on the homestead farm of the late Judge Ritchie The squash is one of a species called the "French Mammoth." Mr. Haliburton is both a scientific and practical farmer, as his crops this autumn unmistakeably indicate. He has raised this season an enormous crop of Indian corn on a small piece of ground.—*Free Press.*

Mr. Lunt's new and beautiful steamer, "Olive," is now upon the route between Indiantown and Fredericton. She was built in Carleton, by Messrs. J. & I. W. Olive, who also modelled her, and it is universally admitted that she reflects the highest credit upon her builders. She is 165 feet in length over all, and about 24 feet beam. The joiner work of the "Olive" was done by Mr. Geo. V. Beatteay, of Carleton, to whom much credit is due for the neat style and thoroughly workmanlike appearance which it presents. Her cabins are panelled and otherwise neatly finished. Messrs. Fleming & Humbert, of this city, built her engines, which perform well. The "Olive" is a fast boat, and is improving in speed every trip. She has made the run from Fredericton to Indiantown in *six hours and forty minutes*, making her stoppages, which is much in advance of the usual time made by the river boats. When her engines have worked for a time, and have got rid of the extra friction consequent upon their being new, she will doubtless make the trip in considerably less time. We congratulate all concerned in the "Olive" upon the success that has attended her, and trust that she will prove as remunerative to her owner as she is an accommodation to the public.—*Visitor.*

San Francisco, Oct. 8, 1865.—At a quarter before one o'clock to-day the severest earthquake ever felt here frightened almost the entire population of the city out of their houses into the streets. During half a minute there were two tremendous shocks, which caused buildings to rock to and fro in a manner altogether alarming.

Services were over in most of the churches. The large congregation of the Unitarian church was being dismissed when the shock commenced. Ladies shrieked; all pushed for the door faster than they could be accommodated with exit. Similar scenes took place at St. Mary's Cathedral and at some other churches and Sunday schools. The rush was so great in the Catholic church on Vallejo street, that the large doors to the main entrance were carried, away, and several persons were injured by being trampled upon. The walls of many buildings were cracked in many places, and it surprises every one that large, stately edifices, Occidental and Cosmopolitan hotels, and other buildings of that class, were not generally more seriously injured. More or less plastering fell from perhaps half the ceilings of the city. The cornices and fire walls fell from many buildings. The entire front of a four story brick building just erected on Third street fell outward, covering about half that wide street with fragments. One independently constructed chimney of the Lick House fell and crushed through the room of the dining room, coming down upon the tables and dishes to the astonishment of the borrders who were taking lunch. Three of the servants were injured.

Brief accounts from Sacramento, Stockton, and San Jose, represent the shock as the severest ever felt in those cities. It was not felt at Marysville nor at Placerville; but the town of Santa Cruz was shaken with great severity, some brick buildings suffering much damage and two being destroyed.

Santa Cruz felt the shock more severely than any other town of the State. Several brick houses were so badly damaged that partial reconstruction will be necessary. A despatch from there says there was a general tumble down of chimnies, and those left whole are turned partially around. The motion was apparently from east to west. The ground along the river opened in fissures and spouted water like geysers. The people are unable to use some of the wells, which are either dry or filled with sand.

The tide rose very high at the time of the shock, and fell very low immediately afterwards. Ten or eleven distinct shocks were felt since the first shock up to five o'clock this morning, as well as a number of slighter visitations.

Terrible Steamboat Explosion.—13 Persons killed and 40 or 50 Wounded.—*San Francisco, Oct. 14.*—The ship *Orion* has sailed for Boston. The steamer Yosemite burst her boiler at Rio Vesta on her downward trip from Sacramento last night. The upper works forward were completely wrecked; 13 persons are known to be killed, and 40 or 50 wounded. Others are missing. Among the killed are J. H. Meyers, J. M. Pollen, Wm. W. Stephenson, Mr. Major and Mr. Washburn, actors or attachees of Maguire's Theatre, Decker of the Pacific Railroad, Southerland of the British North American Bank, G. W. Seaton, State Senatar from Amador County, Charles Louis Smith and Wm. Rogers.

Another earthquake in Santa Clara Valley last night is described as being quite as severe as the one of Sunday. It was slightly felt here.

THE NORTH AMERICAN MANUFACTURING COMPANY,

for the manufacture of the original "Weed Sewing Machine," whose works have been so recently established amongst us, it seems is making rapid strides. We find on visiting their extensive establishment, Corner of Charlotte and Main Streets, that much of their very elegant and extensive machinery is now in operation, and that a large shipment of their sewing machines has already been made from here to Liverpool direct, where the company have established their principal depot for the supply of all European agencies. It appears that this "Weed Machine" has become very celebrated in Europe, especially in England, where they have met with large sales in London, Liverpool, Manchester, and other large cities and towns throughout the country, and that nearly six thousand of these machines have found ready sale in Europe during the past two years. This "Weed Machine," for a great length of time, has been quietly working itself into notice, being from time to time subject to tests by the principal manufacturers of Europe and America, and finally adopted upon its working merit alone, as a great amount of unquestionable evidence now shows; such as the very extensive boot and shoe manufactory of J. O. Whitehouse, 5 and 7 Dey St., N. Y.; E. Kertrand's large establishment in gloves, 73 Grand St., N. Y.; Geo. Silver, 53 Dey St., N. Y.; the Bigelows, of London, kid makers; Messrs. George Eicherhoff & Co., Hamburg, Germany; H. Dean & Co., Manchester, Eng., and a host of others, in every kind of sewing, from lace to leather, making the uniform beautiful stitch *both sides the goods alike.* All this perfection has been the gradual work of time, and now the machine contains these valuable working elements, which so many now understand, and are prepared to appreciate. Hence the readiness with which the leading merchants, who compose this company, have taken it up, and, as now appears, promise to supersede all former efforts in this line. For the benefit of our people here particularly, we will add that we are informed by the officers of this company that those purchasing machines of them at their factory, can always have them kept in order free of charge, and that satisfactory operation for all kinds of sewing is guaranteed. This certainly is a great inducement, and will save much expense and annoyance formerly suffered by all who have purchased sewing machines from abroad. Much corroborative evidence and more particulars may be obtained by addressing Charles A. Bovey, the Company's general agent at St. John.

BRITISH AND FOREIGN.

ARRIVAL OF THE "NOVA SCOTIAN."

New York, Oct. 16.

The Nova Scotian has passed Farther Point with dates to the 6th instant.

It is stated that the British Government proposes to guarantee the Canadian Loan for the purchase of the Hudson Bay Territory.

Fenian arrests continue. About 205 persons in all have thus far been arrested.

A suspicious vessel flying the American flag and supposed to be one of those with arms, had appeared off Queenstown, but again put to sea.

A strange vessel is said to have sent a letter on shore which was opened and found to contain a bill for £1000 in favor of a member of the Fenian organization.

The examination of the six Fenians at Dublin was concluded on the 2nd.

Additional evidences developed nothing new of movement.

Five of the prisoners were committed to take their trial for high treason.

The prisoners denied that the indiscriminate slaughter of the higher classes was ever meditated.

The publication by the American press of the names of the alleged holders of the Confederate loan caused some fluttering. Laird authorises the Liverpool papers to say that he never held or was interested in any of that stock.

The important American Torpedo experiments took place at Chatham on the 4th inst., under the direction of Donald M'Kay and Mr. Beardsley in the presence of the Lords of the Admiralty.

Numerous operations took place, the most important being the destruction of the sailing frigate Terpischore. Two hundred and seventy-five pounder torpedoes were placed at the depth of seven feet below the keel when the electric shock was communicated. There was a dull report, the vessel quivered and in a few minutes settled down on an even keel: not a splinter was shot in the air.

Bank of England has raised rate of discount to 6 per cent. Bullion decreased during the week £777,000 sterling.

Consols for money 88¾ @ 88⅞. Breadstuffs continued quiet and firm at about previous quotations. Provisions firm.

UNITED STATES.

Condition of the South.—A correspondent of the Philiadelphia *Presbyterian*, says:—

I have been travelling recently in the States of Mississippi and Louisiana. I have broken bread with the people at their own table; I have knelt with them about their family altars; I have gone up with them to the house of God; and I have talked freely with them as to the present and future of our country; and my observations authorize me to say that much bitterness yet prevails. The old and long-cherished bostility to the North continues increased and intensified by a sense of wrongs inflicted during the war by the national arms. The Yankees have destroyed their fields burned, their towns prostrated, their commerce, and, above all, robbed them of their slaves. All the miseries of the war are charged upon the United States. They cannot comprehend that they themselves unchained the wild beast, and are, therefore, responsible for the carnage that followed; and their minds seem imprevious to the idea that they have been, if not now rebels and traitors, and that as such they have forfeited all their privileges as citizens, and that if they ever enjoy again the blessings of the franchise, it will be an act of *grace*—by the clemency of the government they have attempted to destroy. They talk of their "rights," of the government, &c.

And the *negro* now is the perpetual theme. Let the conversation begin where it may, it will soon gravitate to slavery, and on slavery it will terminate. The general conviction is that free labor in the South will prove a failure, and multitudes are bending all their energies to such an end. They affirm that the negro will not work without the lash, and that unless some coercive system is adopted, the poverty of the South will only cumulate. And not a few believe that the Emancipation Proclamation is unconstitutional, and that when congress meets, especially when *their* representatives are admitted, the emancipation will be revoked and the States be permitted to revive the institution; and many take the oath of amnesty, designing at the time to use all their powers in trying to abrogate the proclamations on slavery, and think that they therefore commit no perjury. Others again, think the old slaveholders will be permitted to *apprentice* their former slaves, say for a period of two years. —In brief, the prevailing sentiment is, that *something* must and will be done to keep the negro in his place, and make him work. The fate of the nation swings on that something.

Two evils are now afflicting the South. The first is the *animosity* of the old slave owners to the freedom of the negro. They are vexed to see him putting on the mien and bearing of liberty. All the malignity of their nature is in activity to repress and obstruct the unfortunate African. He is persecuted, sometimes whipped, and in places his liberty is denied him; and in Mississippi, the old county officers, elected last year by rebels, and because they were rebels, having been reinstated by Governor Sharkey, his testimony is not received in court.

And the second evil is, the negro himself does not comprehend the responsibilities of his new position. He has been accustomed to see his master and mistress living at ease, and rolling in luxury, and *that* is liberty in his eyes. Hence there is a disposition among the freedmen to idleness and vagrancy. But this disposition is greatly exaggerated. In the interior, they are not only treated with the severity of the old *regime*, but they are told that they are not free; and that when the Federal troops are withdrawn, they will be as they were before the war. And this fear inclines them to forsake their homes, and to congregate about towns and military posts; and in many cases where they insist on receiving wages for their work this year, they are driven away! Thus multitudes are idle and dependent from circumstances imposed by the times, and not from inherent indolence. Yet it must be confessed that they generally fail to understand their present relations and obligations. And the two evils mentioned constitute two opposing forces in our social fabric—two ponderous *impediments* on the wheels of our progress. But it is hoped that time will effect their eradication. The logic of advance will remove the prejudices of the whites, and instruct the negro in the weighty responsibilities that freedom brings with it.

Boston, Oct. 14.

Several British detectives have recently arrived in the country to look after the Fenians.

The freed colored men of Eastern Virginia have subscribed three millions dollars toward the recent government loans.

Steamers leaving this port for Europe to day take about five hundred thousand dollars in gold.

Lawrence, Oct. 14.—An immense meeting of the Fenian Brotherhood was held here last evening, several thousand persons being present, and the greatest enthusiasm manifested.

San Francisco, Oct. 12.—Mount Hood, in Oregon, has been in a state of eruption since Sept. 23d, and it is supposed to have had some connection with the recent earthquake in California, although the central part of the state only felt the shock.

Boston, Oct. 16.

The *Times* Havana correspondent has information of a very important insurrection in the deparment of Ojacca, Menico. The Republicans had met with great success in their capture of Tehuacan, capturing greater supplies of money and arms than was supposed, and were able to equip a large force.

The *Times* Washington despatch says the President told the South Carolina delegation that Gen. Magrath may be released, but no hope for Jeff. Davis has been vouchsafed.

Boston, Oct. 17.

Toronto, C. W., Oct. 16th.—Dr. Blackburn, of yellow fever notoriety, has been admitted to bail on his own recognizance, to appear when called for and his sureties have been discharged.

A. N. Sykles, A. Potter, Samuel Bailey, and J. R. Quackenbush have been committed for trial at Bellville for counterfeiting on a large scale. A number of persons of influence are reported to be connected with them.

A large fire in this city last night destroyed property consisting of cotton and liquors to the amount of one million dollars.

Advices from Belisle informs us that the English Government has repudiated the attempt by Maximillian in 1864 to extend the boundary of the Mexican Empire into British Honduras by means of a military mail from Yuctan. Maximillian acquiesces.

Advices from Mexico confirm late reports of the activity of the supporters of Juarez. Leading Republicans are defraying the expense of arming the guerilla band. At Tampico and along the coast Imperialism was decidedly declining. Gold 146.

Boston, Oct. 18.

A Washington despatch of yesterday says the President to-day received a petition signed by five thousand women of Georgia, praying for the pardon of Jeff. Davis. Similar memorials, but not so numerously signed, are received almost daily.

The *Herald's* Mexican letter, of the 1st inst., states that the U. S. Consul presented himself three days in one of the palace offices, in order to make a claim in favor of a Frenchman. He sent his card and was informed that he was unknown there, and the best he could do was to quit the palace unless he wanted to be put out by the palace guard.

Maximilian's Secretary of War offered to muster into the Emperor's service all the Confederate officers in Mexico; but they refused the proposition, adding that they could serve only under the United States flag. That they might have troubles among themselves, but there was no reason for them to forget that they were North Americans and Republicans, and consequently unwilling to defend an Empire.

Agent.—Our thanks are due to the subscribers of the *Intelligencer* in Carleton and Victoria Counties, who so promptly renewed their subscriptions during our recent tour up the River. We have arranged with Bro. E. M. Truesdale, who is our General Agent, to visit several localities that our limited time would not allow us to attend to, and look after the interests of our paper. Subscribers in arrears will do us a great favor by making payment to Brother Truesdale, and persons wishing to subscribe have a good opportunity of doing so through him at any time.

Williamstown.—Brother Thomas P. London, of Williamstown, has kindly consented to act as a local Agent for the *Intelligencer* in that place. He is therefore authorized to receive subscriptions for us.

Correction in Minutes.—The amount credited in our last Minutes of General Conference to Cavehill Church (page 25), should have been to the Cornhill Church. The mistake was typographical.

Notice.—The Executive Committee of Home Mission Society have received a communication from the First District, through the Chairman, and will attend to the call for aid as soon as arrangements can be made.

Wm. Peters, Sec'y. to Com.

Notice.—Brother Lorenzo Wilson gives notice that he will have a conveyance at the Steamboat Wharf, Eastport, on Thursday next, to carry parties to Campobello, who are going to the District Meeting to be held at that place.

Dr. Ridge's Food for Infants and Invalids is so carefully and scientifically prepared that it is immensely superior to Arrowroot, Sago, Tapioca, Bread, Biscuit, Corn Flour, or any other kind of farinaceous food for infants, not alone from its purity, strength, and great nourishing properties, but also from its having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible. It cannot cause Acidity or Wind. It is very agreeable, and from the nature of its composition is exactly adapted to all conditions of the stomach. It can be made ready for use without trouble in two or three minutes. Mixed in Beef Tea, Milk, or any other fluid, the *PATENT FOOD* is pre-eminently suited to Invalids, from its wholesome and strengthening qualities. It is a real blessing, and from its remarkable cheapness accessible to all. For sale only by

At Melbourne, Australia, on the 28th April, of consumptien, John, second son of the late James Walker, of this city, aged 27 years.

At Wakefield, on the 14th instant, after a lingering illness of consumption, Mrs. Catherine Amelia, wife of Mr. Elijah Gallop, aged 38 years.

We formed the acquaintance of this excellent christian woman during our visit to Wakefield in October last year. The flush upon her cheek and the cough with which she was then troubled, gave certain evidence that the insidious malady which carried her away had already began its work. She was able, however to attend to the duties of her household, and also to go to the place of worship. We did not, when leaving the place then, expect ever to meet her again on earth. But her strong constitution and vigorous body did not yield so soon as we thought. Two weeks before her death we again visited her; she was unable to sit up, and death was evidently making rapid approach. To say that she was perfectly resigned to her death, would be saying far too little. She was happy in the prospect of her demise. All had been committed to Jesus, and not a doubt or wave of trouble crossed her mind. She stated to us that her days of confinement passed so sweetly that she knew not how they went. No tediousness, nor lonesomeness was felt, but in constant communion with her Saviour she felt that her dying bed was the sweetest and best place on earth. Her mind was not the least excited, but calm, peaceable and serene. She talked of her departure with heartfelt pleasure, and expressed that she only feared impatience. We did not see her again until in the arms of death; but we learned that so she continued, and that when she could only whisper with effort, she was heard to say, "Home, *I shall soon be home!*" Who would not die thus?

This dear sister was a faithful christian in health. When but few met for worship, she was one of them. In the family or abroad she exemplified the religion she professed, and He whom she followed in health sustained her in sickness and in death. *A good life is what makes a happy death!*

Sister Gallop was the daughter of the late Mr. John Akerson, and the niece of our esteemed brother, Rev. Joseph Noble, now of Port Medway, N. S. May the God of all grace comfort her bereaved husband, and widowed mother, and other mourning relatives. Her funeral took place on Monday last, and was numerously attended, Funeral sermon was preached by Rev S. Hartt from Prov. xiv. 32.
