ADVICE TO YOUNG WOMEN.

Knowledge of the different kinds of domestic work is necessary in order to be a good housewife. To learn to cook and bake, to wash and iron, sew, knit, darn, and patch, are all important. I heard her say last week, that the best part of the day for her was, when we came home from school at night, and she could have us all together again."

"Well, her children cannot be much like mine, if she can say that; I am positively dreading to see my George open the gate. It is time for them now."

A loud outcry, and the din of many childish voices drew the speakers to the window. There was evidently a row among the crowd of boys who were on their way home from the village school. At the Annual Meeting held in August 1859, the following highly satisfactory results were shown:— FIRE DEPARTMENT. The most gratifying proof of the expansion of the business is exhibited in the one following fact—that the increase alone of the last three years exceeds the entire business of

some of the existing and of many of the recently defunct fire insurance companies of this kingdom. The Premiums for the year 1855 being......£130,060 While the Premiums for the year 1558 are .... 196,148 Showing an actual increase of. r upwards of 50 per cent. in three years. The amount of new Life Premiums received this year is by far the largest received in any similar period since the commencement of the business, and must far exceed the average of amount received by the most successful offices in the kingdom.
