THE RELIGIOUS INTELLIGENCER

PROVINCIAL PARLIAMENT.

FREDERICTON, Feb. 21st, 1861.

The business before the House, up to this morning, has not been of very general interest. The following is the most important to-day:

A Bill to prevent the carrying of deadly weapons about the person, has been under discussion. It was warmly supported by Mr. Cudlip and others, and opposed by Mr. End.

A Bill was introduced by Mr. Connell to authorize the Government to grant licenses, on proper applications, to Ministers, being aliens, to solemnize marriages, on their taking the Oath of Allegiance. A short discussion was elicited by this Bill, after which it passed without amendment.

Mr. McPhelin introduced a Bill to change the condition of the Legislative Council, by making it elective.

Messrs. Connell and Tibbitts moved the resolutions for address for information relative to the Railway Management and Public Works department. Some conversation followed between the Provincial Secretary and Mr. Connell, the former signifying that it was not the intention of the Government to oppose the passage of the resolution; that when the Government went into the financial statement of the affairs of the Province, which it intended to do on Tuesday next, the necessary information would be given. Mr. C. thought that the information which would be furnished in the financial statement would not be as complete as desirable. He wanted the fullest information laid before the country relative to the construction of the Railway. Reference was made to the resignation of Mr. C. as a member of the Executive, who declared himself entitled to be his own judge in relation to this matter.

A large number of addresses upon various subjects have been laid before the House. The Hon. Mr. Tilley moved that the House go into Supply on Wednesday.

Mr. McLeod endeavored to get a petition before the House from Messrs. Titus and others praying that the Act to empower the mill owners on Hammond River, to erect and keep in certain booms or said river, may be renewed and continued in force. In consequence of the matter being entirely local, the Speaker decided that it came under the £7 10s. rule.

Mr. End drew the attention of the Government to matters relating to free ports at the North, and gave notice that he would move a resolution relative to the matter. Mr. Tilley said the matter was now under the consideration of the Government.

Mr. Gray moved for leave to bring in a Bill to facilitate the extension of the E. & N. A. Railway, and to incorporate sundry persons under the name of the European and North American Railway Extension Company. Some considerable discussion took place on the right of receiving this Bill, which resulted in its withdrawal. It will, however, be brought forward again in another form. It appears that a number of capitalists propose to build a line of Railway to connect the present one with the American frontier; provided the Government will take a certain amount of stock. A fierce debate took place on a Bill introduced by Mr. Mitchell, to afford greater facilities for cutting and carrying away lumber from off Crown Lands. The Surveyor General presented a petition for four hundred inhabitants of the County of Charlotte, praying that the E. & N. A. Railway, might be extended from Carleton, St. John, to St. Stephens.

February 22d, 1861.

But little business was done in the House to-day. Mr. Tapley's Bill, to take a piece of the County of Queens, and add it to the County of Sunbury, was violently resisted and protested against by Messrs. Ferris and Gilbert, which resulted in its postponement for three months.

Mr. Scovell gave notice of a resolution for an address for the names of all persons fined by the Railway Police Magistrate, since his appointment, and a return of the amounts collected by him in that manner.

Mr. Gray's Bill to establish a Criminal Court in St. John, was taken up again in Committee, of the whole House, and occupied the remainder of the day. This Bill provides that Magistrates sit as Grand Jurors. This section was opposed by Messrs. Smith, Fisher, and the Speaker, and was supported by the mover, Mr. Cudlip, and others. The Bill was somewhat modified, and then passed. Some other business of no general importance, occupied the attention of the House during other portions of the day.

FREDERICTON, Feb. 23d.

No business whatever of general importance was transacted in the House to-day. Mr. Mitchell's Bill to afford greater facilities for obtaining license to cut and carry away timber from Crown Lands, was again committed, and elicited considerable discussion. Several speeches were made, and some sharp shooting between Messrs. Tilley and Connell occurred during the debate. The Attorney General drew the attention of the House to a statement in the "Head Quarters," newspaper, signed by John Richards, reflecting on Mr. Fisher, relative to the manner in which the money had been expended appropriated for the reception of the Prince of Wales in Fredericton. It appears that the statement signed by Mr. R., was without his consent, and the whole thing was likely intended to damage Mr. F. in the next election. Mr. Fisher explained the whole thing, and produced accounts, &c., proving the statements made by John Wilkinson, Esq., to be utterly untrue.

FREDERICTON, Feb. 27.

A Bill to amend Act incorporating York and Carleton Mining Company, agreed to also, Bill to amend Act incorporating Carleton Agricultural Society; also, Bill incorporating Newcastle Gas Company; also, Bill relating to St. Stephen Burying Ground, to allow poor persons to be buried there; also, a Bill to enable Governor and Trustees of Madras School to raise money by Mortgage; also, Bill to amend law relating to Coroners' Inquests, making Seven a legal jury.

McPhelin introduced a Bill to amend the law relating to Sick and Disabled Seamen. Supply given on next Tuesday. Power to swear, &c., witnesses extended to Committee on D. P. Meyers' claim, and to Committee on Crown Land matters. McLeod gave notice for an address for papers &c., relating to Hammond River Bridge.

Scovell gave notice of motion for an address for papers relating to the claim of the Rev. M. Smith, for Land Damages. Adjourned at 6 o'clock.

FREDERICTON CORRESPONDENCE.

FREDERICTON, Feb. 27th, 1861.

Sir,—Yesterday the Provincial Secretary laid before the House the most important documents of the Session, a report of the Finances of New Brunswick for the fiscal year, ending Oct. 1861, together with an estimate of Revenue and Expenditure for the fiscal year, ending 31st Oct. 1861.

He said he was happy to inform the House that the finances of the country were in a healthy state, and reviewed their condition since he had been a member of the Government, and stated that although the Railroad had overrun the estimate, yet the actual cost of building and equipment of the road was less than any other road of a like character in America, and in referring to the paying capabilities of the road, said the expenses in connection with running of the trains, including salaries of officers and men, were £18,650, while the receipts arising therefrom were £29,055, leaving a balance of £10,405; and in a most able and clear estimate of the Revenue, based upon the business of the past year, set down the earnings of the Road next year at £169,500, and the expenditure at £98,000, leaving for net earnings £65,500. He estimated that £18,000 only would be required to be taken from the ordinary Revenue to pay interest on Railway debentures for 1861, and explained how the debt could be paid off, which your correspondent could not exactly understand, and further stated that after paying the whole of the appropriations of last year, including the expenses connected with the visit of the Prince of Wales, a surplus of £6,156 remained over and above. The estimate of expenditure for the present year is £22,000 for great roads, £16,000 for bye roads, £30,000 for Educational purposes, £2000 for Agricultural Societies, £750 for the Provincial Exhibition to be held in Sussex Vale next October; £350 for Wolf and Bear bounties; £250 for old soldiers; £300 for the Indians; and £2000 for the encouragement of Immigration, as it was intended to remove all duties on immigrant; and so amend the law, that the sick, the lame and the lunatic may be prevented from landing upon our shores, and that £13,000 more had been deposited in the Savings Bank than had been drawn out during the past year.

The Financial Report concludes by saying on a general review of our finances, I am justified for stating that there is every ground for confidence in the resources of the Province; and that the Legislature will be enabled at the next session without imposing any new taxes, to provide the usual appropriations for the ordinary expenses of the Government, and the interest on all liabilities, and for Education, Agriculture, Roads and Bridges, and other public works, as well as for such extraordinary services as are entitled to immediate consideration. Much talk has taken place in the House during the week upon various subjects, one not so much noted for its importance as the source from which it emanated, namely two members of the Government, Messrs. Brown and Fisher. Upon the former offering a petition to the House praying that a Rail Road might be built from St. John to the American Boundary by private enterprise or otherwise, the Speaker decided he could not receive the petition as the word "otherwise" endorsed upon the petition would certainly effect the public domain and thereby interfere with the initiation which belonged alone to the Government.

Mr. Brown said he felt particularly anxious about the matter as he was particularly interested in the petition, because it contained the names of 400 of his constituents, by the vice of whom and the voice of whose fathers he had held a seat for so many years in the House, and regretted that the giving up of the initiative of money grants had put it out of the power of individual members to introduce petitions for local objects, and contended that it was not inconsistent with the British practice for individual members to introduce petitions of vast magnitude, and complained if it went before the executive and was rejected, his oath of office would exclude him from telling his constituents who was opposed to it, or who approved of it. Mr. McPhelin said he had a scheme for building "The Road," but the Government should not have the benefit of it.

Attorney General went at length into the British practice of introducing petitions—and said if he was not well acquainted with human nature, he should certainly be astonished to hear honorable members, who a little time ago were sounding the alarm of debt and bankruptcy from the enormous debt that was then hanging over the Province, now come forward and urge upon the Government an expenditure that would involve millions. He eulogized the system of initiation now practised by the House, and wished the idea to go to the country that the House was not wavering in its views on this important point.

Wilnot thought it extraordinary that two members of the Government should differ in opinion about such an important measure—it looked like a house being divided against itself. The House during the past week has been extremely industrious in asking information to be given before them. Such as a full account of all aid made for, or on account of the European and North American Railway from the time of the first survey made by John Wilkinson, Esq., to the present time, annually made for, to include all payments made for, or on account of construction, Engineering, Delegation to London, and all expenses in any way connected with the progress and completion of said Railroad—also a detailed account of the expenses incurred by the Executive Government on account of, and connected with the visit of His Royal Highness, the Prince of Wales, specifying in detail for what purpose and to whom paid—also the number of supervisors employed by the Chief Commissioners of the Board of Works, and the number of roads turned by each, the amount expended by days work or private contract by each, the amount of extras paid on each bridge, together with any amount for superintendence, either by days work or commission, since the first day of April 1858 to the present time; also

the amount paid into the Treasury by the Railway Police Magistrate for fines, and from whom collected since his appointment.

Considerable talk was current yesterday both in the House and out of it, in reference to the policy of the Government, in issuing grants of large tracts of land to speculators on the line of Railway and elsewhere, intended for actual settlement, and hints were thrown out by individuals, looking wonderful wise, that some great fraud had been perpetrated by individuals connected with the Crown Land Office, and charging the same to the Government—upon which Mr. Tibbitts moved for the appointment of a select committee to whom should be referred all matters connected with the Crown Land Office, with power to bring before them persons and papers. Messrs Tibbitts, McLeod, Kerr, Wilnot, and McLeellan were appointed to the committee, and have commenced investigation. It is the policy and practice of granting indiscriminately to individuals, whether for settlement or speculation, that will most likely be found at fault, and not a violation of existing regulations.

Mr. Lawrence's Bill to tax unimproved land, if enacted into law will do more than any other measure to cure the existing evil. A Bill has passed in committee to day to reduce the number of Jurors required on Coroners' inquests from 12 to 7. A lengthy debate occurred to day upon the question of initiation, the subject not being fully defined in the House, notwithstanding all that has been said upon it.

A general meeting of the University Senate is summoned to take place to-morrow in the University Library, difficulties are said to have arisen between the Students and the President, as to who shall have the control. Yours, M. L.

MARRIED.

In St. John, on the 57th inst., by the Rev. John Perry, Mr. Thomas Munro to Miss Catharine McCray, all of Wickham, Q. C. In Hampstead, Q. C., Feb. 21st, by Rev. A. Taylor, Mr. Angus McKay to Miss Anna Bella Vanwart, both of Hampstead.

DIED.

At Joliet, on the 6th Dec., of Dyspepsia, after four days illness, William Haines, aged 8 years and 6 months, eldest son of Rev. John J. Goodell.

At Salmon River, Queen's Co., of Consumption, on the 1st of Feb., Susan Payne Quint, wife of Mr. George Dunn, and four h daughter of the late Wm. Quint, in the 55th year of her age, leaving a disconsolate husband and six children to mourn their loss. The deceased in life enjoyed the teachings and example of a Christian mother, and while lamenting many short comings, yet departed in the firm hope of a glorious resurrection through a blessed Saviour. Morning Star please copy.

Died at Grand Lake Queens County, Parish Cambridge, Daniel Wilson, in the 63 year of his age, leaving a dying testimony that he was going to be with Jesus, which was far better, leaving a sorrowing widow and large family of children, and relations to mourn their loss. But their loss is his gain. O may I triumph so when all my conflict past.

At Fredericton, on the 18th inst., Mr. Joseph C. Scovell, in the 71st year of his age. At his residence, in the County of Restigouche, on the 5th inst., Mr. Oliver Boultonhouse, recently of Sackville.

At Amherst, on Friday morning, 1st, Mr. James L. Carter, in the 70th year of his age.

At Sackville, on Monday, 18th inst., Captain James Purdy, in the 81st year of his age. On the 20th inst., of Influenza, Alice Julia, infant daughter of the Rev. Isaiah Wallace, of Carleton, St. John.

On Wednesday, 20th inst., Mr. Andrew Moor, aged 75 years.

On Wednesday morning 20th inst., Mrs. Penelope Herring, widow of the late Charles Herring, and youngest daughter of the late Ozias Ansley, aged 72 years.

Said Tuesday, 19th, of congestion of the brain, Geo. B. Cushing, only son of Alex. P. and Emily R. Adams, aged 2 years and 10 months.

NOTICES.

A punctual attendance of the Officers and Members is requested; together with all who feel an interest in the cause of Education whether members or otherwise.

JOSEPH L. MULLIN.

Cambridge, Feb. 11th, 1861. Sec. and Treasurer.

THE CHEMISTRY OF MEDICINE.—Among the special delights which have so richly repaid our visit to New England was the inspection, in the laboratory of Dr. J. C. Ayer & Co.'s Laboratory, at Lowell. Although we knew by heart, that it was large, yet we were surprised when we came into view of its real magnitude, and still more by the extent and complication of its truly immense business. The whole massive structure is in fact one vast chemical laboratory, in which the processes of the wonderful art are constantly going on. Medico-chemical science has found that the curative properties of any substance exist in some one or more of its component parts. Thus the remedial effects of opium are due solely to the morphia it contains, although this is but one-eighth part of its weight; the other sixteen parts are gun, extractive and inert or of no medicinal value. Dr. Ayer's system separates the medicinal properties of each substance employed, and we are here shown the processes by which the virtues of each remedial agent are chased through the alchemies until they come out completely pure at last. These concentrated, purified medicinal properties are finally combined together to produce the remedies which have made themselves a reputation for unrivalled efficacy, all over the world. Not only does the Doctor disclaim all secrecy in his art, but he makes every process and every particular, and he maintains this is the only way, by which the people can be supplied with the best possible remedies for the treatment of disease. The formulae of the various remedies are made and published in the medical journals and have been presented to a large part of the medical faculty of the United States and are constantly sent by mail to such physicians apply for them.—Daily Chronicle, San Francisco.

NOTICE.

THE Co-partnership heretofore existing under the firm of Wilson & Turrs, is this day dissolved by mutual consent. The business will be continued by Jacob Wilson, (the same store), who is authorized to receive and pay all claims of said firm.

St. John, Feb. 27, 1861. JACOB WILSON, FRANCIS TURRS.

THE subscriber begs leave to return thanks for the liberal patronage bestowed on the late firm, and would solicit a continuance of the same.

LEATHER OIL AND HIDES.

THE Subscriber has on hand a good stock of Leather which he is prepared to sell at Market Rates. Also, a quantity of Cod Oil. He will endeavor to keep on hand a supply of Oil, to accommodate the Tanner in the city, and will give the market price, at 135 Union Street.
