THE UNIVERSITY .- Want of space obliged us to defer last week a notice of the close of the Easter term of this Institution. At the close of the academical year, the Examiners cannot help congratulating the Professors and students on the spirit and energy which all of them, in their respective spheres, have manifested, and on the very ouraging measure of success which has crowned their labors-and also on the growing popularity and increasing usefulness of our Provincial University: and they cherish a confident expectation that the time will soon come when the opportunities which it offers to our young men for acquiring a liberal education, will be more generally appreciated, and the number who avail themselves of these opportunities very greatly multiplied.

We are quite sure that the President of the University, Dr. Jack, is doing all he can to render the Institution useful and popular, and we hope it will be patronized by the young men of New Brunswick
