The English Correspondent to N. Y. Independent writing under recent date says ;-It is certain that the Pope and the Ex-Duke of Modena are using great efforts to enlist Germans and Austrians, and that the Neapolitan Governmen is enforcing a terrible conscription, in order to raise the army to 100,000 men. The Nazione of Florence also states that the King and Camerilla, at Naples, have finally concluded to hold to the brute force and repressive policy. A letter from Rome states that the Sardinian Government has declared to the Pope, that it would consider the continued enlistment of Germans for the Papal army as a violation of the non-intervention policy, and send Sardinian troops into the Lega-

The Monitore de Bologna has published some official documents revealing and putting beyond disproof the diabolical wickedness of the Papal Government. For eqample, there is a report to the Papal delegate at Torli, signed by the Mayor, May 12, 1859, in which horriblo and unprovoked excesses of Swiss saldiers at Cesena are described. Next. there is a dispatch to the Governor of (27,000 citizens were guilty of that crime.) Faenza, instructing him to have children impri soned and flogged for insulting Austrian soldiers; lastly, there is a suggestion from the Court of Rome to the priesthood of Ferrara to have some Austrians murdered, in orde- to furnish a pretext for Austrian intervention. Copies of the authentieated documents are before me.

thinks it probable the Congress will never meet. The Daily News says, "Let France and England solemnly agree to forbid all foreign interference on the part of others as unconditionally as they repudiaied it on their own." Italy wants no other help, the rest she will do for herself.

SARDINIA .- The editor of L' Eco d'Italia of this city has letters from Genoa, dated Dec. 25th, stating that the Sardinian Government has ordered the frigate Euridice, now at Spezzia, to proceed within twenty days to the Celestial mpire, to represent there tha interests of Italy.

A pleasing incident is mentioned in connection with the recent visit of Prince Arthur of England-Queen Victoria's second son, who is now a midshipman in the Mediterranean fleet-to Athens. About the time that he was to arrive there a horse race was appointed for Monday, but in order that it might be honored with his presence, was postponed to the following Sunday. The Prince arrived in time; but promptly replied to the Committee's invitation, that he could not attend such an exhibition on the Lord's day. The race was accordingly again postponed to the following Tuesday. On the Sabbath, the Prince took his place among the little company of worshippers in the English Church at Athens, where our countryman, Rev. Dr. Hill, conducts the only Protestant service in the English language in the kingdom of Greece. In this noble example the Prince showed that he had not forgotten the instructious of his christian mother .- American

THE MORTARA BOY.

A letter from Modena says that in consequence of a demand made by the family of the boy Mortara, who had given proof that the kidnapping of the child was ordered by the Reverend Father and Ingisitor Zilette, the latter had been arrested. and political proceedings had been instituted.

If the revolutions now in progress in the Italian States should be guided to such a result as to establish something like constitutional government in Italy, we may hope to see the crimes that Popery perpetrates punished, and hereafter prevented. It is a burning shame that in the middle of the nineteenth century an imbecile old man should be permitted to enact such outrages against heaven and earth, as the Mortara affair involves. We are looking to see the issue of the great events of the past year, think-ing that the congress of Paris will give them shape and performance. But above all the complications of international politics, there stand out a fact like this, that Popery claims the right to take possession of any child that has been; and fertility of this excellent Province. baptized by one of its priests! It has given an example of its principle and its power in the seizure of this Mortara boy, whom it holds in its withered arms, with the grasp of death, while its throne is trembling. The spectacle is wonderful. It proves the inherent vitality of Romanism, It must be shorn of its secular power, and if the people are not dragooned into submission by foreign legions, we have strong hopes that the

day of their redemption is drawing nigh. When Rome is made to drink of the cup that she has put to the lips others for a thousand years, she will know what it is to taste of the wine of the wrath of God, -N. Y. Observer.

The Monitore di Rolona has lately disclosed some documents found in the archives of the Papal Government, which for their disgraceful put beyond question. Among the pieces published are the papers of a Judical Committee to judge and sentence the people without hearing them, even without making known to him the cause of their condemnation. Their victims some way disappeared, were thrown into prisons or carred off into exile, nobody knew wherfore. Not only acts, but thoughts, tendencies, supposed intentions, were sufficient grounds for the sentences of that infamous tribunal. Here are some in all parts of the Province. One of the humaniterian movements of the times lithough little known as such, can hardly be over estimated in its importance upon the well being of our widely scattered communities The population of the American States is in many sections so sparse, that skillful Physicians are hardly available to them. Vast numbers of our people, are obliged to employ in sickness, such medical relief as the can hear of from each other or indeed any they can get from any quarter. Hence arises the great consumption of Patent Medidines among us, greater by far than in any of the old countries, where skilful physicians are accessible to all classes. Unprincipled men have long availed themselves of this necessity, to palm off their worth-less nostrums, until the word has become synonimous with imposition and cheat. One of our leading Chemists in the East, DR. AYER, is pursuing a course which defeats this iniquity. He brings not only his own but the best skill of our times to bear, for the prouction of the best remedies which can be made. These are supplied to the world, in a convenien, form at low prices, and the people will no more buy poor medicines instead of good, at the same c st, than they will bran instead of flour. The inevitable consequence of this is, that the vile compounds that flood our country are discarded for those which honestly accomplish the end in view, -which cure. Do we over estimate its importance, in believing that this prospect of supplanting the by word medicines, with those of actual worth and virtue, is taught with immense consequence for good, to the masses of our people.—Gaz- John.

Sir; In compliance with the request of your agent, I have the pleasure to state that having used your Cathartic Fills in my family, I have found them superior in their remidical effects to any other purgstive we have ever employed. It is within my knowledge that your Fills and Pactorial are recommended by some of the the dis inguished surgeons and physicians of the metropolis, (London.)

From the King of Siam.

Kingdom of Siam September 24, 1855.

Dr. J. C. Ayer, Lowell Mass, U.S. A. Sir I have the pleasure to inform you that your present of Pectoral and Pills for his Royal Majesty Sombel Phra Phramendy Maha Mongkut, the King of Siam has been presented by me to his Majesty in person at his paiace. Nothing could have gratified his Majesty more than such attention from my distant countrymen. The enclosed letter of acdnowledgment he has wriften you with his own hand in such broken English as he can write or speak. He has also consulted me has written you with his own hand in such broken English as he can write or speak. He has also consulted me to know in what more substantial manner he can return your compliment which he designs to do. His own letter informs you of the cures they have affected among his people—cures that are not lightly regarded here.

The therev Pectoral and Pilis you sent us at the station have proved invaluable not only for our own use, but as a most acceptable means of charity to the natives in affiiction around us. It is my privilege to tender you with tion around us, It is my privilege to tender you with my owe the thanks of my coadjutors here and remain,

Sincerly yours,
