

On Tuesday at 2 o'clock, the citizens of Saint John, and not a few distinguished persons from other cities, including His Excellency, the Lieutenant Governor, met to pay their last tribute of respect to their late beloved and respected Chief Justice. Business was completely suspended, and stores and warehouses closed. The streets adjacent to the Chief Justice's late residence, in Germain street, and all along the route which the funeral procession was expected to take, were lined or dotted with crowds of men, women and children, anxious to get a sight of the afflicting pageant. At about ten minutes past two o'clock, the procession moved from the late residence of the deceased, on to Queen street, turning down that street to Prince William, and thence by King street to Charlotte, and the rear entrance of Trinity Church according to the following

Trustees, Masters and Scholars of the Grammar School, Deputy Sheriff and Constables, Magistrates of the City and County, The Maynard Corporation, Sixty of Trinity Church, the Hon. J. W. Weldon, Physicians of the Deceased, Clergy of the Diocese.	Pall Bearer.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------

Chief Mourners.  
 His Excellency the Lieutenant Governor and Aides-de-camp,  
 The Executive Council,  
 The Barristers in their Gowns and Bands,  
 The Attorneys wearing mourning badges,  
 Law Students,  
 Officers of the Bible Society, including Clergymen of the City and neighborhood,  
 Officers of the Garrison,  
 Citizens,  
 Private Carriages,  
 Coaches.

The Chief Mourners were the Honorable Neville Parker, Master of the Rolls, brother, and Dr. Parker, nephew of the deceased, Robert F. Hazen, Esq., Beverley Robinson, Esq., Provincial Treasurer, and John M. Robinson, Esq., Barrister-at-Law. The pall-bearers were Hon. Justice of the Peace, the Hon. J. W. Weldon, Q. C., Charles Drury, Esq., Registrar, Hon. R. L. Hazen, Q. C., Recorder, Hon. W. B. Kinmer, M. L. C., Judge of Probates, and William Jack, Esq., Q. C., Advocate-General.

The procession was very long, occupying part of Prince William street, and the whole of King street, between Prince William and Charlotte, and occupying fifteen minutes in passing. It was quite touching to see the little boys of the Grammar School two deep, leading the procession. The long line of citizens, who brought up the rear, was followed by another long line of clergymen.

When the head of the procession reached the entrance to the Church, it halted, and formed into two lines, between which the Body was borne to the Church. The procession formed for entering the Church comprised a long line, Hon. Gray, D. D., Rector of Trinity Church, the Rev. George N. McNeill, Curate, Drs. Botford and Bayard, Physicians, the Pall Bearers, the Body, the Mourners.

The body of the Church, and also the galleries, were densely crowded, and of course only a small portion of the procession could obtain admission. As it moved into the aisle, the "Dead March in Saul" was played, and seemed to touch a deep chord in hearts already sad. The service for the burial of the dead was most impressively read by the Rector. At the close of the service, the choir sang the Hymn beginning,

The righteous souls that take their flight,  
 Far from this world of pain,  
 In God's paternal bosom lie,  
 For ever shall remain.

Professor Bissell presided at the organ.

On leaving the Church, the mourners, pall-bearers, and others followed the procession walking in single file in carriages, the body of citizens walking in the rear. The remains of the Chief Justice were interred in the old Episcopal Ground, where the Rev. G. N. McNeill, and the Rev. Wm. Armstrong read the usual prayers and lessons. The entire proceedings were carried out very quietly, and with the solemnity becoming the occasion.

The day was clear and frosty. The very slight haze which rested on the city and the adjacent hills, the flags occasionally seen, displayed at half-mast, the closed shutters and the slow procession, imparted to the whole city a gloomy, lugubrious and solemn aspect. It was as if man and nature joined in a sympathetic tribute to the late distinguished Chief Justice.

When the river closed, some ten days ago, sixty millions of shingles from Aroostook and the Upper St. John were lying at Woodstock for transportation to the States. *The Sentinel* says:—"Formerly these shingles were shipped at Fredericton; they will now be carried to Rimouski Station, and thence over the railroad to St. Andrews. This is a practical endorsement of the argument often used, that if we had our branch railroad, the shingles would be regularly shipped here in the cars, instead of going to Fredericton, and a very considerable item of revenue would accrue therefrom. At Woodstock, a simple outlay in transportation would be important here. There are now over sixty millions of shingles bound down river; allowing one cent a thousand as the expense of transshipment, it will give \$600."—*Telegraph*.

In Carleton County, as in other parts of the Province, the Americans have been buying largely of farm produce, beef, &c. A correspondent of the *Marine* writes:—"Men from the States are now and have been buying all the articles of domestic produce, and buying up the articles above named, except apples, and sending them over the Saint Andrews railroad en route for Boston. Beef was bought alive and driven on foot to Bangor, and there shipped to Boston. The money that has been paid out in this county for cattle and sheep, horses, hogs, butter, eggs, and other articles for the American markets, need not be counted by thousands, but by tens of thousands."—*Id.*

A sad accident occurred at Clyde on Tuesday morning. A son of Frederick H. Hilton, Esq., of Yarmouth, aged fifteen years, accompanied by a more Mr. William Greenwood, of Clyde, went on a shooting excursion. In passing through a thicket, young Hilton unfortunately stumbled over a rock, causing him to go on his head. He was killed on the spot, and the gun and perceiving that his companion was falling, Greenwood hastened to the spot, but Hilton's life was extinct—the back of his head being blown completely off. His remains were conveyed to Yarmouth.—*Yarmouth Herald*.

**JAMAICA.**—The uprising of negroes in the Island of Jamaica has been suppressed, not however until awful cruelties were perpetrated by the rebels. A day of late advice the revolt was nearly suppressed, though frightful stories continued to be told of the negro atrocities, and one read eight miles long was said to be impassable from the collection of dead bodies. A late account from Kingston says:—"There is one continued scene of hanging day by day, and it becomes a matter for consideration whether the burial of so many people in the town is not likely to produce some serious epidemic here. Already the effluvia arising from the graves in which these bodies are deposited are doing up the entire town."

*The Colonial Standard* gives the following account of the character of the outbreak:—"The documents that have been discovered, the confessions of the rebels, and other authentic proofs show the preconcerted object of the rebels to have been the indiscriminate murder of every white and colored man on the island, and the confiscation of all property for the benefit of the blacks. A non-discriminated programme was to be conceived, and colored and white men were to be killed first, and children afterwards, but the white and coloured women were to be preserved to be used as servants and for the pleasure of their captors. No lands or buildings were to be destroyed, and machinery was to be only temporarily destroyed after it served its purpose afterwards without much trouble. After the accomplishment of this plot, these lands, buildings and machinery would be divided among the rebels, and their preservation was decided upon. Mr. George William Jordan, and captain of the militia were to proceed to England to delegates, to obtain the sanction of Her Majesty to the new state of things. The manner in which the rebels conducted themselves, bears out this plan thoroughly, and the consequences and system with which they proceeded, prove the force of the organization under which they acted."

**THE TELEGRAPH TO AMERICA.**—The Atlantic Telegraph Company are likely to be left in the lurch. Intelligence has been lately received from the United States, to the effect that the Russian American

graph has been laid from New Westminster to Port St. James, on the Fraser River, and that Mr. Conroy, the engineer, is progressing rapidly and successfully. The cable line, which is to be laid from Lake before the close of the winter. Messrs. Henley & Co., of London, are manufacturing the wire for the main line, and 1,400 miles will be soon in Colonel Bulkley's hands, at Sitka, independently of 1,200 miles of wire which has already been supplied by a New York firm. The cable line is to cross Behring's Straits, has been ordered in England for forty terpises, according to the latest advice, bids for to be successfully and triumphantly carried out to final completion at a much earlier day than was originally anticipated. — *Athenaeum*.

The Spanish Government is taking quite energetic measures against the slave-trade. The number of cruises sent out to the coast of the Guen has issued a decree of much minuteness on the subject, and only civiliza-tions which now tolerate slavery are Spain and Brazil. The Emperor of Brazil is an intelligent and large-minded ruler, and is asserted, by those who ought to know, to be at heart an emancipationist. Leading statesmen in that country have urged the abolition of slavery, at intervals, for forty years, and it would be no surprising thing if the example of this country, which is well known his Brazilian Majesty well considers, should at any time be followed, and the curse of slavery removed from all America.

The Empress Eugenie is having a new hotel built for her mother, the Countess Montijo, at the corner of the Champs Elysees in the Rue de l'Evoye. The Countess Montijo intends to pass a part of the winter in this residence. She is now at St. Cloud with her daughter.

The National Council of Switzerland, in its revision of the constitution, has proclaimed religious liberty to the fullest extent. The liberty of conscience is set down as an inviolable right, and the free exercise of religion is to be extended to all.

**BRITISH AND FOREIGN.**

**ARRIVAL OF THE "STEAMSHIP NOVA SCOTIA."**

New York, Nov. 28.

Steamship "Nova Scotia" arrived at Portland this p.m., with Liverpool dates to 17th.

The London Star says there is little doubt that Earl Russell is determined to submit a Reform bill to the House of Commons.

The weather here says that the cold weather has no effect on the cattle disease, frost and rain rather aggravating the disease.

Stephens, the Fenian Head Centre, has been again removed for still further examination.

Martin Higgins, reported to be another Head Centre, has been arrested at Tuam and committed for trial.

The Dublin Evening Mail states that a person who was despatched from New York in September had arrived with credentials to appoint another Head Centre in place of Stephens; that he accomplished his mission and returned. The name of the new Head Centre is not ascertained.

The Times says the general wish of offending persons in Liverpool seems to be that England should in conjunction with France and America take prompt steps to put a permanent stop to the proceedings of Spain in South America, and says that measures in support of the Spanish Government have been taken in London, Manchester, Glasgow, and other leading centres.

The Daily News remarks that the arbitrary conduct of Spain must soon occupy the attention of the great powers of Europe and America. Spain must be taught that her practice of lvering blackmail must come to an end.

The Daily News is indignant with the tone of the Military despatches and newspaper correspondence from Jamaica, which, it thinks, proves that the ferocity we denounce in savages can take possession of English herds, and mercy and justice can be forgotten by British officers as thoroughly as by Indians or Coxes.

The Times says the authorities of Jamaica have acted with commendable promptness—the chief rebels having been tried by martial law and at once executed.

The Secretary of State for India has received the following announcement:—"Sattora, 15th.—Colonel Bruce signed a treaty of peace with Bhootan on the public durbar yesterday."

The Emperor of Austria will shortly be crowned King of Hungary and Croatia.

The French army is to be reduced by 40,000 men. The cholera is still at Naples. There is none at Rome.

The London Star says the new diplomatic correspondence is chiefly remarkable for the withdrawal by Mr. Armes of all allusion to the secret of the Fennian organization. Breadstuffs declining. Provisions less firm. Consols 89½ for money. U. S. five-twenties 64½ @ 64.

English Government has detained the West India Company's steamer, on the ground that the commercial houses to consider steps requisite for the protection of British interests in Chili.

Copper had again risen to ten pounds.

**ARRIVAL OF THE "SCOTIA."**

New York, Nov. 29.

Steamship Scotia, with dates to 19th, has arrived. No news of any importance, but what is covered by the "Nova Scotia."

Stephens, the Fenian Head Centre, when committed for trial, made a speech, repudiating all British law in Ireland, and expressed readiness to receive any punishment inflicted upon him. The documents found in his house disclosed all the secrets of the Fenian organization. Breadstuffs declining. Provisions firm. Consols 89½ @ 89 3-8 for money. Gold 148.

**UNITED STATES.**

**SUMMARY OF NEWS.**

Of the seven Southern States lately in rebellion for which President Johnson appointed Provisional Governors, all excepting Texas have held their State Conventions. Four of these, namely, Mississippi, Alabama, North Carolina, and Florida, have declared their secession ordinances null and void, and two of them—South Carolina and Georgia—have merely repealed them. The entire six have abolished slavery.

The Mississippi Legislature has partly revised its refusal to allow negro testimony in State courts against whites. The freedmen have been decreed competent witnesses by a vote of forty-seven to forty-three.

The Florida State Convention adjourned on the 20th inst., after having annulled the ordinance of secession, repudiated the rebel war debt, abolished slavery, and declared that color shall not be a disqualification in a court of law, where colored persons are concerned.

**MONS. ANDREWS' TRIAL.**—Three men, Winder, Duncan, and Moten, assistants of Wirtz in his infamous practices—now remain to be dealt with, and much interest is manifested as to whether they will be tried. Wirtz, before his execution, informed the Government where his official books and papers were to be obtained, and some of the documents have been sent, and it is believed that these documents held in them will determine the question.

**THE RAFT.**—Two men were taken from a raft lately off Cape Hatteras, who said they were from the Republic. They had been eight days without food or water. Fourteen persons had started on the raft, but after another week they had thrown themselves into the sea, or had been killed, or some of the raft they were so weak they were, or had died of their sufferings, till only two remained.

**THE EARTHQUAKE IN SAN FRANCISCO.**—Of the effects of the severe earthquake shocks experienced in San Francisco on the 8th and 9th of last month, it is learned that there were six distinct disturbances of the earth, the first five occurring during the afternoon and evening of the 8th, and the sixth and last, at four, seven, and ten o'clock, and the sixth and last in the forenoon of the 9th. The water front of the city, comprising the main business streets, which are to a considerable extent located on made ground, suffered the most, nearly all the buildings here being more or less injured, and some have been thrown down and completely ruined. The back and higher part of the town, where all the best private residences are situated, suffered only in the cracking of plastering and walls, breaking of glass, etc. In the southern part of the city the oscillations were so great that extensive fissures were made in the earth. The same earthquake was felt with more or less severity at various places throughout the State of California.

**BONDS FORGOTTEN.**—The Vernon Street Hotel, 100 Insurance Company's street, lying by the side of

solicited gifts come in daily, varying from small amounts to the most generous. The day after the late dedication of the additional building purchased, two ladies, interested in the work, received a contribution from an unknown gentleman, to furnish it entire at his expense, including a furnace and coal for the winter.

The Baldwin Place Home for Little Wanderers is progressing finely. Seven gentlemen gave \$5,000 each, to purchase and fit up the old Baptist church, now occupied by more than a hundred inmates, besides many who come in for parting care and instruction. A large number have already been provided with homes.

The new officer, "High Constable" King, is making efforts to enforce the Liquor and Sabbath laws in the State, and especially in Boston, where both are fearfully violated. "Sunday Evening Concerts," in a theatre, with hardly the pretence of any "sacred" character, and Oratorios in the Music Hall, with rehearsals and sale of tickets during the day, are fast assuiling the Puritan city to less scrupulous practices.

**LOOK OUT FOR YOUR VALISES.**—A new enterprise has been started by the professional thieves who "work" the railroad cars. When a train arrives at a stopping place, these fellows are on the watch for valises or carpet bags lying on the seats or hanging on the hooks, but not under the eyes of their owners. When the cars stop, they seize them hastily, as if they were going to get a drink of water, and jump off the car. It is evidently a new dodge of the thieves' craft, and will be heard of all over the country.

**Rev. Emerson Thompson publishes a card**

Boston, in which he congratulates the Temperance party on the results of the election. He says that full thirty of the forty Senators are Temperance men, and the House will stand in about the same proportion. If this be so, the best thing they can do on assembling will be to give a joint pledge that they will not drink spirituous or intoxicating liquors during the session. Let them be known by their works and their fruits. We should like, says the *Newburyport Herald*, to see our legislature when three quarters of the members would abstain from rum.

BOSTON, Nov. 26.

MEMPHIS, Tenn. 27th.—A collision occurred last night on the Mississippi, seven miles above Helena, between the Niagara and Post Boy. The Niagara sank in twenty feet water. One hundred of the deck passengers, mostly discharged colored soldiers, were drowned. The cabin passengers and crew were saved.

N. Y., 26th.—The Fenian flag was hoisted yesterday over the Hotel Quatre in Union Square. They pay \$1000 per month for the buildings.

A letter from the Andersonville stockade, Georgia, dated 31st ult., shows some further fearful revelations of its horrors and evidence of the inhumanities practiced there and details of its repulsiveness.

BOSTON, Nov. 27.

Intelligence from the Rio Grande on the following:—*The Matamoros Ranchero* of the 10th inst. says, the firing upon the steamer *Antonio* from the north side of the Rio Grande on Tuesday last, was one of the most dastardly outrages perpetrated on the river since the *Jackson* was shot. One hundred element of Marines and two field pieces, was forcing her way up the river under a heavy fire by the combined forces of the Liberals, when she grounded seven miles below the City, and while engaged with the enemy on the Mexican side, a furious fire at long range was opened from the American shore, which effected destructive in wounding two Marines. The Liberals on the north bank were dressed in U. S. Federal uniforms. The French commander refrained from returning the fire from Texas bank.

Gold 147½.

BOSTON, Nov. 28.

No credence whatever is given in official circles to the published rumor of a collision between our forces and Maximilian's troops on the Rio Grande.

A mutiny occurred in the 6th Regt. of colored troops at Jacksonville, Florida, in quelling which, the Lieutenant, S. 589, S. Lennanston, 5, 931; T. C. Atherton, the mutineers wounded.

NEW ORLEANS, 27th.—*The Times* has advice from Vera Cruz to the 14th inst., which say everything is unsettled in Mexico; that general distrust prevails; the army is paralyzed; and that Maximilian's power is daily lessening. Puebla has been selected as the general furnishing quarters for the Imperial army, and is strongly garrisoned with Austrians. The roads are unsafe, robberies being hourly committed, and altogether the country is in a deplorable state.

**DOMESTIC MARKETS**—Flour firm; wheat quiet and steady; corn unquoted; provisions dull and heavy; whiskey dull.

Gold 148¾.

**IT WORKS TO PERFECTION.**—MRS. WINSLOW'S SOOTHING SYRUP for children, teething is perfectly harmless. It produces natural, quiet sleep, by relieving the child from pain, and the little cherub awakes as "bright as a button." It cures wind colic, and regulates the bowels—gives rest to the mother and health to the child. Offices 48 Day street, New York, and 205 High Holborn, London, England.

**BROWN'S BRONCHIAL TROCHES**, for Coughs, Colds, Pulmonary and Asthmatic Disorders, have proved their efficacy by a test of many years, and have received testimonials from eminent men who have used them.

"RELIGIOUS INTELLIGENCER" FOREIGN MISSION FUND.

We will acknowledge, as soon as received, under this heading, all monies forwarded to us for the Foreign Mission Society, and remit the same to the Treasurer.

George F. Atherton, Fredereton. . . . . \$5.00

Nov. 27.

*Receipts for the "Religious Intelligencer" to Nov. 27.*

Subscribers will please send that their money is correctly acknowledged. The whole number of that paper to which they pay, follows the amount paid.

From T. C. Atherton, Esq., for the following persons:—

NEW BURKWOOD.—D. L. Grant, \$3, 631; A. Ingram, 3, 931; J. N. Lennentine, 2, 931; A. D. Brooks, 2, 931; S. Fox, 3, 631; J. N. Grant, 3, 631; A. G. Brooks, 3, 631; P. S. Hatley, 3, 589; S. Lennanston, 5, 931; T. C. Atherton, 5, 931.

Daniel Logan, 1, 424; John Burpee, 2, 473; H. Douglas, 4, 640; Anne Hartley (s), 1, 440; Jonathan (s), 2, 471; James McAlpine, 1, 635; J. W. Rupert, 2, 658; W. Erb, 1, 638.

NEW SCOTIA.—Wm. Bailfield, 2, 664; Capt. Robert Robins, 2, 694.

**AGENTS.**—Mr. George Wright, of Little River, Arkansas, has kindly consented to act as Agent for the INTELLIGENCER in that place. He is therefore authorized to receive subscriptions there.

**A Union Prayer Meeting** is held daily (Sundays excepted), at the upper room of the German Street Sabbath School, commencing at 12 o'clock, and continued for half an hour or three quarters.

**AGENTS.**—Mr. Elijah Lucido, and Mr. George S. Wright, have kindly consented to receive Subscriptions for this paper at Andover and Tobique. Payments may be made to them for us.

**DR. RIDGE'S FOOD FOR INFANTS AND INVALIDS**

is so carefully and scientifically prepared that it is immeasurably superior to Arrowroot, Tapioca, Starch, Bread, Blaquet, Corn Flour, or any other kind of farinaceous food for infants, not alone from its purity, strength, and great nutritive properties, but also from having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible. It cannot cause Acidity or Indigestion, nor any other ailment. From the nature of its composition is exactly adapted to all conditions of the stomach. It can be made ready for use without trouble in less than three minutes. Mixed in Boof Tea, Milk, or any other fluid, the PATENT FOOD is pre-eminently suited to Invalids, from its wholesome and strengthening qualities. It is a real blessing, and from its remarkable cheapness accessible to all. For sale only by

GEO. A. HAYARD,  
Successor to JOSEPH W. ALLEXER,

No 7 Market square.
