid to supervisors is larger, amounting in all to £11,854 try your P in killer. I sent and got the article, and was helped immediately, and am now well. This was last Morch. Two Casks contai ing a good assortment of Table ed by the proprietors of this Medicine certifiing to i and Pocket Cutlery, Razons, &c Two cases efficacy in these diseases. Silver Plated WARE, 2 cases HARDWARE, at For sale in St. John by P. R. INCHES, Drurgist, &c., No. 80 Prince Wm Street. SCROFULA, OR KING'S EVIL,

i a constitutional diseas, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation in pervades the whole body, and may burst out in disease on any part of it. may burst out in disease on any part of it.

No organ is free from its attacks, or i there
one which it may not destroy. The scrofulous taint is variously caused by mercurial
disease, low living, disordered or unhealthy
food, impure art, filth, and filthy kabits, the depressing
vices, and, above all by the venereal infection. Whatever
be its origin, it is hereditary in the constitution, descending
"form parents to children unto the third and fourth generation;" I deed, it seems so be the rod fillin who says,
"I will visit the iniquities of the fathers upon their children," Its effects commence by deposition from the blood of cor-

rupt of ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions of sores. This foul corruption, which genders in the blood, depresses the energies of rife, so that scrofulous constitutions not only suffer from scrofulous complaints, but 2 Ley have far less power to withstand the attacks of other diseases; consequently, vast u inhers perish by disorders which a though not scrofulous in their nature, are still rendered fatal by this taint in the system.

Mostof the consumation which is considered the luman tamily Mostof the consumption which decimates the human tamily has its erigin directly in this sero alous contamination, and many destructive diseases of the liver, kidneys brain, and indeed of all the organs, arise from or are aggravated by the

One qua ter of all our people are scrosulous; their persons are invaded by this surking offection, and their health is underminded by it. To clean e it from the system we must renovate the blood by an all renative medicine, and invigorate it by healthy food and exercise. Euch a medicine

AYER'S CUMPOUND FXTRACT OF SAR-SAPARILLA.

the most effectual remedy which the medical skill of our times can d-vise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which are the superior of the system. ed for the cure o not only scroft-la, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustales, Blotches, Blanes and Boils, 'Lumors, Tetter and Salt Kheum, Scald tlend, Kingwern, Kheumatism, Syphilitic a diseases, Diopsy, Dyspepsia, Deblity, and indeed, all Complaints arising from vitated or Impure Blood. The popular belief in 'mpanty of the blood' is founded in truth, fo scrofula is a degeneration of the blood. The Particular purpose and virtue of this Sarsaparola is to purify and regenerate this vital fluid, with ont which sound health is impossible in contaminate disonstitutions. health is impossible in contaminate d constitutions.

AYER'S CATHARTIC PILLS. For all the Purposes of a Family Physic, are so composed that disease within the range of their ac

tion can rarely withstand or evide them Their penetrating properties search, and clease, and invigorate every portion of the human organism, correcting its discrete action and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remery at once so simple and inviting.

Not only do the cure they very day complaints of every body, but also many formidable and daugerous diseases. The Agent bolow named as pleased to furnish gratts my American Almanac, containing certificates of their cures and directions for their use in the following complaints:—Costiveness, itearthurn, endache arising from disordered Stomach, Nausea, Indigestion, I'm no and Morbid maction of the bowels, Flatulency, Loss of ppetite, Jaundice, and other kindrest complaints, arising from a low state of the body or obstruction of its functions.

AYERS' CHER Y PECTORAL.

For the rapid cure of Coughs Colds, luftuenza, Hoarsene-s, Croup, Bronchitis, Incipient Consempt on, and for the relief of Consumptive Patients in advanced stages of the So wide is the field of its usefulness and so unmerous are the cases of its cures, that almost every section of country abounds in persous publicly known, who have been res-tored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiorit over every other med cine of its kind is too aparant to escape servition, and whe eats vir ues are kn wa, the public no longer hestate what aut-doteto can loy forth distressing and dangerous affections of the pulmonary organs that are incident to our climate. White many reference reacides thrust upon the community has falled and been distanced, this has gained friends y every trial conferred benefits on the afflicted they can never lorget, and produced cures too numerous and too remarkable to be forgotten. Prepared by Dr. J. C. Ayer & Co., Lowell Mass. All our remedids are for s le by J. M. walker and G. S. Reed, at Wholesale and at Recal by all Druggists in City
