NEW AND GREAT TEMPERANCE MOVE-A new and great Temperance movement has been inaugurated in the United States, which promises most important practical results. The cause of temperance has been on the retrograde in that country for several years. Especially during the war, and since, has the evil of intemperance increased beyond any preceding period. Law has been set at defiance, tippling shops have been multiplied, drinking of the best young men of the country are said to be people together from day to day during the week, in has everywhere been on the increase, and multitudes annually sacrificed to the demon, while the making adapted to quicken religious thought, to strengther of fermented drinks is opening the way for the use of the bonds of christian union, and to stimulate to ear alcohol in other forms, and the evil is constantly be- nest endeavours to win souls to Jesus. We should coming more formidable and dangerous, In August last, a National Temperance Convention of between three and four hundred persons, from twenty-two different states, was held at Saratoga, New York. That | cently presented to the Rev. Cuyler, and J. W. Chickering, of Boston. These, and other gentlemen of well known zeal and energy at the head of this movement, affords a good warrant that it will be prosecuted persistently, and that the war will be carried into the very camp of the enemy. The religious and sober portion of the community seem to be aroused, and as one writer well says, "It will require the united toils, gifts, prayers, and influence of every pastor, every philanthropist, and every patriot to carry forward the movement, The time has come for it, it is a work that God deupon the pledge of total abstinence from all using, amount. making, or selling intoxicating drinks as a beverage. | CANADA. - There are eleven Baptist Associations A publishing department is to be opened to supply the | Canada, comprising 221 churches with 14,092 men country with the best temperance publications and do- bers.
