This large religious body, united together, probabunder one head, representing the Bishop of Rome, will possess a power and influence much more formidable than any religious body now possesses, owing to our political divisions; and, although, under our free institutions, this power and influence can never be used (even if there was a desire to do so) to interfere with popular liberty, it would be absurd to suppose that it would not be used to the advantage in every way of the body able to wield it. It is plain to the dullest comprehension that a religious organization, representing nearly one half of the inhabitants of the Confederacy, will be all powerful in that Confederacy, particularly when it is an organization that generally acts as one man, and when the other half of the population is divided into various religious organizations, often acting in distrust of each other and rarely, if ever, acting in political concert.

THE QUEBEC SCHEME .- The Ottawa Times, organ of Attorney General McDonald, in noticing the action of the Nova Scotia Legislature on Confederation capable of being construed as an aggression. Peace says:-

There is something sensible in meeting any objectonable provisions of the Quebec Scheme openly and with candour, and we are glad that Nova Scotia is taking this course. It is impossible that a conference constituted as proposed, to be held in London, should not be able to arrange the details in an acceptable form. We congratulate our fellow-colonists on the Reform Bill. A division was not likely to take place wisdom of their resolve, and all the Provinces upon the prospect of their early union. Should the resolution of Nova Scotia be acted on, we shall not be surprised to see Confederation an accomplished fact 20th the belief in a pacific adjustment of the German before the end of the coming summer.

There can, therefore, be the less objection to a new convention of delegates from all the Provinces, in London, in order to the final adoption of articles of Confederation. We presume that in the event of a convention in London, the imperial authorities would assume the character more of umpires, to decide matters upon which the delegates might disagree, than of co-ordinate members or the 15th has submitted propositions for future disdelegates taking an active part in the ordinary discussions of the convention. ARRIVAL OF THE "HIBERNIAN." NEW YORK, May 1.

Hibernian with Liverpool dates to 20th April passed Father Point last night. German advices continue to be more favourable,

and there is growing belief in peace. A Vienna telegram of the 18th says Bavaria, Wortemburg, Saxony, Baden and Darmstadt, are quite satisfied on the German and Federal question. Should war occur, they would al! be on the side of Austria. Their agreement has encouraged the hope that peace would not be disturbed. The Berlin correspondent of the London Times says, "Count Bismarck has repeatedly tendered his resignation within the last few days, but has been unable to obtain the sanction of the King to his withdrawal."

The modification of the Cabinet will probably be accelerated by the Emperor of Austria having informed the Emperor of thh French that under the circumstances, he would not object to lay the question of the Duchies before an European Congress. The same writer says most positively that no concentration of troops has taken place at any part of Prussia, and that there is not a trace of any measure meetings continue to be held in the large town throughout Prussia.

MR. HOWE AND KILLIAN. -- The Hamilton (Canada) Spectator says :-

When the people of Nova Scotia come to find, as they have by this time found, that Mr. Howe is by his course, unwittingly no doubt, but none the less successfully, aiding the Fenian designs as announced the other night by Killian, they will be disposed to doubt his judgment, and to fear that his right hand has lost its canning. Our object, said Killian, is to prevent the adoption of the Confederation scheme, by keeping the Provinces in a state of turmoil and fear, and by this means assist the American Government in carrying out its traditional policy ; and Mr. Howe, with as much carnestness as if he were a head centre himself, lends his powerful aid to the conspiracy, and declares that so long as these Fenians are on our borders we must avoid all constitutional changes, and leave questions of Confederation to be settled when they shall, in their good pleasure, consent to depart. How startlingly do the policy of Killian and Howe harmonize!

We have the evidence to prove that in cases where men, by exposure to malarious awamps, bottom lands, rice fields, etc., used Radway's Ready Relief, invariably escaped sickness; those who did not, were seized with Dysentery, Swamp Fevers, Billions Fevers, Diarrhosa, Cholera, Rhoumatism, &c., and those only who, when thus seized, used the Ready Renef, entirely recovered.

ITS UNIVERSAL USE.

It cures the worst diseases incidental to all climates. It has been tested in Asia, Africa, South America, Europe, East and West Indies, and cured the worst forms of Cholera, Dysoutery, Fluxos, Fovers, Yellow Fover, Swamp Marsh, Ship and other Fevers-and never failed in protect. ing persons who used it as a proventive against attacks:

WHY NOT?

If Radway's Ready Relief possesses such remarkable disinfecting, neutralising, strengthening, aperient, suodo-rific, anodyne, and other properties, as to cure the worst forms of disease as they exist, in the most sickly climates of the world, and where the poisonous malaria is so thick that you may almost "out it with a knite," why not care, with the great ease it does, all sorts of fevers of the milder type, mour own climate? Diarchosa. Dysentery, Fever and Ague, Billious Fever, Influenza, &c., are but the milder and weaker forms of the more terrible diseases. If it cures the worst forms as they exist in the most sickly climates, it will readily cure the leas as they prevail 'amongst
