THE WESLEYAN FESTIVAL.

The Festival and Bazaar, held in the beautiful garden and grounds of Judge Wilmot on Wednesday, was numerously attended, and proved a success in the object contemplated. The day was warm, but attended by a slight breeze, which had a tendency to render the heat less oppressive, which with the great tent that was spread, and the trees and arbors on the grounds, rendered the place as cool and pleasant as could have been expected. The number of persons in attendance must have exceeded two thousand. The entrance fee was twenty five cents each, and we learn that the amount taken at the gate was something over five hundred dollars. The sources of income inside the grounds were refreshment tables, with almost every variety of catables; one or two soda fountains, ice creams and fruit in abundance; a bazaar of fancy articles; a large number of flowers in pots, boquets, &c.; also, an excellent waggon, a set of silver mounted harness, and a cooking stove, which were contributed to be sold for the benefit of the object in view. We have not yet learned the amount realized from these, but probably not less than five hundred dollars, perhaps considerably more. Five persons contributed $100 each, and several smaller sums were also donated. We should judge the footing up will be from $1,800 to $2,000, a very pretty sum indeed for a benevolent object in these hard times. But as we said last week, our Wesleyan friends in Fredericton know how to do up these things, while the beautiful grounds of Judge Wilmot, combined with his liberality, always render their efforts successful. The Band of the 15th Regiment was on the grounds, and entertained the visitors with music.

We congratulate the Wesleyan church in Fredericton on the success of this effort to reduce the debt on their chapel; and we hope that when in a few weeks, our own church makes an effort for a similar object, as they now contemplate, we shall have similar success in proportion to the efforts put forth.

FIRE.—Between eight and nine o'clock last night the Dry Goods Store of Mr. J. A. Mullin, Prince William-street, which had been closed but a short time, was discovered by some passers-by, to be on fire. When an entrance was effected a great body of fire was seen in the back part of the store. The fire was so strong, and the smoke so dense, that none of the stock, we believe, could be removed. The Engines were soon at work, the hand engines, we understand, taking the lead, and the fire was soon conquered, but whatever part of the stock escaped burning, must have been ruined by the water.—*Freeman of Tuesday*

Mr. Mullin was in Fredericton at the time. He has not, we believe, any insurance.

The gold mines at Isaac's Harbour, N. S., must be decidedly productive. The St. Croix Mining Company, with a capital of $3,000, have paid back a temporary assessment of 20 per cent. on the stock, and also made a dividend of 45 per cent. A statement which appeared in the Boston *Journal*, to the effect, that owing to some oily substance being found in the Nova Scotia auriferous quartz, it could not be worked to advantage, cannot, therefore, be correct.

The St. Croix steamer "Queen," Captain Todd, in rescuing the "Westfield," which had gone ashore at Boot Head, on Wednesday week, saved a large amount of property in ship and cargo to owners or underwriters, and earned the respectable sum of $2,500 for her day's work.

THE NEW TELEGRAPH LINE.—The workmen are at present busily engaged on the Railway line between here and Sussex erecting the posts for the American Telegraph Company's new line from Calais to Halifax. The posts have all been set up between Sussex and St. John, and the work is being rapidly pushed forward in this, under the able management of Mr. Isaac Stevens, brother of the present Superintendent of the American Telegraph Company in this Province. —*Westmorland Times.*

The Montreal *Advertiser* states that a number of Montreal mechanics who recently went to the United States, enticed by the high rate of wages, have been drawn as conscripts, and in some cases immediately marched off to prison for security. Every impediment is placed in the way of proving their nationality; and they complained that the draft is so managed that in a shop of 500 workmen, where only fifty are foreigners, nearly the whole fifty are sure to be drawn, although not more than one in five native names are taken from the wheel.

The "Sea-Crest," Captain Tobin, owned by Messrs. Chipman and Bolton, and bound for Liverpool, with a cargo of deals, received some slight damage at Long Point, somewhere off Machias, and lost her deck load; but she would, it is believed, be able to proceed on her voyage. She had two lady passengers from St. Stephen, besides the Captain's family.

We understand that vast preparations are afoot, under the auspices of the new Hudson's Bay Company, for the development of the territory under their control, the particulars of which will shortly be announced. It is understood that Mr. Watkin, whose name in connection with the Grand Trunk Company is well known, is on his way west with a view to the immediate extension of telegraph facilities to the Pacific. The apparatus is already ordered, and will soon be on its way, and the year's close will see vast progress made with this great enterprise.—*Quebec Gazette.*

IMPORTANT CASE.—The Gaspe correspondent of the *Gleaner* contains the following reference to a case of some importance:—

The Supreme Court was engaged for five days, terminating 23rd July, in hearing a very important case, involving some £5,000 or more. Patterson & McCully, of Liverpool, England, *vs.* McMillan & Travis, of Campbeltown, N. B., and the Restigouche, C. E., presenting some nice and intricate questions in Mercantile Law for the first time in this District. The judgment, which will be rendered on the 5th August, is looked for with much interest, chiefly by the mercantile classes of the County.

One hundred and ninety-one Polish Jews arrived at Quebec a few days ago by the brig *Ricke* from Hamburg, and left shortly after by the Grand Trunk *en route* for the West.

☞ The population of Madagascar is variously estimated at from less than 2,000,000 to over 4,000,000. The territory embraces 220,000 square miles. The English missionaries commenced operations on the island forty-five years ago. They have the Bible, "Pilgrim's Progress," and other works in their language, and thousands of the people have learned to read.

☞ An elegantly-dressed young lady recently entered a railway carriage in Paris, where there were three or four gentlemen, one of whom was lighting a cigar. Observing her, the Frenchman asked if smoking would incommode her? She replied: "I do not know, sir; no gentleman has ever smoked in my presence."

BRITISH AND FOREIGN.

By the arrival of the *China*, our advices are to the 2nd inst. The news is of a less warlike character than was anticipated, and the probability is that the peace of Europe will not be disturbed.

The *Morning Post* labors to show recent Federal successes not likely to prove materially advantageous to Federals.

The *Army and Navy Gazette* takes most gloomy views of Confederate military prospects. Retreat of Bragg and flight of Johnson before Sherman sufficient signs of exhaustion. Charleston in real danger, and if it falls Savannah follows. Still, it thinks if Federal armies cannot be filled without conscription the North will be palsied, and victory wrested from her grasp.

English politics, as usual on close of Parliament, quiet and lifeless.

S. C. Cresswell, the well known Judge, is dead.

Paris Bourse renewed flatness 66 85.

Marshal Forey, in his official report from Mexico, says he was occupied in forming a provisional Government from men of moderate views belonging to all parties.

War panic on Polish question subsided. Journals speculate on responses of three powers to Gortschakoff. Nothing reliable transpired. Insurgents kept active.

Reported extensive conspiracy discovered in Caucasus.

LIVERPOOL, Aug. 1st.—*Great Eastern* off harbor waiting tide.

Times, of to-day has editorial on Archbishop Hughes' speech to rioters. Says it defies analysis, and rivals in obscurity the responses of Delphian oracle; hatred of England was key-note.

The *Times* is not surprised that the Archbishop should in a moment of self-consciousness have told his hearers they might possibly consider his remarks were blarney.

The *Daily News* taunts Mr. Laird with insufficiency in his evidence in support of his assertion that he was invited to build ships for Federals, and demands the name of his anonymous correspondent.

ST. PETERSBURG, Aug. 2d.—Gortschakoff replied to Austrian note of 19th July, expresses surprise at Austria believing that Russia retains a secret thought that she wishes to establish assimilation between Gallicia and Poland, but thinks agreement between Austria, Prussia, and Russia necessary on account of assistance rendered to insurrection by Gallicia.

WARSAW, Aug. 1st.—Proclamation of National Government rejects any compromise not based upon the independence of Poland, which embraces restoration of boundaries of 1772, and calls upon the people of Lithuania and the kingdom of Poland, and all Russia, to rise in general insurrection.

PARIS, Aug. 2.—*Moniteur* publishes an article severely attacking the Prussian policy.

THE HARVEST IN ENGLAND.—The London *Christian World* of July 17th, says:

The heart that feels not moved by gratitude to God for the magnificent summer weather, with which he is favoring us, is in an unhealthy and unenviable state. Everywhere the crops look not only promising but splendid. An early harvest and an abundant seems certain, except some extraordinary change take place in the weather. The genial warmth of the past fortnight has wrought wonders on the face of the country. The cereals are healthy and fast ripening, and the golden tint, so grateful to the eye at this season of the year, speaks of the ripe harvest as very near at hand. "O, that men would praise the Lord for his goodness, and for his wonderful works to the children of men!" For whatever a cold philosophy may say about the laws of nature, and second causes, and so forth, the devout Christian delights to think of his "Father working" by sunbeam and shower, by balmy breeze and fertilizing dew, amidst the heat of the noonday sun, and during the darkness of the silent midnight. The seasons are to him messengers from heaven, each having its own story of an ever-watchful Providence, caring for the multitudinous hosts of creatures who "seek their meat from God." The resources of Divine beneficence are inexhaustible, and as that beneficence manifests itself seasonably it teaches most important lessons to man. It speaks of prescience, forethought, arrangement, order; and it suggests that gratitude should not be a mere feeling or sentiment, but an active power doing good to men as it has opportunity.

UNITED STATES.

(By Telegraph to the Associated Press.)

BANGOR, Aug. 11.

Tribune's despatch says Lee has been reinforced by Polk's division of Bragg's army. Sent division to Charleston.

Herald's despatch reports a battle imminent at Fort Blunt, Indian Territory. Confederates about 8,000, Federals 2,500; 800 making forced marches from Fort Scott to reinforce them.

Portion of Longstreet's corps occupied Fredericksburg, but it is not expected that they will attempt to hold it.

Reported that the Confederates demand the execution of Capts. Sawyer and Flynn at Richmond, and that Gen. Lee, whose son Gen. Fitz Hugh will suffer in retaliation, threatens to resign the command of the Confederate army in the event.

Burnside is at Lexington, Ky. Movement of troops in that direction very active.

Gov. Todd, of Ohio, has gone to Washington. Draft in that State suspended until he returns.

BANGOR, Aug. 12.

A Newbern correspondent writes that the Unionists of Eastern North Carolina are to hold a mass convention to invoke Federal Government to send sufficient force to occupy Raleigh, Washington and Meidon, thus forcing Confederates to abandon Virginia and restore two States at once to Union.

Nothing from Charleston.

Minnesota advices report Little Crow, leader of hostile Indians, dead.

La France says negotiations between the three great powers for common reply to Russia is about to be successfully completed. This journal does not despair of Russia's proving conciliatory, otherwise general war imminent.

Guerillas attempting to enforce Conscription on light colored negroes in West Tennessee.

Citizens and deserters are resisting Conscription in Alabama.

Bragg's army reported retreating to Atlanta, Georgia.

Federal position on Morris Island reported stronger and safer than ever.

Rumored that Confederate leaders are willing to offer peace propositions, believing their armies demoralized; also, that permanent occupation of Mexico, by France, to be repudiated by Federal Government, even to hazard of war.

Great defection reported existing in Confederate army among North Carolina, Tennessee, and Mississippi soldiers, who are anxious to return to their respective States.

Alabama and Georgia destroyed several more vessels.

Lee's headquarters reported at Gordonsville. Force of Confederates still in Shenandoah Valley.

BANGOR, August 13.

Advices from Rosecran's army to Tuesday last report his head quarters at Decloid, Tennessee, with supplies regular and abundant.

Bragg's head quarters at Chattanooga. He has 28,000 men.

All Indians east of Rocky Mountains reported hostile; two steamers had an engagement with them on Moi River, one hundred miles below Fort Union; killing twenty eight. Three whites killed and wounded.

Gen. Sibley's expedition heard from at James' River.

Battle expected in two days.

Rumors are current of contemplated Secession troubles in California.

An affray occurred at Vissla between Secessionists and soldiers. One soldier killed and several secessionists wounded.

Gen. Wright is taking measures to thwart their designs.

Federal reconnoisance seventy miles from Natchez destroyed large amount of Railroad rolling stock and other property.

Arrago from Port Royal via Charleston Bar Monday evening arrived.

Confederates built additional batteries on James' Island; they are also building interior line of defences near the city. Seven thousand troops from North have landed at Merriss' Island during the past week.

Grand assault contemplated on the 15th. Reported that two thirds of the guns have been removed from Sumter to James' Island, and that Confederates have no hopes of holding Sumpter.

Herald's St. Petersburg letters reports that Russia is making gigantic preparations for war with the great powers by spring; and will have a million of men under arms.

Sweaborg and Cronstadt are being rapidly strengthened.

It is supposed that the money for Grant's army was not on board the Ruth, and that the boat was burned to conceal an enormous robbery of the sum.

Colored Regiment left Philadelphia for Morris Island to-day.

FORTRESS MONROE, Aug. 7.—The flag of truce steamer Mew York arrived from City Point last evening with upward of two hundred prisoners of war.

The Richmond *Examiner* of the 6th says, from Charleston *Mercury* of last Monday, the aspect of affairs at Morris Island and elsewhere, in our neighborhood, has not materially changed. On Saturday quite a spirited bombardment was kept up by the hostile land batteries, but the fleet did not participate. On Sunday some of the wooden gunboats steamed in and fired on Fort Wagner, but soon withdrew, leaving the fight, as the day before, in the hands of the land batteries exclusively.

On Tuesday last, two monitors and three gun-boats appeared on James river, and advanced as far up as Sandy Point, where they anchored and threw shells shoreward. Yesterday one of the monitors and two gunboats started up the river and halted within sixteen miles of Drury's Bluff, and commenced a vigorous shelling of the woods, right and left. The object of the expedition appears to be one of observation as the depth of water and to ascertain the location of the torpedoes.

There is no doubt but that Gen. Grant, immediately after the surrender of Vicksburg, reinforced General Meade with 20,000 troops. The troops were sent on transports from Vicksburg two days after its fall, and arrived on the Chesapeake a fortnight since.

NEW YORK, 10th, 11 P. M.—The heat continues intense; several cases of sun stroke are reported to-day. The thermometer ranked all the morning at 100 in the shade. Seven deaths from heat in Brooklyn occurred yesterday. The large barrack building at Staten Island was burned last night.

A Washington letter states that a letter has been received in this city by way of a flag of truce stating that Jeff. Davis continues ill in Richmond and doubts were entertained of his recovery. He has been ill more or less for several months.

Information has also been received here to the effect that Gen. Lee had addressed a letter to Jeff. Davis, calling upon not to inaugurate the work of retaliation by hanging the two Federal officers now confined in Richmond, as the Federal authorities had declared their intention to hang in return his son.

MAJOR GENERAL MEADE.—The Boston *Pilot* asserts that the veteran commander of the Army of the Potomac is a Roman Catholic, and many of the Copperhead journals assert that he is a Democrat. We presume that in either case it would not make any difference in the value of his services. It is as well, however, that the truth should be known. General Meade is a Philadelphian. His family resides here. His sons have been drafted here. He is a member of the Protestant Episcopal Church, and his family holds a pew, where it has long been in regular attendance, in St. Mark's Church. General Meade's relations in life, as regards politics, have ever been Whig. His family were all Whigs, and though opposed to the anti-slavery agitation before the war broke out, the General has since become an earnest supporter of the whole war policy of the National Administration, like Burnside, Grant, Rosecrans and other conservatives.—*Philadelphia North American.*

THE FREEDMEN ON THE MISSISSIPPI.—Gen. Grant has adopted the plan of hiring out the freedmen to their old masters, under proper restrictions and guarantees, wherever it is practicable. In the region back of Natchez planters having cotton crops have offered their old slaves half their crop if they would take hold and gather it; but in a number of these cases the offers have been refused. The negroes, however, will work for northern men or for the government gladly. The "attachment of slaves to their masters," proverbial in pro-slavery logic, does not manifest itself in Mississippi any more than in Louisiana or Virginia.

SPECIAL NOTICES.

DISTRICT MEETING.—The First District Meeting will hold its Annual Session with the Church at Middle Kent, the last Saturday in this month. To attend—Elder A. Taylor, Y. White, E. Siprill, and G. M. Orser.
