THE DAY-LABOURER.

Sow ye beside all waters, Where the dew of heaven may fail; Ye shall reap if ye be not weary, For the Spirit breathes o'er all. Sow; though the thorns may wound thee,

One wore the thorns for thee; And though the cold world scorn thee, Patient and hopeful be. Sow ye beside all waters, With a blessing and a prayer,

Name Him whose hand upholds us, . And sow thou everywhere.

Sow, though the rock repel thee, In its cold and sterile pride; Some cleft there may be riven Where the little seed may hide. Fear not, for some will flourish, And, though the tares abound, Like the willows by the waters Will the scattered grain be found.

Work while the daylight lasteth, Ere the shades of night come on; Ere the Lord of the vineyard cometh, And the labourer's work is done. Work! in the wild waste place, Though none thy love may own, God guides the down of the thistle The wandering wind hath sown.

Will Jesus chide thy weakness, Or call thy labour vain? The word that for him thou bearest Shall return to him again. On! with thine heart in heaven, Thy strength in thy Master's might, Till the wild waste places blossom

In the warmth of a Saviour's light Watch not the clouds above thee; Let the whirlwind round thee sweep; God may the seed-time give thee, But another's hand may reap. Have faith, though ne'er beholding The seed burst from its tomb; Thou knowest not which may perish, Or what be spared to bloom. Room on the narrowest ridges The ripened grain will find, That the Lord of the harvest coming, In the harvest sheaves may bind.

A faint suspicion flashed across the doctor's mind. Could it be? No! he flung the idea from him at once. Honesty was stamped upon every feature of that manly face.

The boy seemed to read, by intuition, his every thought. Again he put himself in the half tragic attitude of his first appeal to the doctor, and exclaimed:

"A thief! No; I'd sooner die than touch what did not beloug to me. Those beans my mother saved to help me buy a Latin grammar with. Do you think I could be untrue to such a mother's teachings?" "No, my lad," said the doctor, firmly grasping his

hand, "and your mother may well be proud of such a son. Henceforth the way to learning shall be no thorny one to you, if friends can help you."

So it proved. The physician and lawyer went hand in band in such works of benevolence; the large heart of the one, and the abundant means of the other went well together. Their kindly interest and good advice cheered on the struggling boy. Books he had in abundance; and when the time came for him to begin his student career, amongst new scenes and faces, their influence found him a place where his native powers could begin to carve

Young MEN AND RIGHT HABITS.—The young man who would live safely and successfully, must seek to form correct habits of life. How many have been ruined by bad habits! Habits soon constitue part of our nature, and will control our whole life either for good or evil. These, when once formed, are not easily changed or forsaken. Youth is the plastic age, in which all enduring habits are formed. Most of drunkards, rowdies, profane persons, lazy loafers, and such like, commenced these habits when they were young men. On the other hand, such as love the church, as love the cultivation of their minds and hearts, as seek to be useful to the community, and as have a desire to rise in personal excellence and in general favor, commenced while they were young

As a stream which does not change its general direction after it leaves the soft meadow land in which it rises, so a man scarcely changes the current of his habits after he leaves the tender and docile period of youth. To a very great extent then do the habits of men shape their destiny. That the way of your lifemay be clear, see to it that you set out with correct | ing lots : habits. Let these be formed in the church, and under the influence of religion

The choice of companions has much to do with the formation of habits, and is a great matter to him who would succeed in life. All experience proves the deep truth contained in the apostolic aphorism: "Evil communications corrupt good manners." We are likely to become like those with whom we associate. We cannot be associates with them, unless we are willing to be led in their ways. If these are evil, we will be led in a way which is evil, by a power which is controlling .- Ger. Ref. Messenger.

Ayer's SARSAPARILLA, THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases. From Emery Edes, a well known merchant of Oxford, Main tities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before Eruptions, Pimples, Blotches, Pustules, Utcers

Sores, and all Diseases of the Skin. From Rev. Robert Stratton, Bristol, England. "I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Sarsaparilla. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure, until we tried your SARSAPARILLA. She has been well for some months.

From Mrs. Jane E. Rice, a well known and much esteemed lady, of Dennisville, Cape May Vo., N. J. "My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her." From Charles P. Gage, Esq., of the widely known Gage, Murray & Co., manufacturers of enamelled papers in

Nashua, N. H. "I had for several years a very troublesome humor in my face, which grew constantly worse, until it disfigured my eatures, and became an intolerable affliction. I tried almost very thing a man could, of both advice and medicine, but without any relief whatever, until I took your SARSAPA-RILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and, without a doubt, owe it to your SansaraniLLA." Erysipelas-General Debility-Purify the Blood.

From Dr. Robert Sawin, Houston-st., New York.
"Dr. Ayer.—I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your Sarsaparilla, and I have just now cured an attack of Malignant Erysipelas with it. From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

> Syphilis and Mercurial Disease. From Dr. Hiram Stoat, of St. Louis, Missouri. "I find your Sarsapariela a more effectual remedy for the secondary symptoms of Syphilis and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have.' From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature "DR. AYER-My dear Sir: I have found your SARSAPA-

The most gratifying proof of the expansion of the business is exhibited in the one following fact—that the increase alone of the last three years exceeds the entire business of Sarsaparilla, the skilful application of local remedies. From the well known and widely celebrated Dr. Jacob Mor-

"I have found your Sansaparilla an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhea, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment.
