

Poetry.

PRAYER FOR GUIDANCE.

Great God! inspire both love and awe,
And let my spirit be
Bathed in the holy atmosphere
Of Jesus and of Thee.

In thy great temple, let me stand,
And in thy kingdom shine—
Remove the blindness of self-will,
And seal me to be thine.

Teach me to trace Emmanuel's steps,
His precepts to fulfill,
Seeking continuance in His love,
By practising His will.

And may the love of the Great God,
Drown pride and self-conceit,
And let it be my privilege
To sit at Jesus' feet.

And teach my feet to love those paths
Where 'tis my lot to go,
And in the doing of Thy will,
Give me Thy peace to know:

That so intent Thy pardoning love
And mercy to enjoy,
I make a holy, useful life,
In seeking Thee employ.

Miscellaneous.

SPEAK GENTLY TO EACH OTHER.

"Please to speak to me a minute, sister."
"Oh! I don't disturb me; I'm reading," was the answer.

"But just hold this stick, won't you, while I drive this pin through?"

"I can't now, I want to finish this story," said I, emphatically; and my little brother turned away, with a disappointed look, in search of somebody else to assist him.

He was a bright boy of ten years, and my only brother. He had been visiting a young friend, and had seen a windmill, and as soon as he came home, his energies were all employed in making a small one; for he was always trying to make toys, wheelbarrows, kites, and all sorts of things such as boys delight in. He had worked patiently all the morning with saw and jack-knife, and now it needed only putting together to complete it, and his only sister had refused to assist him, and he had gone away with his young heart saddened.

I thought of all this in the fifteen minutes after he left, and my boy gave me no pleasure. It was not intentional unkindness, only thoughtlessness, for I loved my brother, and was generally kind to him; still I had refused to help him. I would have gone after him, and afforded the assistance he needed, but I knew he had found some one else. Yet I had neglected an opportunity of gladdening a childish heart.

In half an hour he came bounding into the house, exclaiming, "Come, Mary, I've got it up; just see how it goes!"

His tones were joyous, and I saw that he had forgotten my petulance; so I determined to atone by unusual kindness. I went with him, and, sure enough, on the roof of the wood-house was fastened a miniature windmill, and the arms were whirling around fast enough to suit any boy. I praised the windmill, and my little brother's ingenuity, and he seemed happy, and entirely forgetful of my unkind word; and I resolved, as I had many times before, to be always loving and gentle.

A few days passed by, and the shadow of a great sorrow darkened our dwelling. The joyous laugh and noisy glee were hushed, and our merry boy lay in a darkened room, with anxious faces around him, his cheeks flushed, and his eyes unnaturally bright. Sometimes his temples would moisten, and his muscles relax, and then hope would come into our hearts and our eyes would fill with thankful tears. It was in one of these cheerful calms in his disease that he heard the noise of his little wheel, and said, "I hear my windmill!"

"Does it make your head ache," I asked. "Shall we take it down?"

"Oh no," replied he. "It seems as if I were out of doors, and it makes me feel better."

He mused a moment and then added, "Don't you remember, Mary, that I wanted you to help me fix it, and you were reading and told me you could not? But it did not make any difference, for mamma helped me."

Oh, how sadly these words fell upon my ear, and what bitter memories they awakened!

How I repented as I kissed little Frank's forehead, that I had ever spoken unkind to him! Hours of sorrow went by, and we watched his countenance grow fainter and fainter, and anguish deeper, until, one week from the morning on which he spoke of his childish sport, he closed his eyes once so sparkling, and folded his hands over his pulseless heart.

He sleeps now in the grave, and home is desolate; but his little windmill, the work of his busy hands, is still swinging in the breeze, just where he placed it, upon the roof of the old wood-shed; and every time I see the tiny arms revolving, I remember the lost little Frank, and I remember also the thoughtless, unkind words.

HOW MUCH MAKES A MAN RICH.

"To be rich," said Mr. Marcy, formerly Secretary of State, "requires only a satisfactory state of mind. One man may be rich with a hundred dollars, while another, in the possession of millions, may think himself poor; and as the necessities of life are enjoyed by each, it is evident that the man who is best satisfied with his possessions is the richer."

To illustrate this idea, Mr. Marcy related the following anecdote: "While I was Governor of the State of New York," said he, "I was called upon one morning, at my office, by a rough specimen of a backwoodsman, who stalked in and commenced conversation by inquiring 'if this was Mr. Marcy?'"

"I replied that that was my name."

"Bill Marcy?" said he. I nodded assent.

"Used to live in Southport, didn't ye?"

"I answered in the affirmative, and began to feel a little curious to know who my visitor was, and what he was driving at."

"That's what I told 'em," cried the backwoodsman, bringing his hand down on his thigh with tremendous force; "I told 'em you was the same Bill Marcy who used to live in Southport, but they wouldn't believe it, and I promised the next time I came to Albany to come and see you, and find out for sartin. Why, you know me, don't you, Bill?"

"I didn't exactly like to ignore his acquaintance altogether, but for the life of me, I couldn't recollect ever having seen him before; and so I replied that he had a familiar countenance, but that I was not able to call him by name."

"My name is Jack Smith," answered the backwoodsman, "and we used to go to school together, thirty years ago, in the little red school-house in old Southport. Well, times have changed since then, and you have become a great man, and got rich, I suppose?"

"I shook my head, and was going to contradict that impression, when he broke in:

"Oh! yes, you are! I know you are rich; no use

denying it. You was Comptroller for a long time; and the next time we heard of you, you were Governor. You must have a heap of money, and I am glad of it—glad to see you getting along so smart. You was always a smart lad at school, and I know that you would come to something."

"I thanked him for his good wishes and opinion, but told him that political life did not pay so well as he imagined. 'I suppose,' said I, 'fortune has smiled upon you since you left Southport?'"

"Oh! yes," said he; "I ain't got nothing to complain of. I must say I've got along right smart. You see, shortly after you left Southport, our whole family moved up into Vermont, and put right into the woods, and I reckon our family cut down more trees and cleared more land than any other in the whole State."

"And so you have made a good thing of it. How much do you consider yourself worth?" I asked, feeling a little curious to know what he considered a fortune, as he seemed to be so well satisfied with his.

"Well," he replied, "I don't know exactly how much I am worth, but I think (straightening himself up), if all my debts were paid, I should be worth three hundred dollars clean cash." And he was rich, for he was satisfied."

DEAR, DIRTY, DAMAGING.

Sitting in the parlor of a good brother not long since, we were surprised at his remarks on the use of tobacco. After raising a cloud of smoke, he leaned back in his chair, held out his cigar between his thumb and little finger in the most approved style, and said:

"I commenced the use of tobacco many years ago, and it has now got to be a costly habit. I use three cigars a day, and they cost five cents apiece. But the habit is formed, and I cannot quit it."

Here was food for reflection. Fifteen cents a day—fifty-four dollars and seventy-five cents a year for cigars; and I observed that he chewed the weed between times, which would cost him at a low calculation, twenty dollars more, making the tobacco bill seventy-five dollars per year. In twenty years he will have spent FIFTY HUNDRED DOLLARS FOR TOBACCO! Rather costly indeed. We doubt if he pays the half of this sum to the Lord's cause.

But this is not all. He—and he is no worse than nine-tenths of the consumers of the filthy stuff—was not very careful as to where he smoked or spit! It deadens the senses, weakens the body, debases the mind, whets the appetite for other and stronger stimulants, and cultivates the habits and manners of underground saloons. A tobacco consumer does not think it a breach of manners to smoke and spit in a coach filled with ladies and gentlemen, in a car even though the conductor has a printed card right under his nose forbidding it, in church, though the clean carpets were put there for quite a different purpose than that of being flooded with tobacco juice. It is his tobacco! He paid for it! Can he not do what he pleases with his own?

It injures the system. The best physicians agree that it is a great nourisher, and in many instances the producer of disease. Superintendents of lunatic asylums, who seek to ascertain the causes of insanity, proclaim that the injuries to the mind, caused by tobacco, are neither few nor trifling. But what of all this? They have contracted the habit, and it would be a hard matter to get it up. The habit is formed, is the reason given in nine cases out of ten for continuing the practice, even when men admit it to be useless and injurious. The same reason is given by the drunkard, the thief, the gambler, and the common neglecter of religion. The habit is formed! Indeed! And does that justify any one in continuing the habit? Then why preach repentance to the sinner? Why tell the drunkard he must give up his cups to save his soul, if he formed, though hard to break up, is a justifiable apology for continuing a vice practice?

A few use it as a medicine; a medicine that must be taken before you get sick, and after you get well so long as you live! What a sovereign remedy! It reminds us of a freemason who was proclaiming the virtues and honors of the "ancient institution" to a large assembly. This done, he descended on the evils, vices, wretchedness of human society. He then asked in triumph, "If society is so debased and wicked with all the restraining, elevating, and purifying influences of Masonry, what would it be if the institution was swept out of existence? So our invalids who prolong their wretched existence for a few years by the ever-increasing use of the precious medicine, might ask, if mankind are suffering so much from the thousand and one diseases that prey upon them, even when they are permitted to use this all-powerful remedy, what would become of them if they were deprived of their medicine?—Religious Telescope.

MAKE YOUR MARK.

In the quarries should you toil,
Make your mark;
Do you delve upon the soil,
Make your mark;
In whatever place you go,
Make your mark;
In whatever place you stand,
Moving swift or moving slow—
With a firm but honest hand,
Make your mark;

Life is fleeting as a shade—
Make your mark;
Marks of some kind must be made—
Make your mark;
Make it while the arm is strong,
In the golden hours of youth;
Never make it wrong;
Make it with the stamp of Truth—
Make your mark.

LOVE FOR MOTHER AND JESUS.—A little boy once had a canary bird which he loved very much. His mother was taken ill, and the singing of the pretty bird gave her great annoyance in her weakness. The boy was told by the mother that his little bird gave her pain by its singing. He went at once and gave the bird away to his cousin, and then came home and told his mother that the canary would not disturb her any more, for he had given it to his cousin.

"But did you not love it very much?" said the mother to him; "how could you part with it?"

"It is true I loved the bird, mother," he replied, "but I love you much more. I could not really love anything that gave you pain."

Now, you must love God as this little boy loved his mother, more than you love anything else; and also everything that grieves him you must give up, however you may like it.

"You love me," said his mother to her little child as she leaned over him in bed, "don't you?" "Yes," said the half-sleeping child, "but I love God much more."

So we are to love parents, brothers, sisters, friends, and everything that God has made; but we must love him much more, supremely—with all our hearts.

NICHOLS'S Syrup of Hypophosphites; Richardson's Rubber Syring; Ellis' Citrate of Magnesia; Bogle's Hair Dye; Colored Wax Tapers. Just received by C. P. CLARKE, 53 King Street.

TOOTHACHE.—Just received, a full supply of Buxton's Nerve-Syrup, for destroying the sensitive Nerves of the Teeth, and inducing a permanent cure. Buxton's Nerve-Syrup, for destroying the sensitive Nerves of the Teeth, and inducing a permanent cure. THE GREAT NEW ENGLAND REMEDY!

DR. J. W. POLAND'S WHITE PINE COMPOUND!
It was early in the spring of 1855 that this Compound was originated. A member of my family was afflicted with an irritation of the throat, attended with a disagreeable cough. I had for some months previous thought that a preparation, having for its basis the inside bark of white pine, might be so compounded as to be very useful in the case of the throat and lungs. To test the value of it, I added to it, I compounded a small quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided, and a speedy cure was effected. Soon after this, I sent some much larger quantities to a friend who had been suffering for some weeks from a bad cough, occasioned by a sudden cold, and had raised much streaked with blood. She soon found relief, and sent for more. She took about ten ounces of it, and got well. S. B. Clark, Esq., editor of the Manchester Daily Mirror, made a trial of the same preparation in the case of a severe cold, and was cured immediately. He was so highly pleased with the results, and so confident of success attending its sales, if placed before the public, that he immediately agreed to give it a name and send it abroad to benefit the suffering. In November, 1855, I first advertised it under the name of White Pine Compound. In two years from that time it had been wholesaled in Manchester alone one hundred dollars worth, where it took the lead of all the cough remedies in the market, and it is now sold in every part of the Kingdom. There is good reason for all this. It is very soothing and healing in the nature, is warming to the stomach, and pleasant to the taste, and is exceedingly easy to take. It is a remedy for kidney complaint, the White Pine Compound stands unrivalled. It was not originated for that purpose; but a person in using it for a cough, was so cured of his complaint, but also cured of a kidney difficulty of ten years' standing. Since that accidental discovery, many thousands have used it for the same complaint, and have been completely cured.

The above was written by Dr. Poland in 1859. Since then, as in Manchester, the White Pine Compound has taken the lead of all the cough remedies, and is now sold in every part of the Kingdom. There is good reason for all this. It is very soothing and healing in the nature, is warming to the stomach, and pleasant to the taste, and is exceedingly easy to take. It is a remedy for kidney complaint, the White Pine Compound stands unrivalled. The above was written by Dr. Poland in 1859. Since then, as in Manchester, the White Pine Compound has taken the lead of all the cough remedies, and is now sold in every part of the Kingdom. There is good reason for all this. It is very soothing and healing in the nature, is warming to the stomach, and pleasant to the taste, and is exceedingly easy to take. It is a remedy for kidney complaint, the White Pine Compound stands unrivalled. It was not originated for that purpose; but a person in using it for a cough, was so cured of his complaint, but also cured of a kidney difficulty of ten years' standing. Since that accidental discovery, many thousands have used it for the same complaint, and have been completely cured.
