THE LUMBER TRADE OF OTTAWA is this year particularly active. The number of logs brought down to the mills is larger than in any previous years, while the demand for lumber is very great. Already nearly 10,000 logs have come down, and many more are on the way. Such is the activity of the trade that new mills are being erected, and increased facilities for sawing are being made; and it is calculated that nearly 100 millions of feet of lumber will be turned out of the Ottawa mills this year, a great deal of which is destined for the United States Markets. That does not look as if the abrogation of the Reciprocity Treaty had greatly affected that branch of Canadian trade so largely enjoyed by Ottawa.-Montreal Paper.

(From the Boston Journal of the 14th.) The excitement in the gold market on Saturday was intense throughout the day, and in New York the speculators continued to operate until a late hour at night. The transactions are said to have been enormous. At 10 P. M., the quotation was 1611, and adopted a bill for the suppression of religious houses. at 11, 163. Cash gold was scarce, and the last loans were made at ½ per cent. premium. Several large stock speculators who had been working against a rise in gold, met with heavy losses by the sudden advance.

The recent heavy shipments of gold from this country to England had commenced arriving out just previous to our latest advices from abroad, and the opportune arrival of such a large amount of specie had raised American credit immensely. A private letter from London says-It was generally conceded that the specie sent from the United States saved general bankroptcy in England. (!!) The business firms that federation. are connected with American trade, stand in higher credit than all others. The sending away so much gold from this country undoubtedly produces some regret here, yet it is a gratifying fact to learn that our credit is thereby sustained as it never was before.

DR. KNIGHTS' HAIR DRESSING

A dressing for Children's Hair, which can be used withut fear of injury to its growth or texture, has hitherto been unattainable. Most, if not all, of the Hair Dressing heretofore sold at the Drug Stores are composed chiefly of oil and alcohol-ingredients which are antagonistic to the life of the hair.

Knights' Hair Dressing

Contains neither oil nor alcohol, is purely vegetable in its sition, and is the most perfect HAIR RENEWER AND INVIGORATOR that has ever been made available to the public

Persons whose hair has been thinned by sickness or age, bould give this preparation a trial, with the assurance that a luxuriant growth of hair will result, unless the roots are lead, when such an effect is impossible.

KNIGHTS' HAIR DRESSING

is an elegant preparation, exquisitely perfumed, inclines the hair to curl, will not soil the skin or any article of apparel, and is fast superseding the pernicious articles which have so long deceived a credulous public.
