ATTACK ON ACQUIA CREEK BATTERY.

On F.iday last an attack was made upon the battery at Acquia Creek-an offset of the Potomac about 55 miles from Washington. It is an important point, as it commands the railroad to Richmond, and would afford great facilities in an advance upon that city. The cannonading was kept up by the Freeborn and the Anacosta for two houri, when they retired. On Saturday it was renewed and continued five hours. The lower or beach battery, which had been essentially damaged the day previous, had, in the meantime, been repaired by the Confederates. For the first two hours the fire from the shore batteries was very brisk, but was returned with more expedition by the Pawnee. During the engagement she fired 160 shells, one on the City.
