The English political news is entirely centred in the Parliamentary elections. Returns to the evening robbed in an open square at five o'clock in the morof the 12th show the election of 184 Liberals and 102 Conservatives. The Liberals have lost 18 seats and robbers captured, but they had to advertise to find gained 24, and the indications are that the Government will have increased strength in the New Parlia ment. Four members of the Administration had been defeated, viz: Lord Bury at Dover, Col. White at Kidderminster, Lord Paget at Litchfield, and Mr. F. Peel at Bury. As a rule the contest had gone off satisfactorily and with very little rioting. most brutal and revolting assaults. It behooves the they pay, follows the amount paid. Numerous elections were progressing when the "Peruvian" sailed, and it would be another week before the county contests were decided.

The following is a duplicate of the dispatch to the Associated Press, forwarded by the " City of London," which sailed from Liverpool on the 12th and Queenstown 13th inst., for New York.

The Parliamentary elections commenced on the 11th. One hundred and one members were returned on that day, 30 of whom were Conservatives and 71 Liberals. The contest so far is favorable to the Liberals, and the indicationsare that Lord Palmerston will have an increased majority in the new House. The Conservative journals are not disneartened by the first day's cord has occurred, though with no fatal results to the results-are still hopeful of success. EXECUTION OF A PRIEST. - The Swedish priest Lindback has been convicted of poisoning people to become burdens on his parish, and that it was for the purpose of relieving it of the burden of their presence that he became guilty of the series of crimes. INCREASE OF CRIME. - A N. Y. paper says garroting, ded. It is believed there is a fault or break in the that most infamous mode of highway robbery, has been revived in our large cities, and is practiced with first year's salary to our Missionary now in India, all astonishing boldness. One man was attacked and ning. The outrage was seen by the police, and the the victim, and when asked why he did not enter a complaint, he replied that he was thankful to escape with his life from a city where he could be robbed in broad daylight in a public' thoroughfare. There has been an alarming increase of crime of every kind, from hotel-thieves and confidence-operators to the public to redouble caution in this particular; and to parents we would say, Be very cautious how your little girls are suffered to stray away from immediate protection. The dailies have within a week published the names of five children, whose ages were from six to ten who have been the victims of carelessness on the part of their guardians at pic-nics, or even at their homes in cities.

The Boston Recorder has the following : Cases of outrageous brutality towards young girls are producing a terrible feeling of insecurity throughout the land.
