This

We are beginning to count the cost of the Prince's visit, now that he is gone, and the bills are coming in. Cobourg is many hundred dollars in debt, and the query is, What is to be done? Repudiation would be the easiest way Late advices from the west coast of Africa say to throw off the debt, but if this is not contemplated, what then? How is the money to be raised ? Not by taxation, surely ; and as for subscription, who wants to pay for decayed branches and extirguished lamps? And as Cobourb is, so probably are other corporations. In Montreal the Council refuses to pay for the Recorder's Robes. Admiration is one thing, and payment another. A fair sample all this, of the satisfaction to be drawn from worldly preparations. Like the arches and Chinese lamps which gave such beauty to the scene, they are scarcely up till they are down, lighted till they are extinguished.

A shock of an earthquake was felt on the morning of last Wednesday from Bellevi le to Saint Thomas C. E., and in other directions also. The superintendent of the G. 'T. R., reports the moving of furniture and the overthrow of stoves, at Richmond and Sherbrooke. Less than an earthquake is needed to produce these effects. It is well there is nothing worse to report. May we be ready for an event in which the heavens sha'l pass away with a great noise, and the elements shall melt with fervent heat. Then shall we not fear though the earth be removed. A. f.
