and interecurse, the whole incongruons mass humanity is being harmonized. Another sign is found-

IN THE ACTIVE BIBLE OPERATIONS OF CHRIS-TENDOM .- Two large influential and permanent societies represent the Protestant world in this department of benevolence : the "British and Foreign Bible Society," of England, and the " American Bible Socity," of the United States

Under the direction and supervision of these societies, the work of publishing and circulating a vernacular Bible for all the nations of the earth, is rapidly progressing.

And with their increasing facilities from year to year, we may hope much from these agencies in the spread of the gospel, and the speedy conversion of the world.

Here our denominational religion unites its energies and with its congregated forces lays hold upon this mighty lever, for the total downfalse religion.

And among the rapidly rotating wheels of God's scheme of mercy toward mankind, this may be ranked as one of the most importance.

The last sign we notice is-

THE SPREAD OF THE ENGLISH LANGUAGE .-We quote here from a late writer : "The spread of the English language is a remarkable fact in the providential dealings of the Most High with mankind. Its study is increasing all over Europe. It is the mother tongue of the United States as well as of the British Isles, and prevails over the whole of the vast colonies of North America appended to the British crown. It is the language of many of the West Indian Islands, and is heard more or less in the centres of commercial activity in South America. It is the tongue of the infant empires of Australia, Van Dieman's Land and New Zealand, and appears destined to over-spread the whole Polynesian Island groups. From the Cape it is moving upward to the interior of Africa ; and into whatever part Dr. Livingstone comes from the West, he will bring with him not only the merchandise, but the speech of his country. Along the Egyptian highway it is becoming a famili r sound. Throughout all India from Cape Comorin to the Himalayas, it is being acquired by the most active and influential of the native population ; and in five of the crowded ports of China it is one of the dialects of every-day life." Thus is God putting it in the power of those that are to give the Bible to the world to give their language also .-- J. W Caldwell in the N. Y. Christian Advocate.

tion of a dying youth ; and it was of a mother it was spoken ! "Don't mention her," was, his imploring request of any who, calling on him and commiser sting his helpless condition, would ask him why he did not send for his mother to nurse him. " Don't mention her! She has never been a mother to me. She does not deserve the name. Don't mention her."

Here was an agonising picture. A young man struck down by disease, far from home, and depending upon strangers to do any little act of service for him which he required ; and yet when her name which should have sounded sweeter than that of every other name, was mentioned, his earnest entreaty was, "Don't mention her." Fathers and mothers, see that you treat your children so kindly and train them so well, and, above all, set them an example so beautiful and Christ-like, that, they will always delight to think of you, and hear others speak of you with the hi hest pleasure, and not with the bitterest sorrow or acutest pain.

#### THE UNBLESSED MEAL.

. Thirty years sgo a little boy, the son of pious parents, was invited to spend a few days at the house of a friendly family. When dinner came on the table, Philip, though very hungry after his journey, could not be persuaded to touch a morsel of food. Again and again did they urge him to eat, and as often did he look wistfully at the contents of the table, but resolutely declined. At length the lady kindly inquired if there was any reason why he did not eat his dinner. Bursting into tears, and sobbing so that he could scarcely speak, he exclaimed, "You haven't blessed it !" That family ever aftewards asked the blessing of God on their food, and that little boy is now a missionary in Jamaica.

#### A GOOD EXAMPLE.

The late Rev. John Angell James, at a recent Sunday afternoon service for the working classes held at the Corn Exchange, Birmingham, said, before he began his address, holding up a glass of cold water in his hand, 'My friends, this is the only liquor I drink though I am an old man I find that I can do very well with it. Oh.' said he, 'I wish I could persuade you to leave off the use of that which leads to so much want and misery.'

#### A PORTION FOR GOD.

Many Christians may learn at least one lesson from the heathen. The Hindoos, when gathering in their harvest, before it is removed from the threshing floor, take out a liberal portion for their god. However poor they may be, however much in debt, they take out, first of all, their idol's share They are systematic in this. How many Christians there are who give God his share last !-How many there are who never give God a share

### THE TWO SCENES.

" There are two scenes which haunt me," said a devoted Christian recently. " I was called in haste to see a man who was dying. He was rolling on his bed ; there was horror in every line of his face. AUSTRIA It is confirmed that Austria refuses to accede to principal propositions to England for settlement of Italian question, but formal communica-

tions on the subject not yet received by England and France. Paris correspondent of the London Herald

asserts that or lers have been sent to Marshall Vaillant to occupy Tuscany with portion of French troops, and transfer his head quarters from Milan to Florence.

Prussia, in accepting England's propositions on Italian question, makes important reservation that she could not approve of any combination which might be in opposition to principle of legitimacy upon which Prussian Monarchy is founded.

Reported that Russia will make similar reservation.

INDIA, CHINA AND JAPAN.

Calcutta and China mails reached Molta 7th, due in England 13th. India news unimportant. Chinese were strongly fortifying Pel.in and entrance to Peiho. 100,000 Tartar troops were centered near the Peino. British were energetically preparing for campaign.

Trade with Japan was stopped by excessive demand of Europeans for Japanese gold in exchange for dollars, and by insults offered to Japanese. British Consul had issued notification blaming conduct of Europeans.
