But the countess would not allow her to leave without putting a large piece of gold into her hand, which the peasant girl at first refused to accept. I had been afflicted for several years with an internal Tuor, and four years ago I was taken sick with a fever ; the d complaint also revived. I had a Doctor attending me, at continued to get worse ; we sent for another Doctor. He pronounced it a hopeless case, and said I could not live CAUTION! CAUTION! CAUTION long. He said the Tamor was then as large as a pint bowl, and was assuming a cancerous nature. I suffered mor han tongue can tell. My friends expected me to die daily tion the public against spurious imitations of his highly celebrated Washing Crystal, which is the most harmless They were called in to see me die, and I was reduced to a mere skeleton. I suffered in this dreadfal manner for upwards of two years. I at length, as a forlorn hope, was inother deadly mixtures so common to be found amongs luced to try your medicine. The first lot seemed to make ae worse, and I became discouraged ; but the Rev. A. W. arss advised me to continue. I did so, and soon began improve, and I am now well again, and a wonder to my washes every thing, and has rapid sale self and neighbours. I feel as one raised from the dead. I

am a young woman of 26 years of age. I state these things or the benefit of suffering humanity, and I cannot begin describe the severity of my case-it is widely known in . e County of Yarmouth, Nova Scotia

### ULCERATED CANCER CURED! Who needs better proof than the following voluntary

estimony of Mrs. HANNAH BALMAIN, of Wickham, N. B. : Some four years since there came a lump in my breast, and at the time I did not know what it was; but on showing it to three Doctors, they told me it was a "CANCER," and for which the knife would have to be applied; then again, I went to a female Doctor, who has been in the habit of curing Cancers by drawing them out, but she informed me that it was deep in the flesh and too long seated, and therefore could not help me. Knowing that something must be done, I concluded to try your medicine, which I s w advertised in the VISITOR. Accordingly, I sent for a can of Ointment and Powders for making the Syrup, which used without the slightest change at the time. I began TUST RECEIVED ex Schr. Charlotte-7 bris, BEANS. to think it was a failure, but concluded to give it another trial; consequently I procured another can of Ointment and Powders, and from its use it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining, one of which ran for two and a half years, the other healing up in about two months after it broke, during watch time I used your medicine regularly. I may here state, that the last Ulcer healed up about thirteen months ago, since which time I have enjoyed good health ! Yes, I may say better health than I have enjoyed for years. I remain yours, respectfully,

MRS. HANNAH BALMAIN. Wickham, Q. C., February 11, 1867.

The above was a very severe case of Scrofola of four or ve years standing, and after having baffled the skill of the best Physicians and almost every other Patent Medicine, and the child appeared to be on the verge of the grave, and the parents having lost confidence in every thing in the nedical line, we undertook the cure for a certain sum, and f we failed were to get nothing ; but we succeeded, as we do in every case of Scrofula we undertake. Nearly the whole of the bone-from the knee to the ankle-came out a pieces from time to time. ROGERS & CO.
