### INVOCATION.

Too long, O God, too long my silent lyre Upon the bending willows has been hung; Too long within my breast the sacred fire Has smouldered, and my song has been unsung.

Too long, O God, my feeble knees have faltered With hesitating steps, along thy way ; Too long my weary feet have faintly halted Beside the road that leads to endless day.

Too long, O God, my dormant soul has slumbered, Too feebly grateful for thy bounteous love, O, help me with the raptured hosts unnumbered, To praise Thee here, as Thee they praise above.

Help me to seek on earth not wealth or station ; But strive to do thy sovereign will below ; And bowing at thy feet in adoration, My duty to thyself and man to know.

O God, attune my heart to heavenly measure, And fill my soul with harmony divine; Give me, in serving Thee, my highest pleasure, And let my will be swallowed up in thine. Prairie Centre, April, 1868. F. E. A.

This was asked by some half-dozen bright-eyed. white-haired old man, with a very pleasant face. Indeed, Father Time had left bis marks there deep and strong; but it was a very true and clear letter of praise that those who ran might read.

One little boy answered, "Well, Uncle, I'll tell you: We were talking with father about you, and I asked him what made everybody like you so well, and he told us to come to you ; he thought you would tell us the secret. Now please do."

Then the old man said :--

"But look here, boys, you come and sit with me tell you what happened to me when I was quite a young man, which I think has made a life-long impression upon me.

"Well, to begin, as the story-tellers say, when I was a young man, I lived far away from here, in a hilly country, and very near where I lived was what is called a mountain gorge, which was some ten feet wide. Now to get on the opposite side one must travel some four or five miles; so the neighbors conclu-The month of December in the year 1807 was un- ded to have a bridge built, and each one that crossed usually cold and blustering. The next morning the thermometer was down to zero, the banks in front of the house covered the stick, in search of "larnin," as his father called it. On entering the school-room in season to see that the fires were sufficient for the severity of the day, Master Maynard observed sitting on a bench, and warming himself by the blazing logs, a youth whom he had never seen before. There was an expression on his brown face which fixed the attention of the teacher, and the following conversation took place : " Have you come to join the school ?"

There was something in the cool, resolute manner | lar in the class. in which the youth undertook to conquer difficulties, that interested the teacher. He told the stranger to think we may give our hearts to God ?" remain through the day and he would see what could be done. Before night he had made arrangements in know who God is," said Lillie. the family where he was boarding, that the young man should remain, paying his expenses by labour out of school hours.

Our friend now gave himself diligently to study, and soon convinced his teacher that, though not possessed of brilliant talents, his will to acquire knowledge was indomitable. Through the winter he made good, but not rapid progress, and so much interested his teacher by his perseverance, that at the close of the term, that gentleman made arrangements with a clergyman who resided four miles from his father's house, to hear his recitations.

At last he was prepared for college and the theological school, being one of the earliest members of the Seminary at Andover, from which place he went to Greece as a missionary of the American Board of Commissioners for Foreign Missions.

I scarcely need say that I have given the early history of Dr. Jonas King, whose indomitable perseverance, amid discouragements and persecutions, has done so much for the redemption and Christianization of Greece, and has excited the admiration of the whole Christian world,

THOUGHTS ON DEATH.

Man dieth and wasteth away; And where is he? Hark ! from the skies Hear a voice answer and say-The spirit of man never dies; His body, which came from the earth, Must mingle again with the sod, But his soul, which in heaven had birth, Returns to the bosom of God.

The sky will be burned as a scroll; The earth wrapped in flames will expire; But free from all shackles the soul Will rise in the midst of the fire. Then why do we mourn for the dead Who rest from their labors, forgiven ; Learn this from our Bibles instead-The grave is the gateway to heaven !

O Lord, thou Almighty ! to Thee We turn as our solace above; The waters may fail from the sea, But not from thy fountain of love. O teach us thy will to obey, And sing , with one heart, and accord The Lord gives-the Lord takes away-And praised be the name of the Lord !

Chairman of the London Board.—SAMURL BAKER, Esq. Chairman in Liverpool.—CHARLES TURNER, Esq. The Royal Insurance Company is one of the largest

Offices in the kingdom. At the Annual Meeting held in August 1859, the following nighly satisfactory results were shown :---

FIRE DEPARTMENT.

The most gratifying proof of the expansion of the busi ness is exhibited in the one following fact-that the increase alone of the last three years exceeds the entire business o some of the existing and of many of the recently defunct fire insurance companies of this kingdom. The Premiums for the year 1855 being......£130,060 While the Premiums for the year 1558 are .... 196,148 Showing an actual increase of ...... 66,088 or upwards of 50 per cent. in three years. The recent returns of duty made by Government for this latter year (1858) again show the "Royal" as more than

maintaining the ratio of its increase as stated in former years Only one among the London insurance offices exhibits a advance to the extent of one-half the increase of the Com pany, while all the others respectively fall far short of the moiety of its advance.

LIFE DEPARTMENT. rne amount of new Life Premiums received this year i by far the largest received in any similar period since th commencement of the business, and must far exceed th average of amount received by the most successful office in the kingdom. The number of policies issued in the yea was 832, the sum assured £387,752 6s. 8d., and the premi-£12,854 Ss. 4d. These figures show a very rapid extensio of business during the last ten years. Thus :--Years. No. of Policies. Sums Assured. New Premium £48,764 17 0 £1,380 9 1848 98 . . . 95,650 9 11 190 1850 181,504 10 6 161,848 18 4 1852 422 1. 10 4,694 16 8,850 8 1 1854 408 x. 703 297,560 16 8 1856 887,752 6 8 1858 832 12,854 8 The remarkable increase in the business of the last for years, is mainly consequent upon the large bonus declar in 1855, which amounted to no less than £2 per cent. ] annum on the sums assured and averaged 80 per cent. up

the premiums paid. PERCY M. DOVE, Manager and Actuary. JOHN M. JOHNSTON, Secretary to the London Board All descriptions of property taken at fair rates, and Fin losses paid promptly, on reasonable proof of loss-withou ference to the head Establishment.
