

The Government professes to intend to muster men out, yet under cover of night they send new companies to the frontier. Last night four companies arrived at this city; this morning there were no signs of them. The authorities refuse to tell where they went. Many believe that the Government is endeavoring to make Americans believe they are disbanding the troops while secretly calling out more."

News from the city of Mexico to the 19th ultimo, says Gen. Orzategui has proclaimed himself President of the Mexican Republic in virtue of the constitution of 1867, at the town of Cuicacoan. The assassins of the Belgian envoy were being vigorously pursued by the French police.

THE REMARKABLE PROPERTIES OF BROWN'S BRONCHIAL TROCHES have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their merits, they have found favor with those, who, from Pulmonary, Bronchial, or Asthmatic complaints require them. For Coughs, Colds, Bronchitis, Asthma, and Influenza, they are entirely efficacious, removing all obstructions, and increasing at once the power and flexibility of the voice.

REV. SYLVANUS COBB, thus writes in the *Boston Christian Freeman* :—

Mrs. WINSTON'S SOOTHING SYRUP.—"We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.

DR. RIDGE'S FOOD FOR INFANTS AND INVALIDS is so carefully and scientifically prepared that it is eminently superior to Arrowroot, Sago, Tapioca, Bread, Biscuits, &c., and other food, and is so easily digested for infants, not alone from its purity, strength, and nourishing properties, but also from its having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible.
