BRITISH AND FOREIGN.

ENGLAND AND AMERICA.—The London *Christian
World* says:

If the feeling of hostility against England prevail-
in the Northern States is to go on growing along
the war spirit, it can hardly be expected that
should be longing for the time to come when the
eral armies may be at liberty to display their va-
upon new fields. Even while their endeavours
subjugate the South is still far from complete, we
of many and loud threats of war with England;
there is, unhappily, more reason than ever to
clude that the public sentiment of America would
pport the Government in carrying those threats
Canada would, of course, be the first battle-
ground; and it will be no fault of Gen. Dix if the
blood be not soon spilt there, seeing that he has
ered his officers to violate the Canadian territory
certain criminal Confederates, who have fled thith-
for safety, be not given up, legally or illegally;
regard for the inviolability of international law
annot be expected to be very strong in the breasts
those who are trampling upon their own political
and social laws with reckless impunity. It is un-
oubtedly to be regretted that Mr. Justice Coursal, a
rench Canadian, the judge of the Court at Montreal,
efore which the wretched "St. Alban's raiders"
ere cited, fancied he had no jurisdiction in the case,
ecause of the informality of their arrest; but Gen.
ix and his Government knew perfectly well that
he prisoners were not set at liberty because of any
ympathy felt with the villains who robbed the banks,
ole the horses, and murdered the unoffending citi-
ens of St. Alban's, but out of respect for the letter,
s well as for the spirit, of the Extradition Treaty.
he great body of the Canadians are heart and soul
ith the Federals, as their leading papers prove; and
here is, therefore, the less excuse for the choleric
aptain's freebooting order to the men under his
ommand. It is devoutly to be hoped that the dia-
olical "raiders" have by this time been retaken
nto custody in due form of law, and sent over
he frontier, and that the Colonial Government will
e spared the presence of any other similar ruffians
ent on like errands. Meanwhile it is but too mani-
est that fresh costs will have to be incurred to pro-
ect the Canadian frontier against the incursions of
over-zealous friends of Mr. Lincoln, as well as the
lots of the fanatical devotees of Mr. Jefferson Davis.
eanwhile it is very gratifying, and not a little reas-
ring, to learn that President Lincoln has formally
isapproved the order of Gen. Dix with respect to
he pursuit of the Confederate marauders across the
anadian frontier, and that that order has been vir-
ually recalled. Although this is no more than we
were entitled to expect from the chief magistrate of
he United States, it is not the less a matter on which
he people of both countries may be congratulated.
Especially is the promptitude of Mr. Lincoln to be
commended, because even the beginning of strife is
as the letting out of water. It is to be hoped that
the conduct of the Colonial Government will prompt-
ly remove all legitimate ground of offence, and leave
our republican neighbours neither temptation nor pre-
text for acts which England would be obliged to
resent.

QUEEN, EMPEROR, KING, AND POPE.—It may be interesting just to note the New Year's day public engagements of four potentates. Those of our Queen consisted in the distribution, by proxy, on Monday, of beef and coals, of the value of £200, to the poor of Windsor, and of much warm clothing besides, purchased by the Royal Clothing Club. The French Emperor held, on Sunday, his usual reception of the Diplomatic Corps, at the Palace of the Tuileries; and in reply to their felicitations, through the lips of the Papal Nuncio, his Majesty said he was "sensibly touched" by their good wishes, and that he trusted concord would continue to reign in Europe. He added:—"Be convinced I will make every effort in order that my relations with foreign powers may be ever animated by respect for right, and love of peace and justice." In reply to the Archbishop of Paris, he said:—"I thank you for the sentiments which you express in the name of the clergy of Paris, and for the prayers which you address to Heaven for me. I am very glad to see my efforts to maintain religious interests appreciated by the prelate who governs the diocese of Paris, and I request your prayers for me, for the Empress, and for the Imperial Prince." As it has happened several times that the Emperor selected this annual "reception" to darkly indicate his foreign policy, every word he utters to the ambassadors is keenly scanned by the Governments and Statesmen of Europe. There would seem to be nothing in his language this year to excite either alarm or hope; but it is remarked by the Paris journals that when the Emperor afterwards privately conversed with the leading members of the Diplomatic Corps he was observed to pay special attention to M. Mon, the Spanish ambassador, and Chevalier Nigra, the Italian minister. The King of Italy recommends his Parliament to hasten its labours, and hopes that the destiny of Italy will soon be accomplished. What this means people can only guess. Some infer that after all, the French Emperor means to connive at the seizure of Rome by the Italian troops at no distant day. The Pope would certainly appear to be bent upon making the Emperor his active antagonist. The French Government has felt obliged to forbid the bishops and clergy to publish to the people the chief part of the Pope's circular letter; and by so doing has incurred one of the severest maledictions of the Pope, and been guilty of new heresy. Not content with his Christmass curses of modern civilization, the infatuated old man has been making a speech to the Sacred College, telling them that when his incarnations shall have had their desired effect, as he expects they speedily will, he shall exclaim with Simeon, "Lord, now lettest thou thy servant depart in peace." If the present temper of France and Italy may be relied upon, it will be some considerable time before these events take place.—*London Paper.*

ARRIVAL OF THE "AFRICA."

HALIFAX, Feb. 2d, 1865.

"Africa," Anderson, which left Liverpool at 2 P. M., 21st January, and Queenstown 22d; arrived at Halifax at 3.30 A. M., 2d. Has 24 Halifax and 25 Boston passengers.

Globe authoritatively states that reports from America that British troops are about to embark for Canada, to meet probable war from contemplated recognition of the South, are absolutely without any foundation.

Captain Corbett, commander of the *Sea King* prior to her conversion to rebel cruiser *Shenandoah*, had again been before a magistrate, charged with enlisting seamen to serve on *Shenandoah*. Further conclusive evidence was adduced, and the prisoner was admitted for trial, but admitted to bail.

Commander of Peruvian war ship *Union*, who was arrested for violation of Foreign Enlistment Act by enlisting seamen in the Thames, but got off owing to some legal irregularity, was again arrested on the arrival of his ship at Plymouth, and conveyed in custody to London. He is charged with repeating the offence at Plymouth. Part of his enlistments are said to be intended for another Peruvian war steamer, fitting out in France. This second steamer, named the *America*, arrived at Plymouth on the 20th, from Nantes, to ship crew engaged for her. Captain of the *Union* was brought before magistrates at Dartford on 20th, but case was dismissed from insufficient evidence.

Steamer *Columbian*, belonging to Indian and Pacific Steamship Co., which left Liverpool on the 10th, sank on the 17th off Brest, where she was supposed to be running for shelter. Thirty of the crew and one passenger drowned—only three saved. The lost passenger was John Hamilton, of Liverpool, the representative of the Panama Railroad.

It is denied that the Queen will open Parliament in person. First Cabinet Council of the year was held on the 19th. All the fifteen Cabinet Ministers were present.

Shipping Atlantic Cable from works to vessels, to convey it to *Great Eastern* commenced on the 19th, and will continue without intermission till the end of May, by which time all will be coiled in the great ship. The *Times* has a very hopeful article on the enterprise, and says uncertainty of weather for submerging cable seems only a cloud over the prospects of the new enterprise.

GERMANY.—At a meeting of Holstein land proprietors, it was resolved to present an address to Austria and Prussia denouncing former address drawn up by Baron Von Scheel Plessen, urgently requesting convention of the Estates and demanding that rights and desires of Schlesnig-Holstein to exist under their own Duke as part of Germany, be granted without restriction. Austrian Government refused to receive addresses, having determined on principle not to accept any manifestation upon question of duchies.

LONDON MONEY MARKET.—Funds continue dull, but no material fluctuation. Discount demand moderate. Rates unchanged.

Rumored new loan for Mexico contemplated. *Times'* city article believes if loan is brought out it will be for the purpose of developing resources of Mexico, and benefitting present bond holders.

LATEST.—*Liverpool, Jan. 21st.*—British news unimportant.

In Spanish Senate, opposition moved amendment to address; declared new electoral law necessary; demanded representation for Antilles and preservation of San Domingo to Spain.

QUEENSTOWN, 22d.—News unimportaut. Breadstuffs dull. Provisions firm. Consols 89⅝ @ 89¾.

UNITED STATES.

THE UNITED STATES AND CANADA.

(From the N. Y. World.)

It is not easy to conceive how anything could be worse managed than our relations with Canada. Passion and petulance take the place of statesmanship; and notwithstanding an honorable disposition to do us justice, both on the part of the Canadian Government and the mother country, we are drifting, almost rushing, towards hostilities.

The St. Albans raid caused natural and just indignation; but the Canadians forthwith called out a large body of militia to watch their frontier and prevent a repetition of the outrage. The judge who discharged the raiders from custody has been suspended from his functions; and at the meeting of the Provincial Parliament at Quebec, the Governor-General, immediately on receiving the answer to the speech from the throne, sent down a message recommending an appropriation to replace the $90,000 given up to the raiders by the Montreal police. The colonial government could not well show more alacrity in offering satisfaction for the affront to our sovereignty, made without its complicity and against its wishes.

But this just and amicable disposition is met, on our side, by an intemperate and undignified exhibition of touchiness and spleen. The acts by which this waspish irascibility is manifested form a long catalogue:—

1. The annoying and expensive passport system ordered by Mr. Seward, which has nearly destroyed the business of the Canadian railways.

2. The notice given by our government for the termination of the convention mutually limiting the naval force on the great lakes.

3. The passage by Congress of a joint resolution for abrogating the Reciprocity Treaty.

4. The reporting to the House of Representatives, by the Committee of Ways and Means (Jan. 18), of a bill for putting the frontier defences in the most efficient condition. Among other appropriations, this bill makes the following: For Fort Wayne, Detroit, $125,000; for Fort Niagara, at the mouth of Niagara river, $50,000; for Fort Ontario, at Oswego, $100,000; for Fort Montgomery, at the outlet of Lake Champlain, $100,000; for the forts at Portland and other places in Maine, $700,000.

5. The resolution offered by the chairman of Foreign relations of the Senate, looking to the abrogation of the stipulation in the Webster-Ashburton treaty for the mutual surrender of fugitives from justice.

6. The bill introduced in the House of Representatives by Mr. Littlejohn (Jan. 19), for the construction of a ship canal around Niagara Falls, "of sufficient dimensions for the passage of gunboats and vessels of war."

These governmental acts, some of them so annoying to Canada, some so detrimental to her prosperity, and some so menacing, are piled upon one another in such quick accumulation as to wear the appearance of a petulant and unthinking readiness to provoke the gravest and most extreme consequences. The termination of the Reciprocity Treaty is the only one of them that should have been adopted at present; and even this should have been so managed as not to look like a measure of retaliation, but of deliberate regard for our commercial and fiscal interests. However unequal may be the operation of this treaty, there is no room to doubt that there may be a great and mutually beneficial intercourse between these thriving countries, having a common boundary of navigable waters. The reasonable thing to be done is to negotiate a new treaty, putting the lake and frontier trade on an equitable basis. It would facilitate such negotiations if we manifested toward our Canadian neighbors a spirit of fairness and moderation. If they suppose we are hostile, and desire their punishment or humiliation, their fears of being overreached will cause them to look with suspicion on the most just and reasonable proffers. As the treaty remains in force a full year after the notice, there is sufficient time to replace it by a new one, before it expires; and if the subject had not been unwisely complicated by things extraneous to its merits, the giving of the notice would have a good effect in expediting new negotiations.

BOSTON, Jan. 31.

It is rumored from Philadelphia that three rebel Peace Commissioners have arrived at City Point en route to Washington.

Some of the rebel press continue to denounce Jeff. Davis and admit that it was to humiliate him that Lee was made General in Chief. They also say that Gen. Kirby Smith has repeatedly refused to obey orders to transfer his troops to the East side of the Mississippi River.

Advices from Army of Potomac state that the weather is bitter cold, and it is feared that the James River will be closed with ice.

Paraguay has formally declared war against Brazil.

BOSTON, Feb. 1.

The long debate in Congress on the proposition to amend the Constitution, abolishing slavery throughout the United States, closed yesterday, and the amendment was carried. Yeas, 119. Nays, 53.

It had previously passed the Senate.

Letters from the Army of the Potomac, dated 29th, say there is nothing to report, except the arrival within the Federal lines of squads of deserters daily, who report stories of want and demoralization prevailing in rebel ranks.

Rumours of peace in connection with the mission of rebel Vice-President Stephens and others, continue to prevail.

Gold 202.

Despatches from Washington state that Vice-President Stephens and Messrs. Hunter and Campbell, Rebel Commissioners, have arrived in that City from City Point to day by special steamer.

Rebel papers state that Sherman is moving through South Carolina with three columns of troops. One column is advancing on Charleston, while the other two are moving by different roads on Branchville.

Advices from Mexico, of late date, state that the French troops have been prettly roughly handled by the Liberals in recent engagements.

Gold has fluctuated considerably to-day. It closed this afternoon at 201.

BOSTON, Feb. 2.

Secretary Seward left Washington yesterday, it is asserted, to meet the Rebel Peace Commissioners at Fortress Monroe.

Large fires occurred in Savannah on the 27th and 28th, during which an open keg of powder was discovered in close proximity to the magazine, in which was stored 30 tons of powder.

Boston 2nd.—Great rejoicing throughout Massachusetts to-day on account of the Constitutional amendment abolishing Slavery, which was signed by President Lincoln yesterday.

Rebel papers say 4,000 bales cotton were burnt at Wilmington on 55th. Several car loads were also burned.

Several Northern States have already ratified the amendment to the U. S. Constitution abolishing slavery.

Information from Sherman states that his army is rapidly moving on Charleston. At last accounts he was within 40 miles of that place.

The main body of the rebel force is concentrated near Charleston.

News from Fort Fisher states that the Federal gunboats had gone up Cape Fear River to bombard the rebel forts near Wilmington.

A Washington despatch says President Lincoln has gone to Fortress Monroe to confer with the rebel Peace Commissioners.

He left this morning.

THE REMARKABLE PROPERTIES of Brown's Bronchial Troches have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits, they have found favor with those who, from Pulmonary, Bronchial, or Asthmatic complaints, require them. For Coughs and Colds they are efficacious.

HOW TO SAVE THE HAIR.—It must be admitted that the great majority of young folks are posssessed of hair enough and to spare; the question then should be, having the hair how to keep it; but I would talk to those as well who have none to spare, or to those whose has become grey. We say, from experience, procure MRS. S. A. ALLEN'S World's Hair Restorer and World's Hair-Dressing and use them, and if our word is not sufficient read the testimony of one of the numerous certificates sent Mrs. Allen, the free will offerings for benefits received. Rev. Daniel T. Wood, Middletown, Orange Co., N. Y., writes, "by the use of Mrs. S. A. Allen's World's Hair Restorer and Hair Dressing the hair has greatly thickened upon my head, and put on a very healthy appearance. The same is true of my daughter; her hair had become thin and came out constantly, until we thought the head would be almost bare; her hair has handsomely thickened up, and also has a healthful appearance." These preparations are sold by all Druggists, Manufactory and Sales Office, 198 and 200 Greenwich St., New York.

THOROUGHLY TESTED. MRS. S. A. ALLEN'S World's Hair Restorer and Zylobalsamum has stood the test for twenty years. Millions of bottles sold every year. It is not a dye, and differs from all other preparations, as it contains the specific almost which is the life of the hair. They are unequalled for restoring, invigorating, beautifying, and dressing, the hair, rendering it soft, silky and glossy. They cleanse the hair and impart to it a most delightfuly fragrance. Every Druggist sells them.
