THE LAST RITUALISTIC FOLLY.

The Christian World says, the consistent, bold and thorough going people who are determined that the Church of England must and shall be nothing but a Roman Catholic Church have had another field day at Brighton. It was in that town, we need hardly remind our readers, that a clergyman of the Establishment drew down upon himself the other day preaching in a Baptist chapel. That occurrence showed us what the Anglican authorities will not tolerate. It is interesting to have an illustration of what, in their eyes and those of their defenders, is mere "harmless enthusiasm." Last Sunday a harvest thanksgiving was celebrated in the church of St. James, Brighton. The place was converted, for the occasion, into a kind of Floral Hall. There was the usual amount of processioning, with as much of glaring colour and posturing as possible. The Absolution was read sitting instead of standing. The reading of the Ten Commandments was omitted. The "State prayers" of the Liturgy were read by an unordained member of the choir, while the " officiating evening of the 28rd ult.
