great fire in London is among the most interestlong legal argument in a case relating to the and attended a Cabinet Council. While there,

it is said he was " cheerful and full of mental vigour." In the evening he entertained a party of eighteen friends at dinner at his residence, Stratheden House, Piccadilly, and was "full of lively converse, and showed no symptoms of illness." Between twelve and one o'clock he bade

with his head thrown back, and blood oozing from his mouth. Medical aid was, of course, immediately in attendance, but life had evident. ly been extinct at least two hours. It is believed that the cause of death was the rupture of one of the great arteries in the region of the heart-

GREAT FIRE IN LONDON.

On the afternoon and night of Saturday the 22nd of June a terriffic conflagration occured in to unite immediately after his death, to dispense the City of London. It is believed that no with the formalities required by the Liturgy, since the great fire of London in 1666. Three acres of ground were burnt and the estimated value of the property destroyed TWO MILLIONS be to yield to the inevitable order of things and Un Friday morning, after a lingering illness POUNDS STERLING. Many lives were lost, among compromise. which Mr. Braidwood the chief of the fire department, whose death called forth great public grief. From an account of the conflagration by an eye-witness we extract ;—Although the sun had not set, and the evening was bright and some time. The news from our Indian posses-At Richmond, near Melbourne, whi clear, the whole of the public buildings in the sions is of a most cheering character. The re- At Richmond, near Melbourne, while on sich lurid glare of the conflagration, while the Pool burning mass. At ten o'clock the whole south bank of the river from London bridge to below the Custom-house seemed one stupendous pile of fire, glowing at its core with an intensity that wants of India-are to be relieved; indeed, the youngest son of Mr. Duncan Robertson, aged 1 made it painful to look at, and casting a ruddy glare above on everything far and near. All the by rail or road from the suburbs were as useless proof to us, when wisdom is given to a nation's Antrim, Ireland.

as children's squirts against these acres of burning ruins. The efforts of the most powerful engines could only sprinkle at rare intervals the outskirts of the buildings, for the heat was so the encouragement held out for cultivating cotgreat that none could approach near and live. ton on a large scale fi'ls our minds with conso-The only chance, therefore, of a cessation of the calamity rested entirely on the night remaining boastings of the Cotton Lords of Southern still, and allowing the ruins to burn out of them-selves. By the mercy of Providence, happily no land, but, by the Divine blessing, avert the PAINTS, OILS, WINDOW GLASS, wind arose. Had it been otherwise, the blasts of heated air coming through such a mass of fire nation's protest against slavery everywhere, will would have lit everything within half-a-mile of we trust, be our record on High, and draw down it. At one time such an extension of the catas- | blessings from God Almighty -our only shield trophe seemed awfully probable. There was scarcely a breath of wind, but what little there was came from the river, gently turning the blinding mass of smoke and flame across Tooleystreet to the London-bridge Railway Station. On it seemed to come, nearer and nearer, with a told, has been visited this year by an interestcrackling roar that was terrible, with its millions of burning flakes filling the air as if the very atmosphere were on fire, and the great ranks of brought back with him " a brick, duly labelled, red flame flapping about their keen thin points under the hand and seal of two creditabe witwith a dull noise, and leaping up high over the houses with bounds and spurts like fountains of fire. 'The heat in the station became very great Institution." The nearest part of the Great and the ground-glass windows at the side could | Wall is about fifty miles from Pekin. scarcely be touched. Immediately between the station and the fire was a large timber-yard, with some houses almost jutting into it. If these houses caught the timber-yard and station were certain to follow, and the flames, thus spreading in two directions, might travel over all Southwark. Upon these houses, therefore. the firemen concentrated all their efforts, and from the tops of eminences and piles of timber popred streams of water on the walls and mofs. Gradually however, in spite of all checks, the wall began to team, as if the houses were boiling, and little of the Great Wall, reflected upon the stupendous sale by june 22 J. D. UFDERHILL.

of age, and of strong constitution.

THE GREAT WALL OF CHINA.

The wonderful and mysterious " Great Wall of China," which very few Europeans have ever seen, but of which miny marvellous stories are ing Englishman, Mr. E. B. Fonblanqe, a gentleman famous for his explorations in the Eestern World. In proof of his having been there, he has nesses, as having been actually taken off the top of the wall, and which brick is now on its way to England to be deposited in the United Service

wretched description, and for a good part of the listenee the transland for a good part of the listenee the transland for a good part of the listenee Figs. For sale low by J. S. TURNER, 22 Water-st. distance the traveller and his Chinese companions were obliged to proceed on Tartar ponies; for he says: -- "Nothing less sure-footed than these shaggy, hardy little beasts, could have carried us through these rugged mountain paths, which we would have done on foot but that one mile's we would have done on foot but that one mile's march over the sharp rock which forms the pavement would have left us shoeless." "At daybreak on the third morning," says Mr. Fon-blanque, "we climbed the highest peak of the
