Rarely have we been more interested than we were on Saturday last in going through the above establishment, lately erected by Mr. Henry Robertson, on the corner of Union and St. David's Streets. The building is three stories in height, and quite new, having just been finished and made ready for operations. The kiln in which the ware is baked is of very large dimensions, extending up the entire height of the building and is capable of containing a very large quantity of ware at each burning. Messrs. Wm. Blakey and Son, who have been nearly all their lives engaged in the Pottery business, at Newcastleupon-Tyne, England, have the management of the manufacturing department of this establishment and seem to understand thoroughly what is required of and made into milk pans, butter crocks, flower pots, jugs and all that description of goods. Here too is an arrangement for drying the ware before baking, and here also, as a final operation before being made ready for the kiln, the glaze is applied to the different utensils. The clay from which this quality of goods are made is quite abundant on the same lot upon which the building stands, and is of a very good description. On the second floor quite another branch of the business is conducted. Here are manufactured, from clay obtained from Grand Lake, tea pots, pitchers, spittoons, salters and a great variety of such articles, the moulds for which together with the patterns are all drafted and made by Mr. Blakey, Jr. The designs for some of the pitchers and tea pots are very handsome, exhibiting considerable taste as well as cleverness on the part of the designer. For our through the operation of making several of the articles above named, and each article was turned out with surprising rapidity and neatness. An apartment on the same floor, through which passes the kiln, is used as a drying room, the heat from the kiln being quite sufficient for that purpose without the additional expense of other drying appointments. The upper storey is used as a depositary for the different articles after they have received the "finishing touches." We were also shown some specimens of what is called Cane and Rockingham ware, a branch of the business which it is the intention of the proprietor to prosecute at an early day. As yet the manufactures are principally confined to the "yellow ware," at present so much in use, and judging from the specimers shown us at the Pottery and also at the establishment of Mr. Robertson on King's Square, the quality is fully equal to that of articles of the same kind imported from England or the United States, and better than this, twenty-five per cent. cheaper than the imported article. There are at present six men employed in the

"City Pottery," and Mr. Robertson informs us that with the facilities now afforded, he can manufacture sufficient ware to supply the whole Province. One cannot leave such an establishment as that which we have described without a feeling of pleasure, as it affords proof that there is enterprize among our own people, and while it may, if properly supported, became a source of profit to the proprietor, at the same can be furnished at a much lower rate than the same | says: articles can be imported, there would be some excuse especially by our own people. - Morn. Telegraph.

At a banquet given in his honor at Wigan, in responding to a toast, he stated the cir- Official advices from Vicksburg to 29th, indicate did not think he was wrong in expressing a hope terries on the 26th. that no collision would occur between England and Richmond Dispatch's telegram says Banks crossed the Federal States. If it did occur the immediate his army at Bayou Sara, ten miles above Port Hudresult would no doubt be the raising of the blockade, son, to get behind that post, and take it by land atand the introduction into England of a large supply tack. of cotton. But there were higher considerations. Charleston Courier reports steamer Eagle, from He had no doubt that the noble Lord at the head of Nassau, captured by Federal cruiser. the Government was most anxious for peace, yet he Reports continue of movements of Lee's army. No would never allow his desire for peace to detract from alarm exists in army of Potomac concerning them. what they considered the honour of the country. If New Orleans Era learns that Mobile authorities they had to carry out a war the people might depend summoned people to rally en masse for defence of upon it it would be done with all possible vigour. city, indicating that Federal force threatens it. Canada was a country with 1,500 miles of frontier, Report that Sam. Houston to run for Governor of and it had inland seas upon which a navy was as Texas, with design of joining Texas Republic.

that force was not supplemented by the Canadians, they could not expect England to support them after which is invested. Garrison here estimated 10,000, a war was over. He believed, however, that if war did break out, the Canadians would rise as one man. Soldiers, however, were not made in a day, and any olony wishing to defend its liberties must have a force ready to back up the army of the mother country. This was not yet the case in Canada, but he trusted it would soon be so. In conclusion, General Lindsay bade the company farewell and sat down amid loud cheering.

THE THRONE OF GREECE .- it appears that the terms of Prince William's acceptance of the throne of Greece are not yet by any means agreed upon. It will be remembered that Prince Christian demanded, as an essential preliminary, the formal abdication of them. On the first floor the clay is prepared for use King Otho. But as there was little probability of realizing this condition, in the face of Otho's impracticable disposition and of his recent protest, it was proposed by the protecting Powers-or at least by England in their name-that they should sign a protocol which should announce the Greek throne vacant, and thereby form a species of international title for the next occupant. The King of Denmark, who appears to have maintained throughout these negotiations a dignified and consistent neutrality, expressed no objection to this expedient, if Prince Christian should concur in it. Indeed, the King seems to have consented to every proposal, subject to this condition. But it appears that Prince Christian, on the question of Otho's renunciation, is inexorable. It is just on this footing that the matter now stands. One explanation of the difficulties which have been encountered is thought to be that it is very doubtful whether special gratification Messrs. Blakey and Son went Prince Christian and his family were from the first such ready recipients of the flattering proposal that was made to them when they were in this country as is commonly imagined.

ARRIVAL OF THE "PERSIA" AT NEW YORK. New York, June 3.

Persia arrived. English journals variously comment on Hooker's

The person alleged to be a Federal recruiting agent Ireland, turned out to be a swindler and decamped. Cargoes and ships Nova, Louisa Hatch, and Charles Hill destroyed by the Alabama, were shipped by and consigned to English houses. Their destruction causes excitement, and appeals are made to Govrnment for redress. British and Foreign Anti Slavery Society is ener-

getic in advocating Federal cause. Little change in markets. Breadstuff's continue firm. Flour, 21s 6d. to 22s. Provisions also firm. Consols 93 1-2 to 93 5 8 for money.

UNITED STATES.

The seige of Vicksburg is now the principal topic of news. It is asserted most confidently that General Grant will succeed in reducing this place; he has a time it tends to check the flow of our capital to foreign large army, and a large number of gunboats at his markets and thereby increase the amount of the cir- command-all ready to do his bidding. Still the fall culating medium among ourselves. It is much to be of Vicksburg is in the future; and even many who regretted that there is an evident desire on the part sympathize with the North, are slow to believe that eign manufactures, even at a higher price, rather Grant will be successful. So many reverses occurring than patronize the products of home industry and just when the expectation of success was at its highest enterprize. This should not be so, as it is not only pitch, have sadly discouraged many, and made them an injury to the Province at large, but an actual innot a fact that in many instances, home manufactures arms at all. The Church Witness of Wednesday

We were told that on Friday, the 22d May, Genefor patronizing foreign markets, but in the case de- ral Grant had obtained possession of the outer described above it is positively asserted that an article fences of the place, and that it must speedily fall into can be furnished twenty-five per cent. cheaper than his hands. It now seems that his forces did capture the imported article, and under such circumstances some entrenchments on the day named, but they the former should undoubtedly receive the preference. were driven out of them on the very same day, with for the Religious Intelligencer. Mr. Robertson's establishment is well worth a visit, the loss of five thousand men. This signal repulse and we trust that his enterprize will meet with a proved that Vicksburg could not be taken by a coup suitable recognition by being largely patronized, de main, and that it could only be approached by regular siege works. But on the following Sunday another attempt to storm the works was made with a similar result, and the capture of the place is thererequested to publish the following document addressed fore necessarily postponed. At this second assault it is stated that at one place it was neces- fied that they are required to send in their several Porsuant to an arrangement, into which several of sary, owing to the steepness of the hill, to scale amounts before the first day of July next, in order the Shire Institutes had previously entered, delegates it with ladders, and that "the Confederates rolled that the accounts may be balanced before the meetduly appointed by those respectively, met at St. John their shells down the hill at the Federal troops, ing of Conference. Provincial Association, a measure which has long The reason for these almost desperate efforts to take Vicksburg by storm appears to be this: General The Association is to be composed in part of per- Grant, as we stated last week advanced by way of sons deputed by the Shire Institutes to represent Raymond and Jackson, crossing the Big Black River, them severally in relation to their interests and views and so reached the rear of the city. It was simply a on questions particularly relating to that Body (the raid on a large scale; for as he advanced the Con- off by a timely recourse to one or both of these medicines. Prov. Inst.) and to assist in its deliberations. The federates re-occupied their old positions, and placed a membership is so regulated as to secure the most barrier upon his return by that route. dow Glass-sizes from 7x9 to 18x26. For sale low by TENDERS FOR A STEAMER IN THE GULF. ROPOSALS addressed to the Chief Commissioner will be received at the Office of Public Works, Fredericton, until noon on Friday, the 10th of July next, for the following service, during a period of five years, to commence at

the opening of the navigation in the year 1864. To run a good and well appointed sea-going Steamer, adapted for the Carrying Trade and the Conveyance of persons indebted to said estate are requested to make im Passengers, of such power, size, speed, capacity, as may be fully adequate to the required duty, once a fortnight each way between Shediac and Cambellton, touching at the intermediate ports of Richibucto, Chatham, Newcastle, | Or, Bathurst, and Dalhousie; and twice each way every alternate week between Shediac and Newcastle, to intermediate ports of Richibucto and Chatham. Each Tender is to specify the size, age, speed, character, and equipment of the vessel proposed to be used, including the kind and condition of the boilers and machinery;

to state the annual sum required for the proposed service, and to furnish a tariff of the rates of Freight and Passage, to which the party tendering is willing to be restricted. The required Steamer is intended to be run in connection with the Railway terminating at Shediac, to carry the Mails if so required, and to be under such rules and regulations as to hours of departure, tariff, and other particulars, as the Department may from time to time prescribe. GEO. L. HATHEWAY, Chief Commissioner. Department of Public Works,

Fredericton, 26th May, 1863. DREDGING.

PENDERS addressed to the Chief Commissioner, will be road. received at the Office of Public Works, Fredericton, until noon of Saturday, the 20th day of June next, for Dredging a clear passage, conforming to the main Channel, through Seal Bar, in the Harbor of Bathurst, to the full tion to the subscriber personally or by mail. water level of spring tides; the excavated material to be deposited not nearer than 100 yards from the limit of the channel, in such situation as may be approved by the Chief Commissioner. The shallowest water over the Bar at the owest ebb is assumed to be about five feet, and the extent f the required excavation about six hundred feet; but which facts the party tendering will ascertain for his own guidance. Each Tender is to state the round sum for which the work will be completed to the satisfaction of the Chief Commissioner, on or before the 1st day of October next. GEORGE L. HATHEWAY,

Chief Commissioner. Department Public Works, Fredericton, 26th May, 1863. ONDON HOUSE, Market Square.—The arrival of the Lampedo, Empire Queen, and late Steamers renders our Spring importations complete, contained in 280 cases and bales British and Foreign Merchandize, in SILKS, COTTONS, WOOLLENS and LINENS. Sackville,

Amherst, Truro, and Halifax.

R. JARDINE, Railway Commissioners' Office, 8th May, 1863. Chairman. OIL-OIL-MECCA LUBRICATING OIL.-12 barrels of the above just received. This Oil is now universally pronounced to be the best Lubricating Oil in the market for Railroads, Steamboats, Mills, Factories, and all kinds of Machinery. It is the pure Green Rock Oil, and is not reduced or adulterated by any chemical preparation whatever, which is the fault with many of the cheap Rock Oils now flooding the market. It is as free from smell, and as clear from grit or dirt as Lard or Sperm Oils, and from thorough practical tests made by reliable Engineers and Mechanics, on Locomotives and Steamboats. in Machine Shops and Factories, it has proved to be the only reliable Lubricating Oil that will keep bearings cool, and will not gum. It is not affected by heat or cold, which makes it the best for winter or summer use; will last much longer, and is equal in every respect to Sperm or any other Oil. These qualities, with the low price at which

cle in use. Adequate testimonials of its character can be given by those who have used it. For sale by CHAS. A.
