MALIGNANT TREASON .- One of the worst treasonable papers in New York is the Freeman's Journal, a Romanist weekly of the most Jsuittcal morals, with no loyalty except to the Papal despotism. It has all along said that the Romish church alone could save the country, and now, in allate issue, attempts to incite the Catholics to treason by charging the war upon Protestantism, hoping thus to gain something for its church, and

fierce religious strife. Here is what it says : have reached and passed."

PEACE .- The N. Y. Evangelist says :-

when there is no peace.' Peace now is national destruction; it is the overthrow of the Government, it is the ruin of the country, and that by its own act. Was there ever recorded in history such stupendous folly, as that a nation perished by its own hand! No; we may be doomed to perish as a judgment for our sins, but at least we will not be guilty of the crime of national suicide.

And not only would such a course involve the deepest national humiliation, but it would not even secure the object. We might submit to a disgraceful peace, but it could last only a few months, because the cause for quarrel would still exist, and would eventually break out in fresh troubles. No; the United States are and must be ONE NATION-not merely because of the Federal Union, but from geographical necessity. The Almighty marked the bounds of our habitation, when he cast up the mountain ranges that wall in the great valley of the West, and caused the Mississippi to roll its mighty flood from the Northern lakes to the Gulf of Mexico."

SECESSION IN MAINE. - The Lewiston Falls (Me.) Journal says, that a company of secession sympathizers has been organized and armed in Freedom. It is well understood that their object is to resist taxation and a draft to support the a muster. We understand that a similar company has been formed in Buckfield under the lead of Virg. Parcis.

EROM THE SOUTH. The rebel leaders are now talking of capturing not only Washington but Philadelphia. Jeff. Davis, in a recent speech, said that he would march his army through to Massachusetts, " where the causes which led to the war originated;" and the same remark was previously made by Mr. Stephens. They entertain no doubt of success, and appear to be perfectly reckless of their lives, many of them knowing that the failure of their projects may lead to their swinging in midair.

DOMESTIC.

A NEW GOVERNOR .- The Hon. Arthur Hamilton Gordon, youngest son of the late Earl of Aberdeen, has been appointed Governor of New Brunswick, in succession to the Hon. J. H. T. Manners-Sutton, who is expected to leave the Province next month. The new Governor is but 32 years of age. The administration of the the Assembly on the subject of the Prohibitory Liquor Law, is the only act of importance which has effected his general popularity during his period of office.

THE PROVINCIAL EXHIBITION .- Great preparations are being made in many parts of the coun. try for the Provincial Exhibition to be held at Sussex Vale, early in October. A large and influential meeting was held in St. John on the 4th inst., at which His Excellency presided -Speeches were made and several resolutions passed by the Meeting. It is intended that selections shall be made from the Industrial interests exhibited at Sussex Vale, to be forwarded to the Great Exhibition to be held in London in 1862.

HORRIBLE AFFAIR -- The Exeter (N. H.) News "It is utter madness to cry peace, peace, Letter says, that on Sunday morning last, the house occupied by John Marsh, on the Epping road, about two miles from the village, was Miles, of Amherst, N.
