"PATIENCE."

A gentle angel wendeth Throughout this world of woe, Whom God in mercy sendeth To comfort us below. Her looks a peace abiding And holy love proclaim ; O follow then her guiding, Sweet Patience is her name!

She leads us through this tearful And sorrow-stricken land, And speaks, resigned and cheerful, Of better days at hand : And when thou art desparing, She bids thee clear thy brow, Herself thy burden sharing, More hopeful far than thou.

She sobers into sadness Thy grief's excessive smart, And steeps in peace the madness And tumult of the heart. The darkest hour she maketh As bright as sun at noon, And heals each wound that acheth. Full surely, if not soon.

Thy falling tears she chides not, But pours in healing balm; Thy longing she derides not, But makes devout and calm : And when in stormy seasons Thou askest, murmuring, Why? She giveth thee no reasons, But smiling, points on high.

To every doubt and question She cares not to reply; "Bear on," is her suggestion, "Thy resting-place is nigh." Thus by thy side she walketh, A true and constant friend; Not overmuch she talketh, But thinks, "O happy end !"

Curiosity Punished, and Merit Re-

ABOUT twenty years ago there lived a singular gentleman in Elm Tree Hall, the old Hall among the Elm Trees,. He was about threescore years of age, very rich, and somewhat odd in many of his habits, but for generosity and benevolence there were few to equal him.

His dress was as old fashioned as his habits. He wore a cocked hat, richly embroided, a waistcoat reaching nearly to his knees, and his shoes came up almost to his ankles. No poor cottager stood in need of comforts which he was not ready to supply, no sick man, woman or child lan guished for want of his assistance, and not even a wandering beggar, unless a known imposter, went emp'y handed from the well-known Elm Tree Hall.

Now it happened that the old gentleman wanted a boy to wait upon him at table, and to attend to him in different ways, for he was very fond of young people. But much as he liked the society something eurious, could not be easy with ut its there being more frequent than usual awakenof the young, he had a great aversion to that unscrewing the top, but no sooner did he do this, ed suspicion in the mind of his already distrustful curiosity in which many young people are apt to than out bounced an artificial snake, full a yard wife, who at length secreted herself where she include. And first Joe Turner was sent into the room, and told that he would have to wait a little ; so Joe sat down on a chair near the door. For some time he was very quiet, and looked about him, but there seem d to be so many curious things in the room that, at last, he got up to peep at

AYER'S CATHARTIC PILLS. Are you sick, feeble, and complaining? Are you out o order, with your system deranged, and your feeling uncomfortable? These symptoms are often the preside a serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy Take Ayer's Pills, and cleanse out the disordered humors—purity the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and disease. White in this condition, oppressed by the derange ments, take Ayer's Pills, and see how directly they restore the natural actions of the system, and with it the buoyant feeling of lealth again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure. Statements from leading physicians to some of the principal cities, and from other well known public persons.

from Dr. Edward Boyd, Baltimore.

Dear Bro. Ayer. I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence ch'an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

Dr. J. C. Aver. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stonic they cleanse at once. Yours with great respect,

Bilious Disorders—Liver Complaints.

From Dr. Theadore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects up the Liver very marked indeed. They have in my pract expressed more effectual for the cure of bilious complains that we have at length a purgative which is worthy the confidence of the profession and the people.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Inneed I have seldom found a ca-e of bilious disecase so obstinate that it did not readily yield to them.

Your Pills have had a long trial in mylpractice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhæa. Their sugar-coating makes them

Dear Sir: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

Too much cannot be said of your Pills for the cure of costiveness. If others of our traternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.
I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the Latural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no

Honored Sir. I should be ungrateful for the relief you skill has brought me if I d d not report my case to you. A cold settled in my limbs and brought on excriciating neuralgic pains, which ended in chronic rheumatism. Notwith-tanding I had the best of physicians, the disease grew worse and worse until by he advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pils-Their effects were slow, but suic.
