Family Sewing Machine.

THIS convenient little Machine has been manufactured and sold in Canada, with slight improvements from time to time, for more than five years past, and has also been exported in large quantities to England and Germany ; but has never been introduced into these Lower Provinces until by the undersigned Agents within the past few months, and is therefore not to be mistaken for other small Ma-chines of an inferior kind. This Machine is equally adapted to all kinds of family work, fine or coarse. The machinery is strong and the work durable. It is very easily inderstood and managed, on account of its simplicity; with the printed instructions, any one of ordinary capacity can learn its use without other aid. It is not liable to get out of order. It has all the latest improvements. We warrant the Machine to do all that is promised for it. In case of damage by accident or otherwise, repairs will be effected at reasonable charges. Cash orders by mail attended to as promptly as possible, and the Machines packed with care. All appurtenances included in the above price. From numerous testimonials in hand, we select the few following :

" Taking all things into account, is is undoubtedly the est Machine for family use. Its cheapness, combined with ts efficacy, makes it the Sewing Machine for the Million ---After some months' trial, it is only justice to say, that it has far exceeded our expectations, and proved itself an efficient Machine for all ordinary purposes."-Canada arm r. The neatness, strength, and durability of the Sewing is
