THE FORTIFICATIONS OF MONTREAL, -The Minerve of yesterday says: "Engineer officers have arrived at Longuell within the past week, and have comnenced preliminary operations in regard to fortifications. We learn from a reliable source that the pole, and Earl Devon replaces Mr. Hardy as Chair-British Government has given orders to send a considerable quantity of war material to Canada."

We learn from the Pictou Standard, "that certain parties in Toronto have made arrangements to estabish steam communication between Toronto, Canada West, and Pictou. The steamer 'Her Majesty' will run during the present season of navigation between Toronto and this port, calling at all the lake and river ports as far as Quebec; she will call at Gaspe, Pierce, Chatham, Newcastle, Richibucto, Shediac, Charlottetown, and Pictou. 'Her Majesty' is a steamer of about six hundred tons measurement. She was to leave Toronto on her first trip about the fifth of May. Mr. Benner, the agent of the company, states that an extensive trade is anticipated, which, if realized, will lead to the establishment of a weekly line of steamers on the line, carrying downwards assorted cargoes of goods suited to the markets on the route, and carrying a return cargo of coal from

THE DUCHY OF LUXEMBURG. - The Grand Duchy of Luxemburg, which the cable dispatches inform us the Emperor Napoleon has been negotiating to purchase for France, or obtain by some other means, is a territory at present belonging to Holland. kin & Co.; brigt Alice M , Lane, Drogheda, J. Robertson

WITH corrupt, or tainted Blood, you are sick all over. It may burst out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities; it expels disease and restores health and stimulates the organs of life into vigorous action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, irregularity, Suppression, Whites, Sterility, also Syphilis or Venereal Diseases, Liver Compla nts and Heart Diseases. Try Ayer's SARSAPARILLA, and see for yourself the surprising activity with which it

cleanses the blood and cures these disorders. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsapa parilla for one dollar. Mest of tuese have been frauds upon the sick, for they not only contain little, it any, Sarsaparilla, but often no curative ingredient whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name has become synonymous with imposition and cheat. Still we call this compound, "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the ground for believing it has virtues which are irresistible by how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered. AYER'S CHERRY PECTORAL is so un versally known to surpass every other medicine for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them. Prepared by Dr. J. C. AYER & Co., Lowell, Mass, and sold by all laruggists and dealers in medicine everywhere.

PHOTOGRAPHIC GUM REGIALINE, FOR MOUNTING PRINTS. Patented February, 1867. ONE OF THE BEST PHOTOGRAPHIC IMPROVE-MENTS OF THE DAY.—Since the discovery of

Photographic paper printing, it has always been a greadesideratum to obtain an adhesive harmless substance as : medium for mounting Prints. Gum Arabic, Dextrine and other Gums have each had their day and have been rejected for various reasons. After grea labour and expense we have succeeded in inventing and perfecting a purely Vegetable Gum of most

extraordinary adhesive properties, containing no deleterious ingredients whatever. It is in every respect superior to Gum-Arabic for mounting prints. We beg to state i has the following advantages over every other Gum now in use in Photography: 1st. It does not Sour, Mould, Ferment or Decay by Age 2d. It dries very quickly and thoroughly. 3rd. Its light color, perfectly white when applied to paper. 4th. It will not injure the most delicate picture or color. 5th. It bein sold in a liquid form saves all the trouble of boiling. 6th. Being very thinly applied, makes a saving of fifty per cent

7th. The mounted print is much more brilliant than wit. any other Gum. Many other qualities makes it the ne p'us ultra of adhe sive Photographic Gums. One trial will convince all the extraordinary properties of this Gum. BOBINSON BROTHERS.
