THE SURE GUIDE. "In all thy ways acknowledge Him, and He shall direct

thy steps.' "In all thy ways," O Christian,

In things or great or small, Whatever ills betide thee, Or sorrows may befall,

"Acknowledge Him," whose promise Is firmly pledged for thee. What though thy way be darkness? He can the danger see.

" And He shall" guide thy footsteps, 'Midst dangers, thorns, and snares; Shall lighten all thy burdens, And sweeten all thy cares.

" Direct" each right endeavor, Strengthen each right resolve, And in thy onward progress, Love's purposes evolve.

" Thy steps" with steady progress Shall tread the narrow way, Till earthly clouds shall vanish Before a heavenly day. S. S. PAYNE.

TWELVE WAYS OF COMMITTING SUICIDE. A medical contemporary thus enumerates the fashionable modes of doing it:-

1. Wearing of thin shoes and cotton stockings on damp nights and in cool rainy weather. Wearing insofficient clothing, and especially upon the limbs and extremities.

2. Leading a life of enfeebling, stupid laziness and keeping the mind in an unnatural state of excitement by reading trashy novels. Going to theatres, parties and balls in all sorts of weather, in the thinnest possible dress. Dancing till in a complete prespiration, and then going home without sufficient over-garments, through the cool, damp night air.

3. Sleeping on feather-beds in seven-by-nine bedrooms, without ventilation at the top of the windows, and especially with two or more persons in the same small, unventilated bed-room.

4. Surfeiting on hot and very stimulating dinners. Eating in a horry, without half-masticating the food, and eating heartily before going to bed, when the mind and body are exhausted by the toils of the day and the excitement of the evening.

5. Beginning in childhood on the tea and coffee, 45 and going from one step to another, through chewing then he would utter a low plaintive growl, looking and smoking tobacco, and by drinking intoxicating liquors; by personal abuse, and physical and mental accesses of other descriptions.

6. Marrying in haste and getting an uncongenial companion, and living the remainder of life in mental dissatisfaction; cultivating jealousies and domestic broils, and being slways in a mental ferment.

7. Keeping children quiet by giving them pareand by supplying them with raisins, nuts, and rich "Where are you going, boys?" asked their moth- cake; when they are sick by giving them mercury, tartar emetic, and arsenic, under the mistaken notion that they are medicines and not irritant poisons. 8. I had a Doctor attending me but continued to get worse; we sent for another Doctor He pronounced it a hopeless case, and said I could not live ong. He said the Tumor was then as large as a pint bowl, and was assuming a cancerous nature. I suffered more han tongue can tell. My friends expected me to die daily. They were called in to see me die, and I was reduced to a mere skeleton. I suffered in this dreadful manner for upwards of two years. I at length, as a forlorn hope, was induced to try your medicine. The first lot seemed to make me worse, and I became discouraged; but the Rev. A. W. Barss advised me to continue. I did so, and soon began to improve, and I am now well again, and a wonder to my self and neighbours. I feel as one raised from the dead, I am a young woman of 26 years of age. I state these things of Carpets, Stoves, Dry Goods and Groceries. for the benefit of suffering humanity, and I cannot begin to describe the severity of my case-it is widely known in the County of Yarmouth, Nova Scotia,

Yours, with much gratitude, Lois A. HATFIELD. We, the undersigned, friends of Miss Hatfield, have much pleasure in endorsing all she says above, and much more might be said of this most extraordinary case. MARIAH GAVILL, MARY L. MCCORMIE.

ULCERATED CANCER CURED! Who needs better proof than the following voluntary testimony of Mrs. HANNAH BALMAIN, of Wickham, N. B. Some four years since there came a lump in my breast, and at the time I did not know what it was; but on showand for which the knife would have to be applied; then again, I went to a female Doctor, who has been in the ha bit of curing Cancers by drawing them out, but she informed me that it was deep in the flesh and too long seated, and therefore could not help me. Knowing that something must be done, I concluded to try your medicine, which I s w advertised in the Visitor. Accordingly, I sent for a can of Ointment and Powders for making the Syrup, which I used without the slightest change at the time. I began to think it was a failure, but concluded to give it another trial; cons quently I procured another can of Ointment and Powders, and from its use it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining, one of whici ran for two and a half years, the other healing up in about two months after it broke, during which time I used your medicine regularly. I may here state, that the last Ulcer healed up about thirteen months ago, since which time I have enjoyed good health! Yes, may say better health than I have enjoyed for years.

I remain yours, respectfully. MRS. HANNAH BALMAIN. Wickham, Q. C., February 11, 1867.

WHITE & PROTHERS. CAUTION! CAUTION! CAUTION THE Proprietor of PICKSTONE'S WASHING AND CLEANSING CRYSTAL, deems it his duty to caution the public against spurious imitations of his highly celebrated Washing Crystal, which is the most harmless compound extant. It is free from Lime, Vitriol, and all other deadly mixtures so common to be found amongst washing compounds. Try Pickstone's Washing Crystal, if you want ease, comfort, and economy in washing, which washes every thing, and has rapid sale. It will be found invaluable for the following domestic

purposes, viz.:—It washes all fine things, such as Muslin Lace, Crotchet Work, Baby Linen, &c,; cleaning Sponges, Combs, and Brushes; removing stains from the hands, and grease from Carpets, Cloth, Flannel, &c. It makes Hard Water Soft, and may be used with good effect in Baths, as it immediately removes all condensed perspiration from the skin. A small quantity should also be used in the foot pan. It forms a cooling and cleansing wash for the head, by dissolving a teaspnonful of the Crystal in a quarter of a pint of water; and for cleansing the Mouth, Teeth, and Gums, it is quite a luxury, by adding a teaspoonful to a tumbler of water. It renders linen beautifully white, and unlike other preparations, at the same time preserves the fabric. It contains nothing injurious to life. A child eating it by mistake, will not be injured

If you have not used this Cleansing Crystal, lose no time in obtaining it. Nothing has ever been introduced into this country which has effected such a wonderful change upon Washing Days. It saves your time—saves your clothes-saves your money; and it does not injure the most delicate hands. Pickstone's Cleansing Crystal makes washing a pleasure, reduces the cost of fuel, the wear and tear of labor, and improves every article washed. For Linens, and heavy washes, it cannot be surpassed; for Laces, and fine fabrics, it is unequalled. It does not injure the color of Prints, but strengthens and improve them—by its use they retain their original brilliancy. Flannels become white and soft like new. White things are much improved, and keep their color, even if put by for months. Thousands of Families made happy! No misery on a Washing Day, with Pickstone's Cleansing Crystal.
