after being locked up for two hours, returned a verdict for the plaintiff in the sum of $556.91, five of the Jury agreeing.

The case of Catherine Hurley, charged with robbing Robert Snell of a sum of money, occupied the attention of the Court yesterday afternoon. The Jury returned a verdict of 'not guilty.' Attorney General for the Crown, and W. P. Dole and F. P. Robinson for Defendant."

Mr. Fortin, for a long time Canadian Fishery Commissioner, estimates the catch of the northern coasts of New Brunswick in 1866, at 10,000,000 lbs. That of three Counties in the Province of Quebec, he places at no less than 37,000,000 lbs. The magnitude of the fisheries of these Provinces is not generally known.

SUDDEN DEATH.—From the Newcastle *Advocate* we learn that Mr. James Young, of Tracadie, Gloucester County, died suddenly at his mother's residence on Thursday the 16th inst. Mr. Young was about thirty years of age, and leaves a young widow to mourn this sudden bereavement. He was a brother of Hon. Robert Young.—*Tel.*

FIRE.—Two tenement houses at Welchpool, Campobello, occupied by three families and owned by Mr. Robinson, were burned to the ground on Saturday last. The fire originated from a defect in the chimney. The loss was about $1,000. Not insured.—*Sentinel.*

THE NEW STEAM GRIST MILL AT SUSSEX, of which Messrs. Flewelling and Beer are the proprietors, is now ready for work. Wheat, corn, and other grains can now be ground at this mill in the best manner, and it is expected that a large business will be done.—*Journal.*

A new Baptist Meeting-house at South Richmond is to be dedicated on the 5th of February at 10 o'clock, A. M.

Rev. W. S. McKenzie delivered the ninth lecture of the course before the Mechanics' Institute on Monday last. His subject was the "Progressive march of human history," and the theme was handled with much ability. The ancient civilization was compared with that of the present day. The Greeks have never perhaps been excelled in the fine arts, in oratory or in literature; yet they scarcely understood what constitutes real progress, the advancement of mankind as a whole. In this we are their superiors. The tendency of the modern civilization is to elevate the whole human race—to educate, to improve, physically, mentally and morally the inhabitants of the whole world. The lecture displayed much research and vigorous thought. There was a very respectable audience, considering the unfavorable state of the weather.—*Visitor.*

A fire broke out on Tuesday in a house at Reed's Point belonging to the estate of the late Dr. Boyd. It was extinguished without having done much injury.

It is reported that Hon. John H. Gray is to be appointed Chairman of the Law Commission for the Dominion, with a salary of $4,000 a year, besides travelling expenses, &c.

NOVA SCOTIA.

A friend writing from Nova Scotia, says that the destitution in some parts of that Province is fearful. We learn that at West Dover, a few days ago, a young fisherman died of starvation. It is said that the family kept their condition secret.

The Rev. Wm. Murray is now on his way to his mission field in Jamaica, an appointment which he accepted in connection with the United Presbyterian Church of Scotland. He left Halifax in the *Etna*, intending to proceed to his field of labor *via* New York.

From the Yarmouth *Herald* we learn that notwithstanding the commercial depression of the past year, there is an increase in the mercantile marine of Yarmouth, at the present time, as compared with January 1867, of 6 vessels and 1,506 tons, whilst there are now building 10 vessels, mostly of a large class, amounting to 7,150 tons.

A Halifax gentleman has disposed of a large coal claim in Pictou County to a Canadian Company, for $70,000.

A Company is being formed in Halifax to procure a ship to go to New Zealand. They propose leaving Halifax about the first of August, and will sell the vessel on arriving at New Zealand. Each shareholder will be entitled to one free passage. The shares are to be one hundred dollars each. The Company's agent is Rev. A. F. Porter, Halifax.

Dr. W. G. Sutherland, who was tried in Halifax recently on a charge of causing the death of a child by selling to her mother *tartar emetic* for *cream of tartar*, was acquitted, the Jury not leaving their box. The Chief Justice congratulated Dr. S. on his honorable acquittal, and the announcement of the verdict was received with loud applause.

MONTREAL, Jan. 28.—At a meeting of the St. Patrick's Society last night Hon. D'Arcy McGee was formally expelled by a unanimous vote.

"THEIR NAME IS LEGION," may be applied to those who die annually of Consumption. Science has of late years sensibly diminished the number, and it is gratifying to know that *Dr. Wistar's Balsam of Wild Cherry* exerts a potent influence in attaining this end.

BRITISH AND FOREIGN.

At the ministerial dinner, given at Bristol last evening, Lord Stanley, who was present, made a very significant speech.

Referring to Ireland he said that Ireland had never been in a more prosperous condition, nor had she ever been more disaffected. The latter he attributed mainly to the designs of American soldiers.

He thought that the proposed church reforms ought to go over to the next Parliament, and as to the land reforms in Ireland they were out of the question.

Duffy, the Fenian, who was arrested at Dublin and sent to Milbank, died there to-day.

The Spanish Minister of Foreign affairs has addressed a note to the Diplomatic representatives of Spain at Florence in answer to the despatch from Prime Minister Menebra.

The Spanish Ambassador is instructed to inform the Italian Government that Spain is determined to maintain the integrity of the Imperial power of the Head of the Church at Rome, but in no other respect will she interfere in affairs of the Italian Peninsular.

The Ambassador of Austria and Italy had an audience with His Majesty the King of Prussia, and presented the credentials as Minister from their respective countries to the confederation of the North German States

The Rigsdag to-day met in secret session.

The subject under consideration was the sale of the Danish Islands in the West Indies to the United States.

It is generally understood that the treaty of transfer was approved.

The great Belt is free from ice, and navigation by that passage to the Baltic is open.

LATER FROM THE ABYSSINIAN EXPEDITION.

ZOULLA, ABYSSINIA, Jan. 14, }
Via LONDON, Jan. 24. }

Information has been received here from the British Expedition, Post No. 1, on the line of March from Annesley Bay, and from the headquarters at Senape, Post No. 2, that King Theodorus is in camp in a position situated between Wadela and Dalanta, near the Palace of Magdala, where it is presumed all the captives are at present held. Native rebel chiefs have drawn their forces in his front, and by this hostile attitude aid the English. The powerful Wagshum or Governor Gabazyd or Gabazyd of Tigre is also near. He is friendly to the foreigners, and had sent a message to this effect to Major General Napier, the British Commander-in-Chief.

Napier will probably advance from Senape to Unitalla, which will be designated as English Post No. 3. A fight will occur soon, perhaps before the English march over the ground lying between Senape and Unitalla.

A EUROPEAN WAR LOOMING UP.

PARIS, Jan. 24.

The semi-official *La Patrie*, in an editorial, observes that Prussia is the only power not now in harmony with all the rest of Europe. Efforts of this character to tranquilize the public mind, and give assurances of prolonged peace, are singularly antagonized by the fact that every Power in Europe is entirely engaged in arming itself as if for anticipated war. It is said that a new French loan to the amount of a hundred and fifty million francs will surely be put on the market soon.

ST. PETERSBURG, Jan. 24.

The *Baron Zeitung* published here calls attention editorially, to the fact that the new French Bill materially increases the power of Louis Napoleon, and is sure to prompt him to assume a higher stand and a bolder tone in regard to European politics.

The *Journal of St. Petersburg*, the official organ of the Government, has an article in reply to the assertions made by some of the Paris newspapers relative to the attitude and intentions of the Russian Government, particularly toward the East.

The *Journal* says that the Empire of Russia is great, powerful and strong; in its resources it is equal to France. At the same time it is neither her wish nor perhaps her policy, to seek to extend her frontier, but on the contrary to endeavor to maintain peace so as to ensure a continuance of progress. She bears no ill-will or hate to the other powers of Europe, but does not wish to see any of them claiming particular preponderance in the influencing of its affairs, nor will Russia allow others to arrogate such a position.

The article concludes with the assertion that whatever power precipitates war in Europe just now will insure for itself and deserve the execration of history in the future.

The excitement occasioned by Fenian movements still continues.

The authorities are exceedingly wakeful and arrests are made every day. On Thursday a man named Michael Gough was captured while in the act of posting a seditious handbill on the Mansion House.

Information having reached the Government that Thomas Simon, the Sheriff of the Island of Alderney, was identified with the Fenian organization, he was promptly apprehended and sent to prison to await trial.

Considerable feeling is created by the recent resolution of the United States House of Representatives, declaring the sympathy of the nation with the Fenians. The journals of London have editorials on the subject, and severely criticise this expression of unfriendly feeling toward England.

The latest dispatches received from Annesly Bay and Senafe show that the British forces have as yet made no advance beyond the latter point.

Intelligence of the condition of the British captives has been received at the camp in Senafe. They were at Magdala alive and well, and were carefully guarded to prevent the possibility of escape. It was feared by many that they would be massacred as soon as King Theodore heard of the approach of the expeditionary force, but no threatening demonstration against their lives had been made, and their treatment as prisoners remained unchanged.

It is officially denied in the most positive manner that any orders or dispatches authorizing the arrest of Mr. Train were sent from the Home Office here. The responsibility of the act is thrown entirely on the local authorities of Cork.

COPENHAGEN, Jan. 26.—The following progress has been made in the Rigsdag on the question of the ratification of the Treaty for the sale of the Danish West India Islands to the United States. In the Folksthing, or Lower House, the Special Committee appointed to consider the provisions of the Treaty and examine the details of the negotiations between the Danish and American Governments, made a favorable report. This was debated during last week in secret session. On Saturday the door of the Chamber was thrown open. After a speech from the President closing the debate, the vote was taken and Treaty of transfer was ratified without a dissenting voice. The Treaty now goes to the Landsthing or Upper House of the Rigsdag for the concurrent and final action of that body.

LONDON, Jan. 27.—The papers this morning publish a letter from the Fenian prisoner Burk, who was confined in the House of Detention at Clerkenwell, at the time of the explosion.

Burk denies in the most positive terms that he had any previous knowledge of the conspiracy and declares that if an attempt was made to afford him an opportunity of making his escape, no imitation of such purpose was conveyed to him.

The trial of Sir Cusling Early, for the crime of bigamy, which has excited great interest here, was concluded to-day.

The testimony given showed that he was married to Miss Emily Florence Magee, in the city of New York in the year 1859, that he subsequently in 1867 married Miss Elizabeth Allen in St. George's church, Hanover Square, London, and that the second marriage took place while the first wife was living. The Court was called upon to decide the legitimacy of the marriage in New York and declared it a legal and valid contract. The case was finally given to the jury who brought in a verdict of guilty. To day the prisoner was brought into court and the judge pronounced his sentence which is imprisonment for 18 months at hard labor.

DUBLIN, Jan 29.

A gun shop in this city was entered by a party of men who succeeded in carrying away nearly half a ton of powder; the Police immediately got upon the track of the robbers and have since arrested twelve persons upon suspicion of being connected with the affair; all the men arrested are Fenians.

PARIS, Jan. 30.—Moniteur of to-day publishes a report of M. Pierre Magno, the recently appointed Minister of Finance, on the Financial condition and necessities of the Empire. M. Magno says that the increased military preparations caused by the Luxemburg dispute imposed an unexpected burden upon the resources of the country, and though these preparations were long since abandoned with the termination of the dispute still they had created a heavy deficit in the estimates of the past year. Among other eventualities the report in a guarded manner admits that France may be held liable to pay the bonds of the Mexican Empire which were guaranteed by the Government. To meet the extraordinary demands upon the financial resources of the country, the Minister declares that a new loan is necessary. The report then gives the details of this loan. The amount proposed is 440,000,000 francs, which is to be taken by public subscription. M. Magno concludes his report by an appeal to the patriotism of the French people, saying, that though a heavy sacrifice is required of them, its object is to secure for France an enduring peace, which is the great aim of the emperor's policy.

LONDON, Jan. 28.—The Martello Tower at Duncannon near Wexford, Ireland was attacked last night by a party of Fenians. The garrison fired upon the assailants who, after returning the fire, fled. No casualties are reported.

Shaw the Fenian has turned Queen's evidence he positively indentifies Barrat as the man who fired the fuse that caused the Clerkenwell explosion.

The following important news has been received from Annesly Bay:—

Despatches from Senafe announce that the expedition is again in motion and a forward movement is commenced. The van has already reached Zooma, a native place some 13 miles beyond this point.

Gen. Napier will at once put himself at the head of the column of advance and push on to Antalo the capitol of the Tigre district.

TWENTY-TWO years ago Mendelsshon wrote to his sister in Rome. "God be praised, there is nothing new with us, which means that we are all well and happy, and thinking of you." He should have added in a postscript, that the eradicating nature of Grace's Salve had removed from one of his fingers a severe felon.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during th day. Take one of Radway's Pills one hour beforedinner, and one on going to bed.

If seized with Fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful prespiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief immediately, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quieting; it is sure to break up up the fever, and to neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.

Relief 25 cts.; Pills 25 cts. Sold by all Druggists. See Dr. Radway's Almanac for 1868.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER. This Salve is a vegetable preparation, discovered in the 17th century by Dr. WM. GRACE, Surgeon in King James' Army. Through its agency he cured thousands of the most serious wounds and sores that baffled the skill of the eminent physicians of his day, and was regarded by all as a public benefactor.

GRACE'S CELEBRATED SALVE.

From Mr. E. TUCKER, Depot master at Salisbury, Mass.

"I have been troubled for years with a bad tumor;—sometimes outwardly, and sometimes inwardly. During the past summer it manifested itself more than usual outwardly, and I used your Salve. All signs of it have since disappeared, without affecting me inwardly, indicating, I think, the eradicating nature of the Salve."

A Cure for Whooping Cough.

ST. HYACINTHE, C. E., Aug. 21, 1856.

Messrs. SETH W. FOWLE & SON.

Gentlemen:—Several months since a little daughter of mine, ten years of age, was taken with *Whooping Cough* in a very aggravated form, and nothing we could do for her seemed in any way to relieve her suffering. We at length decided to try a bottle of *Dr. Wistar's Balsam of Wild Cherry*. In three hours after she had commenced using it, she was greatly relieved, and in less than three days was entirely cured, and is now well. I have since recommended the Balsam to many of my neighbors, who have used it, and in no case have I known it fail of effecting a speedy cure. You are at liberty to make any use of the above you think proper. If it shall induce any body to use your Balsam, I shall be glad, for I have great confidence in it.

Yours, P. GUITTE,
Proprietor of the *Courrier de St. Hyacinthe.*

2. BAGS.—Bags when not new may be imported free for the purpose of being filled with Grain, Seed or Wool for exportation—on Bonds for exportation being given—or the amount of duty deposited, at discretion of the Collector.

3. CHURCH BELLS.—In the admission of Church Bells duty free, the Collector must be duly certified of the intention of the importer to use them only for such purpose.

4. CRUDE.—The term "Crude" implies the first condition of every article (as mercandized), and applies to White Oils, only when landed in their original packages on board ship. See Whale Oils.

5. GYPSUM.—Ground Gypsum may be admitted free when imported expressly as "Manure."

6. MACHINERY.—The declaration or oath of the Importer must be given to the effect, that the machinery, for which exemption is claimed, is to be used in the original construction of a Mill or Factory.

7. MODELS.—Models are held to be such, only when they cannot be used as the articles of which they are said to be the models, such as Stoves or Grates.

8. PRUNELLA.—The article exempted under this head is the fabric generally used for the uppers of Ladies' boots and shoes; any fabric not so generally used should not be admitted.

9. SETTLERS EFFECTS.—When entry of "Settlers' Effects" is not made by the importer in person, his declaration to the correctness of his statement of facts must be made before a Justice of the Peace. The exemption in favor of "Settlers" is not to apply to persons domiciled in Canada, or who have been absent from Canada for a shorter term than five years.

10. SOLE AND UPPER LEATHER.—Sole and Upper Leather does not include Leather dressed and prepared for purposes, other than the manufacture of Boots and Shoes, the value of which is higher than Sole or Upper Leather.

11. SUGAR.—In testing the article of Sugar for duty by the Standards provided by the Department, it is of the highest importance, in the interest of the Revenue and of the fair trader, to establish an uniform system in the use of such standards. A rigid adherence to the following simple scale, is therefore enjoined in the valuation of sugar for duty throughout the Ports of the Dominion:—

When equal to No. 1	per 100 lbs.	$3.00
" " " " 3 but not equal to No. 1,	" " "	2.60
" " " " 6 " " " 3,	" " "	2.25
" " " " 9 " " " 6,	" " "	1.90
When not equal to No. 9,	" " "	1.68

12. WHALE OIL.—In the entry of Whale Oil, duty free, the importer must produce a certificate duly attested by a Consul or Consular Agent, at the Port of Exportation, setting forth the conditions required by law, and stating the marks of the casks and the quantities contained therein.

13. UNWROUGHT OR ROUGH.—The term "Unwrought" applies to stone which has undergone no process of manufacture beyond chipping to reduce bulk.—"Rough" to castings which have undergone no process of finishing—such as filing, turning or planing.

14. WOOD.—The word "Unmanufactured" is to be understood as applying to all Timber which has undergone no process of reduction other than rough hewing.

15. SHIPS' GEAR, &c. &c.—Under the head "Ships" it will be observed that four articles, viz.:—"Cables of Hemp and Grass," "Cordage," "Sail Cloth or Canvas, from No. 1 to No. 6," and "Varnish, black and bright," are free only when used for Ships or Vessels. Entry of these goods must be accompanied with a declaration or oath that they are to be used for Vessels only. When duty paid, a Drawback will be allowed when evidence is furnished satisfactory to the Collector at whose port the duty thereon was paid, that such articles have been actually used in the building, repairing, or rigging, or outfit of a ship or vessel.
