AYER'S CATHARTIC PILLS. A ryou sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings incomfortable? Dr. Ayer: Your Pills are the paragon of all that is great in medicine. They have cored my little daughter of ul-cerous sores upou her hands and feet that had proved in-rurable for years. Her mother has been tong grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. As a MORGEDEE. From Dr. E. W. Cartwright, New Orleans. Your Pills are the prince of purges. Their excellen qualities surpass any cathartic we possess. They are mild but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

THE WORKHOUSE BOY AND THE D. D. In the year 1802 war broke out between Great Britain and France ; the English press nad severly criticized the actions of the First Napoleon, and had been guilty of the crime, in Bonaparte's estimation, of sheltering some scions of the Bourbon family. These things the First Counsul demanded should be rectified, after his manner, viz, by gagging the first, and driving out the second-to each of which demands England re returned an unflinching No ! Some other dis putes about Malta and Egypt led to the with drawal of the English ambassador from Paris and the consequent declaration of war between the two countries. The warlike ports of th nation offered at that period advantages to the working population, in the shape of high wages to be sought for in vain elsewhere. Among others who came to Plymouth from Cornwall, were two stonemasons, brothers, of the name of Kitto they had been there but a little while, when the fell in love with two sisters named Picken, t whom they were subsequently married. The wife of the younger brother, on the fourth of December, 1804, gave birth to the boy whose strange eventful story he (the lecture:) had to lay before them. The lad was cradled in misery world will not willingly let die. They are as by reason of the intemperance of his father ; the only bright spot in his earlier years being the continued love and attention of his grandmother Picken, who stored his mind with all kinds of stories, and, in reply to his childish queries, told him something of a Saviour's love. At twelve years of age he was taken by his father to work with him ; and while engaged in slating the root of a house in Batter-street, Plymouth, the boy diploma ; and in the following year he was honfell from the top of the ladder into the paved ourably elected a Fellow of the Society of Anticourt below, and was carried home insensible quaries, so that the poor pauper boy of Plymouth he did not wake to consciousness until a fornight after, when it was ascertained that he had be D.D., F.S.A. This continued until he met with the misfortune of treading upon a broken glass bottle, which gave him a fearful gash, and put an end to his muddy explorations His ingenuity was not, however, exhausted ; we next find him an amatner artist, depicting heads of men, trees in flower-pots, with birds of wonderful size and shape sitting upon their branches. The inhabitants of Seven Stars lane, and its vicinity, did not appear very liberal in their support of the fine arts ; and something else had to be tried by the deaf, but determined boy. On passing through the different localities of his native place, he became well aware of the schoolmaster being abroad, in various directions. The notices of apartments, or lodgings to let, were so wretchedly spelt and so miserably written, that our hero imagined a wide field of remunerative but the market did not equal the lad's expecta-
