Quebec, 23d September, 1864. Sir.-Referring to my Despatches, No. 124, of agust 26th, and No. 129, of September 1st, I have he honor to transmit the copy of an approved Minute the Executive Council of Canada, requesting me to nvite the Governments of Nova Scotia, New Brunsend Representatives to a Conference with the Minisers of Canada at Quebec, to he held for the purpose considering the question of the Union of these rovinces, and to digest a practical plan for the reaation of the idea which should be submitted for

Their sittings began on the 10th of October, and continued de die in diem until the 28th of the same month. I have now the honour to transmit the resolutions agreed to by the Conference, for which I would ask

e favorable consideration of yourself and Her Maesty's Government. I may state that an extended intercourse with members of the Conference enables me to assure you that they were one and all actuated by the strongest feelings of loyalty to the Queen, the most earnest desire to maintain the connection with England, and the wish to make the proposed union work so as to strengthen that connection by enabling the Provinces to take upon themselves more largely the respon-

sibilities of a self-govering community. I do not enter into any argument to prove that a consolidation of these Provinces is desirable if it can be effected on principles which will give guarantees for strength and durability. The advantages of a well considered plan of union, whether looked at from the point of administration, commerce or defence, appear to me so obvious that it would be a waste of time to state them, and the fact that the most eminent men of all the Provinces concur in desiring such a union, appears to go a long way in superseding the necessity for any abstract arguments in its favour.

The plan which has been adopted by the conference, you will observe, is union of all the Provinces Hunter and Campbell, Confederate Commissioners on a monarchical principle, under one governor, to at Hampton Roads. Nova Scotia.—The Legislature is to meet on Thursday next " for the despatch of business." The Government will meet the House with a favourable balance sheet so far as Dollars and Cents are concerned; but they may look out for manifold troubles on other scores. They must explain their Railway policy, and what they are to do with their pledges to Annapolis. They must be prepared to amend the School Bill. Above all, they have to engineer the Confederation Scheme safely through both houses. The task before them is quite enough to try the nerves and sinews of a "very strong Government," Some of the members have arrived in town already. There will be a very general muster on the opening day, as it will be the first appearance of the kind of His Excellency Sir Richard Graves MacDonald .-Witness, (Halilax.)

OLD PARTIES .- Whig and tory, liberal and conser vative, all the old party names are out of date now. We have nothing but "Unionists," " Anti-Unionists," "Federationists," and "Anti-Federationists." You cannot tell where the dividing line may be cick, Prince Edward Island and Newfoundland, to drawn. Brothers are divided. Fathers and sons take different sides. A large number of Conservatives have evidently withdrawn their confidence from the Government, and the left wing of the old Liberal party has "bolted," or, as they put it, the Liberal leader have "bolted" and forsaken the "left wing." Patience, friends! Order will soon come out of this chaos. This offervescence of parties will do good if it were only to wipe out the old lines .- Presbyterian Wiiness (Halifax).
