Comething New .-- PEARL ALBUMEN PAPER .-Its advantages are :- 1st.-Less time is required in floating, as the chemical changes are sooner completed, 2nd.—Less silver is used, as the paper does not become

saturated with the solution. 3rd.—The paper is much less liable to turn brown of yellow in worm or damp weather; discoloration of the paper is always caused by too long floating. 4th .- A weak solution is nearly sure to dissolve off the albumen, thereby becoming discolored much sooner than a strong one; also produces mealiness.

5th. -The lustre of the paper is preserved.
