titled to the protection due to every part of the British Empire from the parent state, we should be bound to put forth all our energies in self-defence. Though a regiment would be useful as a nucleus, the whole population of the Province would be required for its effectual defence.

THE TALLAHASSEE.—We understand that this bold rover has put into Halifax, at which place she was last night or this morning. Capt. Reed, of the brig Billow, one of the victims, relates his "experience" as follows:—

"I was two hours and a half on board the Tallahassee; she had one pivot gun and three forward guns, with one brass rifle-gun, of large calibre, on the hurricane deck; she had also several spare guns. The captain, (John Taylor Wood), was quite free to talk to me; he said he could steam 16 knots an hour, and had crossed the British Channel (21 miles) in 72 minutes; he would not fight, he said, unless compelled, he preferred to run, as his vessel was fast.

He also averred that within one week he had destroyed over 50 vessels. Within 30 hours of my capture, he said he had destroyed 16 sail, namely, three ships, two barks, and the rest schooners and herm. brigs. One was the ship Adriatic, of New York, captured the same day he took me. He added that he would slacken up the coasting trade so that Uncle Abe would be glad to make peace. He asked me about the Nantucket light boat, and afterwards said, recurring to his designs, that there were more afloat than the Florida and Tallahassee, meaning of course, Confederate ships of a similar character to his own, and that Uncle Sam had better look out. Capt. Wood appeared to be a very affable man, and said he was doing what it was not pleasant for him to do. The Tallahassee is an iron steamer of English build, schooner rigged, and has no yards or topmasts, and lost her mainmast in collision with the Adriatic. She is a very long and narrow vessel, burns soft coal, and had about a hundred men on board. All the officers were Southerners. She had three or four negroes, who did not appear to be very jolly."

The agent of the Associated Press in this City, kindly furnishes us with the following information respecting her doings on the 14th inst.:—

"The schr. Sophia, yesterday, landed at Yarmouth the crews of the following vessels, sunk by the Tallahassee:—Lammont Dupont, of Wilmington, Del., sunk 13th, in lat. 40, long. 68; ship James Littlefield, Bangor, sunk 14th, latitude 42, longitude 66; schr. Mercy A. Home, sunk yesterday, lat. 43, long. 66. After crews were put on board the Sophia the Tallahassee sunk four other schooners, one named J. H. Hamen of Gloucester. Saw smoke of steamer this morning in direction of Seal Island."

The following vessels are out after the Tallahassee, but it is probable they have been sent too far South—Ælous, Ascutney, Juniata, Susquehana, and the gunboats Grand Gulf, Tristam, Shandy, Dacotah and Dumbarton.—*Globe.*

The Aroostook *Times* of the 12th inst. says, that one thousand dollars was offered last week for a substitute from that place by outside parties.

BRITISH AND FOREIGN.

Her Majesty's Ministers were the guests of the Fishmongers' Company on Monday night. In responding to a complimentary toast, Lord Palmerston said that he and his ministerial colleagues had endeavoured to preserve the pre-eminence of England, and to secure for the people of this country the blessings of peace, and he thought that their labours had not been unsuccessful. Earl Russell replied to the toast "The House of Lords," and in the course of his speech alluded to the domestic policy of the Government, with especial reference to the question of Reform. He said the present Cabinet had been assailed because it had not attempted to extend the electoral principle on which the bill of 1831 was based; but he thought that 30 years hence people would take a different view of the subject, and would acknowledge that the Government of 1864 acted wisely in deferring further legislation on Reform until the amendments already made had been fairly and fully tested by time.

The following is stated to be the basis of peace between Denmark and Prussia and Austria: Lauenburg, Schleswig and Holstein to be ceded to the two great German powers; the island of Arro to remain with Denmark; Alsen and islands in the North Sea to go with Schleswig; modification of the Jutland frontier will take place.

The special correspondent of the *Times* in Denmark describes the dejection of spirits among thinking and feeling Danes as "something awful to look upon." He says—

They look upon the present crisis as a first partition of their country—like the first partition of Poland, leading to eventual annihilation. This time, they think, the Germans will walk away with the three duchies—the whole of Schleswig, Holestein, and Lunenburg. It will be great mercies if they do not take the fleet and the Colonies. What they leave to-day they may come and help themselves to tomorrow; and France may take a fancy to Iceland—a long coveted possession, deemed "necessary" to the development of her cod-fishing interests: and Sweden may take Bornholm, the lovely island lying so conveniently off her coast: and every one may come in for his share, for Denmark is at everybody's mercy, and no friend will help him who cannot help himself.

Parliament was prorogued on the 29th ultimo by Commission. Her Majesty's message on the occasion was read by the Lord Chancellor. We give a few paragraphs:

"Her Majesty deeply laments that the civil war in North America has not been brought to a close. Her Majesty will continue to observe a strict neutrality between the belligerents, and would rejoice at a friendly reconciliation between the contending parties.

Her Majesty has observed with satisfaction that the distress which the civil war in North America has created in some of the manufacturing districts has to a great extent abated, and Her Majesty trusts that increased supplies of the raw material of industry may be extracted from countries by which it has hitherto been scantily furnished.

The revolt of certain tribes in New Zealand has not yet been quelled, but it is satisfactory to Her Majesty to know that a large portion of the native population of those islands have taken no part in this revolt.

It has been a source of much gratification to Her Majesty to observe the rapid development of the resources of her East Indian possessions, and the general contentment of the people inhabiting those extensive regions.

It has afforded to Her Majesty the most heartfelt satisfaction to observe the general well-being and contentment which prevail throughout her dominions, and to remark the progressive increase and development of the national resources, and to find that, after sufficiently providing for the public service, you have been able to make a material diminution in the taxation of the country.

On returning to your respective counties you will still have important duties to perform, essentially connected with the linking together of the several classes of the community, and Her Majesty fervently prays that the blessing of Almighty God may attend your exertions, and guide them to the object of Her Majesty's constant solicitude, the welfare and happiness of her people."

ARRIVAL OF THE "ASIA."

Asia left Liverpool at 11 on morning of the 6th, Queenstown, 7th, and arrived at Halifax at 6 P. M. 15th. She brings 80 Halifax and 68 Boston passengers.

Australasian arrived at Cape Clear early on the morning of the 6th.

U. S. Steamers Wachusetts and Onward were at Rio Janeiro July 4th.

Steamer Niagara after taking coals, provision, etc., left Liverpool, 6th, destination unknown.

Rumors were current on the 5th that the late Rebel Cruiser Georgia had been seized by order of Government as she was about leaving Liverpool; it turned out, however, that she was simply detained by her owner. It is alleged that the Georgia is now the bona fide property of Mr. Bates, by whom she has been put in thorough repair, and was about leaving Liverpool for Lisbon under charter to Portuguese Government to carry troops to West Coast Africa, and Mails between Lisbon and Azores.

It was alleged Niagara mailed outside Mersey for Georgia, but was contradicted.

Times' City Article says advices from Frankfort mention that under pressure of some sales on American account prices U. S. bonds gave way for some days until quotations were only 2 per cent. above New York, but such is the eagerness of the German public to increase their investments that as soon as the pressure of these exceptional operations was removed, rally took place of more than 3 per cent.; reason for renewed furore consists in word "peace" having been mentioned in last telegrams. It is added that the estimate of 80,000,000 sterling as total of these securities absorbed in Germany and Holland is certainly below actual amount.

Admiral Simpson, of Chilian Navy, arrived in England, empowered to buy war vessels and order iron-clads.

DANISH QUESTION.—Confirmed via Copenhagen that Denmark completely cedes Duchies to Austria and Prussia together with Jutland Enclaves, the town of Ribe excepted; also, that occupation of Jutland continues till final conclusion of peace.

President Danish Council communicated matter to Rigsraad at private sitting, and on following day motion was offered and supported by considerable numbers declaring that silence with which announcement was received must not be construed into approval of conduct of Government.

Furloughs have been granted to all Danish recruits undergoing preliminary drill. Troops were returning to Copenhagen from Funen.

German papers assert that Duchies are surrendered in their entirety without reservation and Austria and Prussia have full liberty to dispose of them.

POLAND.—M. Trangoff, head of Polish National Govt., together with four Chiefs of Departments were hanged on 5th, on Glacis of Citadel. Sentence of death on eleven other officials of National Government has been commuted.

TURKEY.—Missionary question settled between Sir Henry Bulwer and Porte. Missionary stations are to be re-opened, and converts for present sent to Provinces.

Alleged enlistment of seamen for Federal Government, America, was attratcting attention at Calcutta. Federal Agents are said to have already freighted one ship for the Northern States with unemployed sailors in contravention of law. Authorities were on watch for their detection. Calcutta Telegrams, July 16th, *Singapore*, July 6th, Melbourne, June 20th, are received via Suez. Nothing important transpired.

LONDON MONEY MARKET.—Advance of Bank Minimum to 8 caused mainly by fact that Bank returns show how reserve of notes fallen to point below any yet touched since of panic of '57. Further advance to 9 considered not improbable. Funds very heavy and Consols fell ⅜ per cent on 5th. Demand for Money show increase, but no pressure.

Breadstuffs heavy; still declining provisions easier. Consols 89¼ @ 89¼.

LATEST VIA LIVERPOOL.—Australasian's news had no effect on Markets. Friends of the North were much disappointed that alleged capture of Atlanta was not confirmed, while Southern sympathisers loudly rejoiced. Morning *Post* to-day has editorial denouncing kidnapping British subjects for Federal service, refers specially to case of seven Irishmen who were subjected in June last to gross indignities after their release was obtained, and says, if facts are proved the British Government should not be satisfied with anything less than the exemplary punishment of all concerned in the outrage. The *Times* has an editorial on the same subject, holding it up to Irishmen as a warning not only against Federal service, but against emigration to America. Daily *News* refutes representations against labor market in America, shows it is in most healthy state, and offers irresistible attraction to emigrants.

UNITED STATES.

THE PEACE MOVEMENT.—A number of the representatives of the peace party held a private caucus in New York, Wednesday, comprising representatives from eight or nine Northern States, with a view to secure concerted action at the Chicago Convention. Ex-Senator John B. Weller presided, and among the speakers were Senators Hendricks and Bayard, Ex-Governor Vroom, Judge Black, George T. Curtis, Wm. B. Reed, Ex-Gov. Bigler, John McKeon, and Fernando Wood. The officers of the meeting authorize the statement that "while there was no speaking in favor of the continuance of the war for the Union, the general opinion was decidedly against an absolute and unconditional cessation of hostilities." The meeting came to an understanding in regard to the general features of the platform to be presented for adoption at Chicago, opinions differing only in matters of detail.

The New York *World* says:

The new President to be nominated at Chicago and elected in November, must be a man *ready and willing to meet any and every overture for peace*, a man who shall represent truly the dignity and power of the nation, and who will not be unwilling even to tender an armistice suggesting a national Convention of all the States."

The New York *News* adds:

The Peace Democracy will endorse a nomination that faithfully represents the sentiments here stated. They are willing to trust to the good sense and patriotism of the people for the realization of a definite peace as the sequel of an armistice and national convention."

The New York *Herald* of the 13th inst. says:

We believe that the time has come, that we have arrived at that stage of this exhausting war, when every consideration of wisdom, patriotism and humanity suggests the propriety of a magnanimous and *bona fide* movement on the part of the administration in behalf of peace. In the present state of affairs, if we can do nothing more, it is all important to the safety of the country and the administration that we should place the leaders of the rebellion clearly in the wrong before the whole civilized world, and the government as clearly in the right before all the people of the loyal States in the further prosecution of this dreadful war. We can do this through a special embassy of three peace commissioners to Richmond, if we can do no more. We believe, however, that through a movement of this kind, comprehending an armistice of six months, and a convention of all the States, subject to such conditions and notifications as may be hereafter agreed upon, we can secure a permanent peace upon the basis of the Union and the constitution.

The Boston *Post* referring to the state of things at Atlanta says:

"Several days since we remarked that Sherman's position before Atlanta was critical till it was ascertained where the large force, under Kirby Smith, Dick Taylor, and others, was. The movement on Mobile by Farragut and Granger, and the appearance within seven miles of New Orleans of a formidable force, are indications of the purposes of the enemy. It is now many months since we virtually abandoned the territory West of the Mississippi River. In the meantime, the rebel Generals have had the field for recruiting wholly open. That they have used this opportunity to the fullest extent, cannot be doubted. What we feared when Sherman had gone so far from his base (with a questionable line of conviction to say the least) we fear now. We apprehend that Kirby Smith would strike his connections between Chattanooga and the Tennessee River. The unfortunate result of McCook's and Sherman's raid has placed the opportunity with Hood. We have underrated Hood, or the power that Hood represents. The Mobile affair, we fear, will not be as great an advantage to us as the public expect. We have seized upon Mobile forts and left other important points unguarded. We have said that the rebels have recruited largely in the territory West of the Mississippi River. The troops from that seccion are fresh, and, as has been often proved, they fight. Once across the river, from what point can we send out a sufficient body of men to prevent their march to reinforce Hood and press Sherman between the two columns? New Orleans, Memphis, and Nashville are threatened, and the diversion of Mobile leaves our defences at New Orleans as the rebels would desire. And yet a clear statement of these probabilities was set before the authorities in Washington weeks ago, but, as usual, no heed taken to it. Just so long as we keep political Generals in the field and keep practical Generals out, so long as we wage the present war upon the false policy of the Administration, we must look for disappointment; but it is cruel that a gallant army like Sherman's should suffer from such paltry chicanery. While the country have borne with patience the disappointment before Richmond, it has looked cheerfully to Atlanta; but we fear, from present indications, that the realization of our hopes are to be delayed there beyond expectation. No blame, however, can attach to Sherman in any event—he has done all he could do."

The following is the latest official despatch addressed to the Secretary of war, now at Richmond:—

ATLANTA, Aug. 6 1864.—Hon. J. A. Seddon: The enemy made two assaults to-day on Finly's and Lewis' brigades, of Bates' division, of Lee's corps, both of which were handsomely repulsed, with loss to them. J. B. HOOD, General.

BOSTON, Aug. 15.

Richmond papers state that Grant is moving a portion of his army from before Petersburg, but are mystified as to where they are bound.

There has been active skirmishing in the Shenandoah valley between the forces of Sheridan and Early.

BOSTON, Aug. 16.

Several newspaper correspondents have returned from before Atlanta; they anticipate no important movement by Sherman at present.

Hood is said to be largely reinforced.

Report says, Lee has sent 20,000 men to reinforce Early in the Shenandoah Valley. A great battle is expected in that vicinity.

Official report from Gen. Canby states that Fort Gains, in Mobile Bay, surrendered unconditionally, with 56 commissioned officers, 818 men, 26 guns, and with provisions for one year.

18 guns were taken at Fort Powell.

The land forces are investing Fort Morgan.

BOSTON, Aug. 17.

Later advices from Grant show important movements. It appears during Saturday Hancock's corps embarked on transports and steamed down James river ten or twelve miles leading rebels to think the siege of Petersburg and Richmond was being raised. During Saturday night the transports swiftly returned and the troops were landed on the North side of the James where they surprised and captured the outer fortifications of Fort Darling with 7 guns and 500 prisoners.

The point occupied is nine miles from Richmond, and considered of great importance, and is held by a strong Federal force.

The Tallahassee destroyed six vessels off Cape Sable on Monday, and landed their crews at Yarmouth N. S., in destitute condition.

Gold 255⅞.

New York.—Newspaper correspondents furnish details of Hancock's movement on the north side of James River.

The *Herald* says Lee must recall his forces operating under Early in the Shenandoah, and in addition must come out of his intrenchments and fight, or wholly retire within the Richmond defences.

Federal gunboats and 2 Rebel rams had a smart fight in the James River on Sunday; before getting to close quarters the Rams retired.

The Rebels captured 200 wagons of Sheridan's train on Saturday, the latter was pressing Early vigorously and had occupied Strasburg.

Reports from Sherman's army state he had gained an important position south of Atlanta, within short distance of the Macon Railroad, which is now within reach of his guns.

A report from Thomaston, Maine, says the Tallahassee destroyed 25 vessels on Monday off the coast.

Gold 255.

BOSTON, Aug. 18th.

New York, 18*th.*—A regiment composed of Rebel deserters, 1000 strong, passed through this city last night for the West, to be employed against hostile Indians.

Late advices from Mexico state that Maximilian is to have an Austrian army composed of the oldest officers and soldiers of the Austrian reserves.

News from Georgia is to the effect that Rebel Gen. Wheeler was besieging Alton on 11th, with 1700 men. The town was defended by 800 Federals.

There was severe fighting, but it was thought the Federals would hold the position until reinforced.

Wheeler is reported to have captured a Railroad train at Altona. Also to have seized several car loads of Government cattle.

Nothing later from Grant or Sherman.

Gold, 257

AUG. 18th, P. M.—We have a variety of newspaper reports from the Shenandoah Valley, to the effect that Early has been largely reinforced, and has assumed the offensive, compelling Sheridan to fall back from Strasburg. There was continued skirmishing and frequent dashes made upon Sheridan's supply trains. In one case, the rebels captured fifty wagons, 400 mules, and 150 prisoners. Sheridan's private despatches were also captured.

The rebels are desperate in their determination to hold communication with the Upper Potomac, and compel the Federals to keep a large force there for its protection.

Grant holds the approaches from Malvern Hill to Richmond, and the Charles City Road.

Richmond papers report continuous cannonading in Mobile Bay. Supposed to be between the Federal fleet and Fort Morgan.

NOTICE.

IN accordance with the request of many of my friends who believe me to be the only complete Cancer curer in New Brunswick, I have consented through this medium to inform the public that I have been treating Cancers for the last fifteen years with perfect success, never failing in any case of making a perfect cure. As Cancers have become so common of late, and as there are so many *impostors* with specifics for them and Scrofula, I therefore think it my duty to state that I am prepared to treat successfully any case of Cancer or Tumor that may come to hand. I have cured nearly one hundred cases, and feel confident of giving every satisfaction. Our motto is—*No Cure, No Charge!*

I have had as many as ten cases under treatment at one time, all of whom were cured in three weeks, ready to return home.

As my general practice is very extensive, I cannot always be home; but as I have an Assistant (Dr. George Lamb), who has been with me for several years, patients may be assured they will be well attended.

Board can be had at Mr. Wm. Lamb's, where patients will be well cared for, at from $2 to $3 per week.

I would advise all persons sufferings from SALT RHEUM, TETTER, THUNDER HUMOR, or any CUTANEOUS ERUPTIONS, to procure a package of DR. GEORGE LAMB'S ALL-HEAL OINTMENT AND WASH, as it never fails in making a cure. Any person forwarding One Dollar, with Post office address, and description of disease, will receive the Medicine by Parcel Post, and a cure warranted in every case, *or money refunded*. All letters must be pre-paid.

Address, DR. GEORGE LAMB,
Rockland, Dorchester, Westmorland Co., N. B.

☞ The following are a few Certificates and References. Any person wishing information, may correspond with any of the following parties, all of whom were afflicted with Cancers, and were perfectly cured by our treatment:—

Miss Jane Gotro, Dover,	"	1864.
Mr. Denong Depais, "	"	1864.
Mrs. Peter Landry, Dorchester,	"	1864.

Many more cases might be given, but let these suffice. All of the above mentioned cases were from four to ten years standing, and some of them were far advanced.

Charges moderate. Address,
DR. W. S. FOSHAY, Rockland,
Westmorland Co., N. B.

The following Certificates speak for themselves:—

Rockland, Dorchester, April 11th, 1864.

With pleasure I inform the world that one year ago Dr. W. S. Foshay was sent for to see my sister (P. A. McLaughlan), with a Cancer in the side, which was supposed to be too far advanced to be cured. I also had one in my arm, one inch in diameter, which he removed in a short time by applying plasters, with very little suffering, and has been perfectly sound ever since; and I know of many others that he has cured, and would advise all persons to seek his aid in all cases of Cancer as soon as possible, for I do not know of any cases of failure where the disease had not too far advanced. MRS. DAVID TAYLOR.

Grand Diy, K. C., May 4th, 1864.

I am happy to inform my fellow creatures that I had a Cancer in my face, of nine years standing, and about breaking out. It was one and a quarter inches in diameter, and through the cheek. I had it examined by a number of the doctors, who could not do anything for me. I applied to Dr. Foshay, who removed it in a short time with very little suffering. I would advise all to employ him in cases of Cancer, for he makes sure and quick cures.
VITOR GALANG.

Memramcook, June 2d, 1864.

This is to certify that I was afflicted with a Cancerous Tumor in the side of my face, extending from the ear to the angle of the jaw, and two inches in width. I employed an eminent physician, who applied blisters, with other treatment, to no purpose. I also tried various applications without benefit. I was now very miserable, and was given up as a hopeless case. I heard of Dr. Foshay, and employed him. He removed the Tumor in a short time with very little suffering, by applying plasters, and built up my general health. I am now well—thanks to Dr. Foshay and God's providence, for sparing me to my family.
MRS. POLETE BURK.

Hopewell Corner, A. C., June 6th, 1864.

DR. FOSHAY—Dear Sir—I will state a few facts for you to publish if you wish, for the benefit of others similarly afflicted. I had a Cancer in my breast, of nine years standing, which affected me very much, with pain darting through to the shoulder. I employed Dr. Foshay, who removed it in a short time, and I am now well. I would advise all to employ him in cases of Tumor or Cancer, as he makes quick and permanent cures. I remain yours truly,
CHARLOTTE A. COLPITS.

Springhill, Memramcook, June 6th, 1864.

This is to certify that I had a Cancer in my under lip; I had it examined by Dr. Wilson, of Dorchester, who told me that it was a Cancer, and a bad one, and the sooner it was out the better. I employed Dr. Foshay, who applied a plaster that removed it in a few days without pain. Employ him all who have Cancers, for I am now well.
NELSON BISHOP.

SALISBURY, June 30th, 1864.

This is to certify that I was afflicted with three Cancerous Tumors, one of which was of seven years standing, and gave me some uneasiness. About four weeks ago I applied to the skill of Dr. W. S. Foshay, and I am now entirely well. He removed them with plasters with but little suffering. I would advise any person who is afflicted with Cancerous Tumors to apply without delay to Dr. Foshay. MRS. REV. WM. DOWNEY.
